A MESSAGE from the Government of Ontario

Hunting has long been a popular outdoor activity for thousands of Ontario residents and visitors to the province. Each year, avid hunters take to the field in pursuit of waterfowl, deer, moose and other quarry.

Hunter support is key to the success of Ontario's wildlife management programs. This can include everything from actively participating in resource management such as habitat improvement projects to responding to harvest surveys. The sustainable management of the province's wildlife populations allows for the continued expansion of hunting opportunities, where appropriate.

This year, the ministry is updating Ontario's Wild Turkey Management Plan to provide long-term guidance for management of this species as part of southern and central Ontario's biodiversity. The tremendous success of wild turkey restoration has seen populations thriving in suitable habitats. A fall turkey season has been proposed in numerous Wildlife Management Units (WMUs) in southern Ontario. New spring turkey seasons in three central Ontario WMUs are in place for 2008.

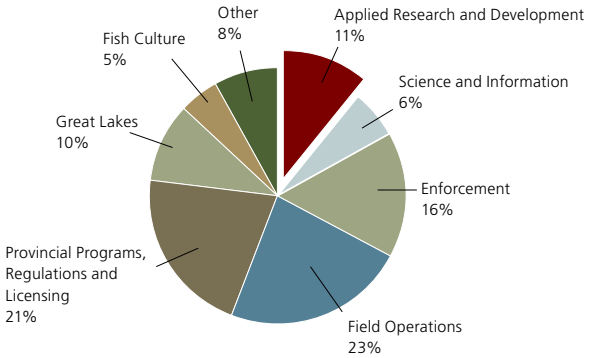
A broad review of Ontario's moose program is now underway, with special emphasis this year on updating the moose policy and population management tools. There will also be preliminary discussions on enhancements to the moose draw system this year and more in-depth discussions in early 2009. The goal is to ensure that the province's moose management program remains modern and world-class and that it responds to environmental changes and societal needs.

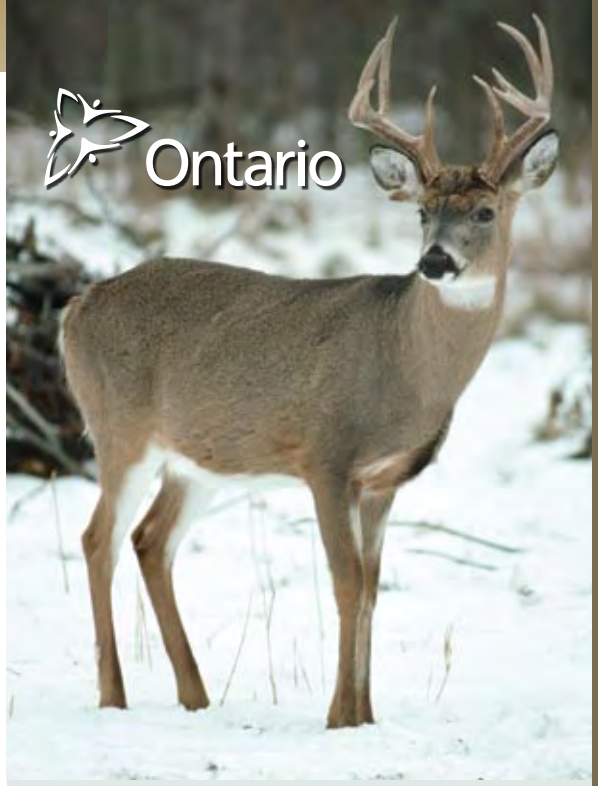
The Ontario government appreciates hunters for all that they do to support the province's wildlife management programs. By working together, we can help ensure the sustainability of our wildlife.

MNR's Fish and Wildlife Funding

Since 1996, Ontario has put all licence fees, royalties and fines collected under the Fish and Wildlife Conservation Act into a Special Purpose Account that is used exclusively for fish and wildlife management.

Revenue going into this account averages about $60 million a year. MNR's fish and wildlife program operating budget was about $82 million in 2007–08.





ATTENTION NON-RESIDENT HUNTERS

Non-resident Outdoors Card

The Ministry of Natural Resources (MNR) has embarked on a project to improve the way that hunting and fishing licences are sold, including the development of an automated licence system for licence issuers and improvements to the ministry's website and toll-free telephone service. When fully implemented, the new approach to selling licences will provide many benefits to non-resident hunters, including:

- The ability to purchase fishing and some hunting licences from home using the ministry's website or the toll-free automated telephone service
- Easier replacement of lost hunting or fishing licences
- Hunters will only have to present their hunter accreditation once to obtain their initial hunting Outdoors Card, which will then act as their proof of accreditation
- The option to purchase three-year fishing and small game hunting licences.

All anglers and hunters, including non-residents, will need a unique identification number for this system to work properly. For that reason, the ministry will be introducing a non-resident Outdoors Card, effective January 1, 2009. The non-resident Outdoors Card will be similar to the existing resident Outdoors Card and will be required to purchase an Ontario fishing or hunting licence, except for one-day fishing licences.

Important Telephone Numbers and 2008 Dates for Ontario Hunters

General Inquiry Telephone Numbers

Outdoors Card Centre (lost or stolen cards and general card inquiries) 1-800-387-7011
Outdoors Card renewal (available all year) ..... 1-800-288-1155 or *ontario.ca/outdoorscard*
MNR Natural Resources Information Centre 1-800-667-1940
In Peterborough ..... (705) 755-2000

Automated Telephone Licensing Line* – 1-800-288-1155

Wild turkey licensing telephone system ..... available March 1 to April 30
Turkey Harvest Reporting System ..... available April 25 to June 2
Moose licensing and draw application system ..... available April 25 to June 2
Antlerless deer licensing and draw application system ..... available March 1 to July 31
Controlled deer hunt draw application system ..... available August 1 to September 2
Additional deer game seals telephone system ..... available August 5 to August 22

* Please note these are automated systems and you must enter information using your telephone key pad. Please listen carefully, and follow the instructions when using this system.

Draw Results Telephone Line – 1-800-288-1155

Moose draw results ..... available August 1 to December 31
Antlerless deer draw results ..... available August 25 to December 31
Controlled deer hunt draw results ..... available October 15 to December 31

Other Important Telephone Numbers

TIPS-MNR (Natural Resources Violation Reporting Line) 1-877-TIPS-MNR (847-7667)
Canadian Firearms Centre 1-800-731-4000
Canadian Wildlife Service (waterfowl seasons) 1-905-336-6410
Banded Birds Reporting 1-800-327-2263
Crime Stoppers (anonymous tips, report a poacher Canada-wide) 1-800-222-TIPS (8477)
Forest Fires in the 705 area code (north of the French/Mattawa rivers) 1-888-863-FIRE (3473)
Forest Fires in the 807 area code (northwestern Ontario) 1-888-284-FIRE (3473)
Ontario Hats for Hides Program 1-877-295-7277

Important Dates for Ontario Hunters

Small game licences available and wolf/coyote game seals available ..... All year
Wolf/coyote resident and non-resident mandatory questionnaire deadline ..... January 15 of the following year
Wild turkey automated telephone licensing ..... available March 1 to April 30
Wild turkey and big game paper licences become available ..... March
Moose automated telephone licensing and draw application ..... available April 25 to June 2
Moose validation tag draw deadline ..... June 2
Moose surplus validation tag information from 5:30 p.m. to 9:00 p.m. (ET) – 1-800-363-3730 ..... August 18
Black bear second game seals available ..... August
Antlerless deer automated telephone licensing and draw application ..... available March 1 to July 31
Antlerless deer validation tag draw deadline ..... July 31
Controlled deer hunt automated telephone draw application ..... available August 1 to September 2
Controlled deer hunt draw paper application becomes available ..... August 1
Controlled deer hunt draw application deadline ..... September 2
Additional deer game seals automated telephone sales line ..... available August 5 to August 22
Black bear non-resident mandatory questionnaire deadline ..... November 30
Black bear resident mandatory questionnaire deadline ..... December 15

How to Use this Summary

This is a summary of information dealing with hunting licences and hunting laws. This summary is neither a legal document nor a complete collection of the current regulations. It is meant to be a convenient reference only. For complete details, see:

a) the Fish and Wildlife Conservation Act, 1997, and the Regulations made under this act;
b) the Migratory Birds Convention Act – Canada and the Migratory Birds Regulations;
c) the Endangered Species Act, 1990, and effective June 30, 2008, the Endangered Species Act, 2007, and the Regulations made under these acts;
d) the Species at Risk Act– Canada with regard to federally scheduled threatened, endangered and extirpated species and their critical habitat; and
e) the Trespass to Property Act, 1990.

Each game wildlife species or group of game species has a section in this summary. Each section deals with basic regulations on hunting the species, including open season tables (showing when and where you can hunt that species). The maps that show Wildlife Management Unit (WMU) boundaries appear on pages 6-11 of this summary.

See the Definitions on page 78 for an explanation of terms found throughout this summary. You can obtain specific details of the Regulations (including more accurate descriptions of Wildlife Management Unit boundaries) from local MNR offices.

The Ontario Hunter Education Program

The Ontario Hunter Education Program is administered by the Ministry of Natural Resources in partnership with the Ontario Federation of Anglers and Hunters (O.F.A.H.). The Ontario Hunter Education Course and exam are delivered by approximately 300 certified instructors across the province. To find a hunter education instructor in your area please contact a ServiceOntario Centre, or the O.F.A.H. at (705) 748-5785 or *www.ohep.net*. To purchase *Ontario's Hunter Education Manual*, contact an instructor or the O.F.A.H.

Two classes of Ontario Outdoors Cards and Hunter Apprenticeship Safety Cards are available to residents – one for gun hunters and one for non-gun hunters.

Consent Required

Individuals under the age of 16 must file a consent signed by one parent or guardian **before** attending the Ontario Hunter Education Course or the Ontario Wild Turkey Education Course. Consent forms are available at *ontario.ca/hunting.*

Class H1 Outdoors Card

The H1 card permits the cardholder to hunt with all methods permitted under the Fish and Wildlife Conservation Act, 1997 (FWCA). Applicants for this version of Outdoors Card will have to provide documentation that they have passed both the Ontario Hunter Education Course exam and the Canadian Firearms Safety Course exam. These courses are normally delivered in a "One-Stop" combined course, however both courses are available independently if desired. "One-Stop" graduates will meet provincial training requirements to hunt and the federal training requirements for firearms possession, acquisition and ownership.

Any person with a hunting version of Ontario Outdoors Card, Ontario Hunting Licence or Hunter Education Exam Report indicating a pass issued after January 1, 1968, and before January 1, 2006, will be eligible for the H1 Outdoors Card.

Class H2 Outdoors Card

The H2 card permits the cardholder to hunt with all methods permitted under the FWCA except guns. Applicants for this version of the Outdoors Card will have to provide documentation that they have passed the Ontario Hunter Education Course exam.

Hunter Apprenticeship Safety Cards

Similarly, two types of Hunter Apprenticeship Safety Cards are available as of January 1, 2006. The A1 card permits the holder to hunt with all methods permitted under the FWCA. The A2 card permits the holder to hunt with all methods permitted under the FWCA and regulations except guns.

Contacts

For information on the Ontario Hunter Education Program, contact the O.F.A.H. at (705) 748-5785 or *www.ohep.net.*

For information on the federal Firearms Act, contact the Canadian Firearms Centre at 1-800-731-4000 or *www.cfc-cafc.gc.ca.*

HUNTER APPRENTICESHIP SAFETY PROGRAM

Ontario's Hunter Apprenticeship Safety Program (HASP) allows individuals to safely develop their hunting skills while under the **direct and immediate supervision** of a qualified Mentor. The program provides practical training for future hunters. Two classes of Ontario Hunter Apprenticeship Safety Cards are available – one for gun hunters and one for non-gun hunters.

Class A1 Hunter Apprenticeship Safety Card

The A1 Hunter Apprenticeship Safety Card permits the cardholder to hunt with all methods permitted under the FWCA. Applicants for this version of the Hunter Apprenticeship Safety Card must be 12 years of age or older and will have to provide documentation that they have passed both the Ontario Hunter Education Course exam and the Canadian Firearms Safety Course exam. These courses are available in a "One-Stop" combined course; however, both courses are available independently if desired. Graduates will meet provincial training requirements to hunt and the federal training requirements for firearms possession, acquisition and ownership. (**NOTE:** To own, acquire, and register a gun you must be 18 years of age or older).

Class A2 Hunter Apprenticeship Safety Card

The A2 Hunter Apprenticeship Safety Card permits the cardholder to hunt with all methods permitted under the FWCA and regulations except guns. Applicants for this version of the Hunter Apprenticeship Safety Card must be 12 years of age or older and provide documentation that they have passed the Ontario Hunter Education Course exam.

Other HASP Requirements:

- Written permission of parent or legal guardian is required if the applicant is 12 to 15 years of age.
- The applicant must be a resident of Ontario.
- The Apprentice, while hunting, must be under the **direct and immediate supervision** of a Mentor who is 18 years of age or older, and who holds a valid Outdoors Card of the equivalent class and hunting licence for the game species being hunted.
- The Apprentice must share a **single firearm** with the Mentor.
- An Apprentice must possess a federal Migratory Game Bird Hunting Permit to hunt migratory game birds.
- With the exception of migratory game birds, game wildlife taken by the Apprentice must be added to the daily bag limit of the Mentor.
- If wild turkey is being hunted, the Apprentice must take the Ontario Wild Turkey Education Course and pass the exam.
- A Hunter Apprenticeship Safety Card is valid for a period of three years.
- The Apprentice must carry the Hunter Apprenticeship Safety Card with them while hunting.

Firearms

Firearms include rifles, shotguns, air or pellet guns, bows and crossbows. You may use semi-automatic or repeating firearms for hunting in Ontario, but not handguns or fully automatic firearms. Air and pellet pistols with a muzzle velocity less than 500 feet per second may be used for hunting in Ontario.

Remember: Hunting carelessly is an offence. Hunters who discharge firearms without due care and attention or consideration for persons and property are liable to a fine of up to $25,000 or imprisonment for up to two years – or both. Depending on the circumstances, a person may also be subject to charges under the Criminal Code.

ANY hunting injury caused by the discharge of a firearm and which results in treatment by a physician MUST BE reported to a Conservation Officer as soon as practical.

Before hunting, check local sunrise-sunset times. You may only hunt from a half-hour before sunrise to a half-hour after sunset (exceptions: night raccoon, wild turkey, and in some WMUs pheasant). If you are in an area usually inhabited by wildlife, during the period from a half-hour after sunset to a half-hour before sunrise, you must unload and encase any firearms (including air gun, pellet gun, bow or crossbow) in your possession.

Firearms must be securely encased in a manner whereby they are not readily accessible.

A firearm is considered to be loaded if it has a cartridge in the chamber or in a magazine that is attached to the firearm.

A **muzzle-loader** is a gun that is loaded through the muzzle. A percussion muzzle-loading gun is considered to be loaded if there is a charge of powder and a projectile in the barrel and a percussion cap on the nipple. A flintlock muzzle-loading gun is considered to be loaded if there is a charge of powder and a projectile in the barrel and the vent is unplugged.

A **crossbow** is considered to be loaded if the bow is cocked and there is a bolt in the crossbow. A bow other than a crossbow is considered to be loaded if the bow is strung and an arrow is nocked.

The draw length of a **bow** (compound, recurve, long) is the measured distance from the outer edge of the main riser (handle), following the line of an arrow to the string at the anchor point.

The draw length of a **crossbow** is measured along the bolt ramp (where the bolt rests) from the outer edge of the main limb, to the anchor point (release latch mechanism) at full draw.

Roads – Possession and Discharge of Firearms

Restriction	Area
No **possession** of a loaded firearm within 8 metres of the travelled portion of a road (or fenceline where one exists) at any time AND no **discharge** of a firearm from or across a right-of-way for the passage of vehicles at any time.	Brant, Bruce, Dufferin, Dundas, Durham, Elgin, Essex (except the township of Pelee), Frontenac*, Glengarry, Grenville, Grey, Haldimand-Norfolk, Halton, Hamilton-Wentworth, the townships of Hungerford, Huntingdon, Rawdon, Sidney, Thurlow, and Tyendinaga in the county of Hastings, Huron, Kent, Lambton, Lanark, Lennox and Addington*, Leeds, Middlesex, Niagara, Northumberland, Ottawa-Carleton, Oxford, Peel, Perth, Peterborough*, Prescott, Prince Edward, Russell, Simcoe, Stormont, Victoria*, Waterloo, Wellington, York. *except those areas listed in row 2 below.
No **possession** of a loaded firearm within 8 metres of the travelled portion of a road (or fenceline where one exists) during an open gun season for deer AND no **discharge** of a firearm from or across a right-of-way for the passage of vehicles at any time.	The townships of Barrie, Clarendon, Hinchinbrooke, Kennebec, Miller, North Canonto, Olden, Oso, Palmerston, and South Canonto in Frontenac County. The townships of Abinger, Anglesea, Ashby, Denbigh, Effingham, Kaladar, and Sheffield in the County of Lennox and Addington. The townships of Anstruther, Burleigh, Cavendish, Chandos, Galway, Harvey, and Methuen in the County of Peterborough. The County of Hastings, except Hungerford, Huntingdon, Rawdon, Sidney, Thurlow and Tyendinaga. The geographic townships of Carden, Dalton, Digby, Laxton, Longford, and Somerville in the City of Kawartha Lakes (formerly Victoria County) Counties of Haliburton, Muskoka, and Renfrew.
No **discharge** of firearms from or across the travelled portion of a right of way.	Any part of the province not listed in rows 1 and 2 above.

NOTE: The restrictions above do not apply to an unmaintained right of way.

Summary of Firearms Restrictions for Hunting in Ontario

Game Species & Season	Centre-Fire Rifle	Rim-Fire Rifle	Shotgun	Muzzle-loader	Bows (See page 21 for measurement instructions.)	
					Bow (compound, recurve, long)	Crossbow
Moose – Rifles, Shotguns, Bows and Muzzle-loaders	Yes	No	Yes, but no person shall use a shotgun smaller than 20 gauge when loaded with shot or any shotgun loaded with shot smaller than SG or No. 1 buck.	Yes	Bows must, at a draw length of 700 mm (27.6 in.) or less, have a draw weight of at least 22 kilograms (48.5 lb.). Arrows must be at least 600 mm (23.6 in.) long and have at a minimum a 22 mm (0.87 in.) wide arrow head with at least two cutting edges that are sharp, unserrated, barbless, straight and made of steel.	Crossbows must have a draw length of at least 300 mm (11.8 in.) and a draw weight of at least 54 kilograms (119 lb.). At a minimum bolts must have a 22 mm (0.87 in.) wide bolt head with at least two cutting edges that are sharp, unserrated, barbless, straight and made of steel.
Moose – Bows and Muzzle-loaders Only	No	No	No	Yes		
Moose – Bows-Only	No	No	No	No		
Black Bear	Yes	No	Yes, but no person shall use a shotgun smaller than 20 gauge when loaded with shot or any shotgun loaded with shot smaller than SG or No. 1 buck.	Yes		
Deer – Rifles, Shotguns, Bows and Muzzle-loaders	Yes	No		Yes	Bows must, at a draw length of 700 mm (27.6 in.) or less, have a draw weight of at least 18 kilograms (39.7 lb.). Arrows must be at least 600 mm (23.6 in.) long and have at a minimum a 22 mm (0.87 in.) wide arrow head with at least two cutting edges that are sharp, unserrated, barbless, straight and made of steel.	Crossbows must have a draw length of at least 300 mm (11.8 in.) and a draw weight of at least 45 kilograms (99.2 lb.). At a minimum bolts must have a 22 mm (0.87 in.) wide bolt head with at least two cutting edges that are sharp, unserrated, barbless, straight and made of steel.
Deer – Shotguns, Bows and Muzzle-loaders Only	No	No		Yes		
Deer – Bows and Muzzle-loaders Only	No	No	No	Yes		
Deer – Bows-Only	No	No	No	No		
Wild Turkey	No	No	Not larger than 10 gauge or smaller than 20 gauge. Shot size must be 4, 5, or 6.	Muzzle-loading shotgun not larger than 10 gauge or smaller than 20 gauge. Shot size must be 4, 5, or 6.		
Deer – Rifles, Shotguns, and Muzzle-loaders Only	Yes	No	Yes, but no person shall use a shotgun smaller than 20 gauge when loaded with shot or any shotgun loaded with shot smaller than SG or No. 1 buck.	Yes	No	No
Deer – Shotguns and Muzzle-loaders Only	No	No		Yes	No	No
Deer – Muzzle-loaders Only	No	No	No	Yes	No	No

NOTE: See appropriate sections for complete details.
In an area where there is an open season for deer, moose or black bear if you are the holder of a small game licence, you may not possess or use a rifle of greater calibre or projectile power than a .22 calibre rim-fire rifle chambered to .22 short, .22 long or 22 long rifle or shells loaded with ball or with shot larger than No. 2 shot, unless you possess a valid licence to hunt deer, moose or black bear as the case may be.
When hunting deer or moose you may only use or carry the type of firearms allowed.

The length of an arrow is measured from the base of the arrowhead to the bottom of the nock slot.

You must plug a **semi-automatic or repeating shotgun** so that it will not hold more than a total of three shells in the chamber and magazine combined.

On the Aulneau Peninsula (WMU 7A), from September 1 to December 15 and from April 15 to June 15, you must not use a shotgun loaded with ball or with shot larger than number 2 lead shot, steel shot that is not larger than triple BBB shot, bismuth shot that is not larger than double BB shot or a rifle of greater calibre or projectile power than a rifle known as the .22 calibre rim-fire rifle. The calibre limitations do not apply to flintlock or percussion cap muzzle-loading rifles.

Under the Criminal Code of Canada you cannot possess any clip/magazine that holds more than five shots for a semi-automatic centre fire rifle unless that clip/magazine has been specifically exempted, pursuant to the Firearms Regulations.

Contact the Canadian Firearms Centre at **1-800-731-4000** (or *www.cfc-cafc.gc.ca/*) for information about the requirements for firearm ownership and firearm licensing. For storage and transportation information, **contact your local police department**. Some municipalities have by-laws restricting the discharge of firearms. Check with the local municipal office for details.

Hunter Orange

The objective of the hunter orange regulation is to maximize hunter safety without negatively impacting hunting success. Under this regulation, **all licensed hunters, including bow hunters**, hunting during the **gun** season for deer and moose, are required to wear hunter orange. As well, all black bear hunters hunting during the black bear season are required to wear hunter orange except when in a tree stand. (This exception is in place because, unlike deer and moose, black bears have colour vision.) Waterfowl hunters, spring wild turkey hunters and bow hunters in bows-only seasons, where there are no concurrent deer or moose gun seasons, are exempt from the hunter orange requirement.

A hunter orange garment and head cover must be worn. The hunter orange garment must cover a minimum of 2,580 square cm (400 square inches) above the waist and be visible from all sides. Open mesh or camouflage hunter orange must not be part of the 2,580 square cm. A hunting coat or vest generally meets this requirement. The hunter orange head cover may have: open mesh; a peak or brim colour other than hunter orange; a crest or logo which does not completely cover the hunter orange on the side where it is affixed. The head cover may not contain camouflage material.

Hunter orange colour standards are generally consistent across North America. Manufacturers can provide information regarding clothing compliance with this standard.

Party Hunting

A person may hunt moose, deer or black bear in a party even if the person has previously attached his or her game seal to a moose, deer or black bear. The term "Party Hunting" means two or more persons hunting during an open season for moose, deer or black bear under all of the following conditions:

- Each person has a valid licence to hunt moose, deer or black bear.
- The total number of moose, deer or black bear killed by the party does not exceed the total number of game seals held by the members of the party licensed to hunt that species.
- The total number of moose, deer or black bear of a specified sex, age or type killed by the party does not exceed the total number of game seals validated for that sex, age or type that are held by members of the party.
- All members of the party hunt together in the same Wildlife Management Unit or portion thereof for which the game seal is valid.
- Each member of the party hunts within five kilometres of the person who holds the game seal that is valid for the wildlife being hunted.
- Each member of the party must be able to reliably and immediately communicate with other members of the party.
- All members of the party, including the person who holds the seal that is valid for the wildlife that the party is hunting, actively participate in the hunt and hunt co-operatively.

The person who kills the wildlife while hunting in a party shall immediately notify all other members of the party that the wildlife has been killed and the game seal holder shall immediately affix the game seal to the wildlife in the manner prescribed on the game seal.

At this point, party members at the kill site must determine the category of animals that may still be hunted. You must then make sure your other party members, who did not come to the kill site, are informed. The hunter in your party who killed the animal, and the hunter who attached the game seal, may continue hunting provided other members of your party possess valid, unused game seals.

If you have questions about party hunting, the best time to get answers is before the hunt begins. Contact a Conservation Officer at the MNR office in the district in which you will be hunting. A list of MNR offices and phone numbers is found on page 80.

Use of Vehicles or Boats

(see Definitions, page 78)

Aircraft may not be used while hunting. Snowmobiles, vehicles or boats may not be used for chasing, pursuing, harassing, capturing, killing, injuring or destroying any wildlife. **You may not hunt moose, deer or black bear while they are swimming.**

It is illegal to have a loaded firearm in or on, or discharge a firearm from, an aircraft, vehicle (including snowmobile and all terrain vehicle) or motor boat or anything towed by the boat. An exception to this rule is that a person may obtain an authorization through the local MNR office if the person's mobility is impaired and the person meets one of the following criteria:

1. A paraplegic or hemiplegic
2. A single (above the knee) lower limb amputation or a double (below the waist) amputation
3. Suffers severe disability, and cannot hunt without the use of a wheelchair or similar means of locomotion. In this case, the hunter must provide a medical certificate stating disability. The authorization is valid for a period of up to five years for a person with a permanent disability.

A loaded firearm may be carried in, and discharged from, a canoe or boat that is being paddled, with no motor attached.

NOTE: Restrictions on the use of motor boats. Under the Fish and Wildlife Conservation Act, 1997 a motor boat means a boat **with a motor that is attached to the boat** (see definition on page 78). There is an exception to this rule if you are hunting waterfowl in accordance with the Migratory Birds Convention Act.

Sunday Gun Hunting

Changes will occur over time to the areas where gun hunting on Sundays is allowed south of the French and Mattawa Rivers.

To hunt with a gun on Sunday, you must ensure:

- the season is open for the type of gun you want to use
- gun hunting is allowed on Sundays in the municipality where you wish to hunt
- the municipality does not have a "no discharge of firearms" bylaw in the area where you wish to hunt.

To confirm the status of the municipality in which you want to hunt, please check the Sunday gun hunting information available at *ontario.ca/hunting*.

Dogs

You must license any dogs to be used to hunt deer, moose or black bear. The licence holder or the person who has control of the dogs must carry all dog licences and produce the licences at the request of an officer. There is no limit on the number of dogs that may be licensed and used. Dogs may not run at large in an area inhabited by deer, moose, elk or black bear during the closed season.

You must have an authorization or licence issued from the local MNR office to conduct dog training and field trials on game mammals and game birds during the closed season, or an appropriate hunting licence during the open season.
NOTE: There is no authorization or licence that allows the chasing of wolf or coyote in the townships around Algonquin Park where there is a year-round closed season for those species.

In order to hunt raccoon at night, you must be accompanied by a dog licensed for raccoon hunting and you must have a resident's tag to hunt raccoon at night.

For a dog coming into Canada from the United States, you must have a certificate, signed by a veterinarian licensed in Canada or in the United States, stating that the dog has been vaccinated against rabies during the preceding 36 months. The certificate must have a reasonably complete and legible description of the dog and the date of the vaccination.
For more information, check with Canada Customs.

Dogs may be brought into Ontario without security if you list them as part of the Tourist Outfitter's and/or Sportsmen's equipment when completing the necessary customs forms.

Snares

Snares cannot be used, except by the holder of a resident's small game licence for taking varying hares north of the French and Mattawa rivers with a snare constructed of copper or brass wire between 22 and 24 gauge. The opening of the snare wire loop must be 10 cm (4 in.) or less in diameter.

Licensed trappers may use snares under conditions specified in the Trapping Regulations.

Poison and Adhesives

It is illegal to use poison and adhesives to kill, injure or capture wildlife.

Trespassing

A person is trespassing if the person enters onto property or carries out an activity on property that the owner has given notice is not allowed. Commonly the owner may give this notice to the general public by having a fence, sign, or symbol or by verbally telling someone.

A hunting licence does not give hunters the right to enter or cross private property.

ALWAYS ask for permission and obey signs. Signs may be in three formats:

- Red or yellow markings of such a size that a circle of 10 cm (4 inches) can be contained wholly within them. Red means no entry is permitted. Yellow markings mean no entry is permitted except for activities that may be allowed.
- Graphic representation of a permitted or prohibited activity.
- A written sign.

If it is not evident what activities are allowed, ask for permission from the landowner. Not all land is signed. Unsigned lands may be private land as well. (For example if the property is fenced, no access is permitted without permission of the landowner.) It is your responsibility to find out who owns the land you wish to hunt on and obtain permission. If unsure, stay out. **Positive landowner/hunter relationships are important to the future of hunting in Ontario.**

Be sure you are familiar with the Occupiers' Liability Act and the Trespass to Property Act, 1990 before entering private land. (You may obtain these two acts from Publications Ontario or online at ***www.e-laws.gov.on.ca***). You will also be violating the Fish and Wildlife Conservation Act, 1997 if the landowner asks you to leave and you do not do so immediately, or if you do not obey signs prohibiting trespassing, hunting or fishing.

In any county or regional municipality, you may not hunt in a party of more than 12 persons without the express permission of the occupier.

Before hunting on Indian Reserves, ask the permission of the Band Council.

If you wish to hunt deer on Barrie Island, Cockburn Island or Manitoulin Island, you must have with you a valid deer licence and the written consent of the landowner on the form provided by MNR. If you wish to hunt moose in WMU 65, you must have a moose licence, the appropriate validation tag and written consent of the landowner on the form provided by MNR.

Crown Lands

In Ontario, travel for recreational purposes on Crown lands and waters is generally free and unrestricted. Generally, camping is allowed free on Crown lands up to 21 days at one site (to qualify as a separate site which can be occupied for an additional 21 days, a second camp site must be at least 100 metres from the first location by that camper) or unless otherwise posted under the Public Lands Act. **However, some Crown lands may have restricted-travel zones for forest fire prevention, officially closed forest-access roads or specific areas posted with signs to prohibit all or certain kinds of uses or travel.**

Non-residents of Canada, except those using a camping unit rented from a person who carries on an Ontario-based business (commercial outfitter), require a permit to camp on Crown land north of the French and Mattawa rivers. Camping unit is defined as equipment used for the purpose of outdoor accommodation and includes a tent, trailer, tent-trailer, recreational vehicle, camper-back and any watercraft equipped for overnight accommodation. Contact a ServiceOntario Centre or licence issuer for permits.

Non-residents are prohibited from camping on Crown land at any time of year across large areas of northern Ontario. These areas are generally well signed; however, hunters are advised to check with the local MNR office for complete information on camping-prohibited areas.

Some Crown lands may also be posted against hunting and possession of firearms to protect forest workers or other resource users. Contact the local MNR office for the area in which you wish to hunt for further information.

For Non-Resident of Canada for Crown Land Camping Restrictions in WMUs 6, 7B, 9A and 9B, see page 52.

Work Permits

The Public Lands Act states that you must have a work permit before you construct a new building, create trails, or do other modifications on Crown land. Crown land includes the bottom of most waterbodies. For information on work permits and the application process, refer to the MNR website. **Hunters are reminded that it is an offence under the Public Lands Act to leave any material, substance or thing on Crown land.**

Provincial Parks

You may not hunt (or take) any mammals, birds, amphibians or reptiles in provincial parks, or have a firearm with you, unless otherwise provided in the Regulations. Generally, **hunting of wolves is prohibited in provincial parks.** Check with your local MNR office or the Regulations for more details and for special permit requirements for hunting in Clyde, Bruton and Eyre townships (WMU 54).

Wildlife Management Areas – Wildlife Extension Landowner Agreement Area/Provincial Wildlife Area

There are 34 Provincial Wildlife and Wildlife Extension Landowner Agreement Areas in Ontario which provide hunting. Some areas have daily or seasonal licence fees, while others may be used free of charge. See pages 7, 9 and 11 for listings. Some areas are only open on certain days of the week and for special hours and designated species. Detailed information on each area can be obtained from local MNR offices.

Game Preserves

Except where stated in the Regulations, you may not hunt or trap, or use or possess firearms in Crown Game Preserves. You may possess firearms if you live on private land within a Crown Game Preserve, but you may not hunt or trap. There are Crown Game Preserves other than those shown on the maps. Contact an MNR office for more details.

Conservation Officers

A Conservation Officer is appointed under the Fish and Wildlife Conservation Act, 1997. This term also includes a member of the Royal Canadian Mounted Police, a police officer or First Nations Constable appointed under the Police Services Act, a game officer designated under the Migratory Birds Convention Act, a park warden designated under the National Parks Act if acting under the direction of a Conservation Officer, and a person whose primary employment responsibility is enforcement of fish and wildlife laws in a border jurisdiction if he or she is acting under the direction of a Conservation Officer. Conservation Officers have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the Fish and Wildlife Conservation Act, the Migratory Birds Convention Act and the Fisheries Act. Conservation Officers also have authority to enforce the public safety provisions of the Off Road Vehicles Act, Motorized Snow Vehicles Act, Liquor Licence Act and Small Vessel Regulations. When carrying out his or her duties, or investigating an offence under these statutes or the corresponding regulations, a Conservation Officer may do the following:

- Stop and/or inspect a vehicle, boat or aircraft
- Inspect firearms, ammunition, game or fish

Hunting in Ontario Provincial Parks

Permitted by regulations made under the Fish and Wildlife Conservation Act, 1997. Hunters should check with the appropriate Park Office regarding specific restrictions that apply in each park. (* Hunting occurs in a particular area of each Park.)

SPECIES – Moose, Grouse, Varying Hare

Lake Superior*

SPECIES – Ducks, Geese, Rails, Coots and Gallinules

Darlington*
Lake of the Woods*

Winisk River
Woman River Forest

** Hunting seasons under review; please contact the park office to confirm prior to hunting.

- Ask questions relevant to the inspection
- Inspect buildings or other places
- Search with a warrant
- Search without a warrant in circumstances requiring immediate action
- Seize items related to the offence
- Arrest anyone the Conservation Officer believes has committed, is committing, or is about to commit an offence under these acts or any other legislation they may enforce.

Conservation Officers operate random "Game Check Stations" throughout the year. At these stations, Conservation Officers collect information on game taken by hunters and make sure the Regulations are being followed in order to better manage our wildlife resources.

Fish and Wildlife Conservation Act, 1997

The Fish and Wildlife Conservation Act, 1997 is the main provincial law regulating hunting and trapping. The Fish and Wildlife Conservation Act is enforced by Conservation Officers and Deputy Conservation Officers.

The penalties for offences under the Fish and Wildlife Conservation Act can include:
General offences:..... $25,000, 1 year imprisonment, or both.
Commercialization related offences: .....$100,000, 2 years imprisonment, or both.

The Fish and Wildlife Conservation Act and regulations are available at *www.e-laws.gov.on.ca*.

Reporting a Violation

If you see or suspect someone of abusing a natural resource, please call **1-877-TIPS-MNR (847-7667) toll-free any time to report a violation or call Crime Stoppers anonymously at 1-800-222-TIPS (8477)**. Be sure to include information on the exact location of the violation, date and time of the violation, and a description of the individuals and vehicles involved. Timely and accurate information will assist Conservation Officers in apprehending violators and **protect your natural resources**.

Specially Protected Wildlife

In Ontario, it is illegal to hunt or trap specially protected wildlife (see Definitions, page 79, for a list of these species). The ministry is interested in receiving information about any illegal acts involving specially protected wildlife. Please call 1-877-TIPS-MNR (847-7667).

Protection of Property

Generally, on your own land, you may capture, kill or harass wildlife to stop that wildlife from damaging your property. This does not apply to moose, caribou, elk, endangered species or the trapping of black bear. White-tailed deer may be killed or harassed and black bear may be trapped with an authorization from the ministry. You may also use an agent if the agent is authorized by the ministry or belongs to a class of agents prescribed by the regulations. There are exceptions to this. Contact an MNR office for further information. A person may not use a body-gripping trap or be in possession of a body-gripping trap unless he or she is lawfully entitled to use the trap. A person who kills a black bear anywhere in the province, or a wolf or coyote in WMUs 1A, 1C, 1D-42, 46-50 and 53-58, in protection of property must immediately report having done so to an MNR office whether or not the carcass is kept. A person who kills a specially protected raptor or furbearing mammal, other than a wolf or coyote, in protection of property and is planning to keep the carcass must report the acquisition.

Elk and Caribou

There is no open season for elk or caribou in Ontario.

Game Wildlife and Parts

You may not let the flesh of any harvested game wildlife (see Definitions, page 78) which is suitable for food be destroyed, spoiled or abandoned. This includes black bear. A hunter who kills a furbearing mammal shall not abandon the pelt or permit the pelt to be spoiled or destroyed.

It is illegal to buy, sell or barter any game wildlife or specially protected wildlife or their parts, except under the authority of a licence and as permitted by the regulations. The holder of a small game licence may sell the pelts of furbearing mammals lawfully harvested under that licence to a person who may lawfully buy these pelts. Contact an MNR office for more information.

In addition, you may purchase only the meat of furbearing mammals from a person licensed to take that furbearer, for your own use or that of your immediate family. A person selling a carcass of a furbearing mammal for consumption must advise the buyer in writing that the meat has not been inspected under the Meat Inspection Act.

A Message from Ontario's Conservation Officers

It is an offence under the Fish and Wildlife Conservation Act for anyone to trespass for the purpose of hunting or fishing.

1-877-TIPS-MNR (847-7667)

CONSERVATION OFFICER
Ontario
AGENT DE PROTECTION DE LA NATURE

A person without a licence may buy or sell a single hide of black bear, with head and claws attached, and a single hide of a deer or moose, without the head attached, and a single set of cast antlers of caribou, elk, deer and moose if they are lawfully acquired.

A person who wishes to buy more than a single hide or single set of **cast antlers** must have a dealer's licence. Please contact an MNR office.

The above regulations apply not only to meat and parts of Ontario wildlife, but also to meat and parts imported into Ontario from outside the province.

A charitable organization may apply for an "authorization to conduct a wild game dinner", issued by MNR. For information on conducting wild game dinners, contact your local MNR office.

BLACK BEAR GALLS – It is illegal to possess a gallbladder that has been removed from a black bear.

Possession of Accidentally Killed Animals

If you wish to keep the animals referenced below that have been killed by natural or other accidental causes including road kills, you must report the acquisition to MNR. In the case of black bear, moose, deer, elk and caribou, you must report the acquisition to an MNR office immediately. For specially protected raptors and furbearing mammals, you must make the report within two working days from when you acquired the animal. You need a Licence to Possess a Pelt for furbearing mammals. In addition, anyone who acquires a specially protected raptor (see Definitions, page 79) must take the carcass to an MNR office for registration within five working days of the acquisition. For migratory birds, contact the Canadian Wildlife Service, Burlington at (905) 336-6410.

For information on keeping the carcass of a big game animal, a specially protected raptor or a furbearing mammal killed in protection of property, see Protection of Property on page 27.

Beginning on June 30, 2008 there may be additional requirements regarding the possession of carcasses of species at risk (see page 4).

Import, Export and Shipping

In 2005, Ontario passed a regulation restricting the possession of high-risk carcass parts from all members of the deer family (except caribou and moose) harvested in other jurisdictions. See page 66 for details.

You must have an Ontario export permit to export moose, deer and black bear or any part thereof from Ontario. Small game with the exception of furbearing mammals (see Definitions, page 78) may be exported under the authority of the small game licence.

An Ontario export permit for non-residents is $35.00. For residents of Ontario, export permits are issued at no charge. Export permits have sub-permits attached to them for exporting a part or parts of the animal for which an export permit has been issued. You may use up to three sub-permits for this purpose. You may obtain an export permit from most ServiceOntario Centres as well as from specific outside issuers. You should obtain the necessary export permits before reaching a border point to avoid any inconvenience.

Residents and non-residents may export from Ontario game wildlife legally killed under the appropriate licence.

A resident may temporarily transport moose, deer or black bear out of Ontario without an export permit if the resident is on the way to a location in Ontario, and does not leave any of the wildlife outside Ontario.

You must have an Ontario export permit to export any furbearing mammal or its pelt from Ontario. Royalties are payable on all furbearers prior to their export from Ontario.

Unless accompanied by the hunter or trapper who lawfully harvested the animal, receptacles containing game wildlife or specially protected wildlife that are being shipped or transported to points inside or outside Ontario must have the names and addresses of the sender and receiver, and a list of the contents written on the outside.

NOTE: When planning their hunt, U.S. hunters should check on the status of requirements for the import of any wild ruminant meat or trophies from Canada to the United States, including hours of operation at ports of entry, to avoid delays when returning home with legally harvested game.

Similarly, Canadian hunters who wish to travel through the U.S. to reach a Canadian destination or hunt in the U.S. should check for any requirements for transporting meat before finalizing their travel itinerary. More information is available at the USDA website at *www.aphis.usda.gov/vs/ncie.* Click on "Import Alerts" found in the "News and Information" section. The bulletin dated July 15, 2005 provides an outline of procedures for importation of wild ruminant meat and trophies, as well as guidelines for what is/is not allowed for importation.

The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) is an international agreement which regulates trade in a number of species of animals and plants, their parts and derivatives, and any articles made from them. You need a CITES permit to export wolf, black bear or several other species from Canada.

The CITES permit requirement is waived for U.S. or Canadian residents in some instances (see page 68). In some instances both a CITES permit and a provincial export permit are required.

CITES permits are currently available free of charge from MNR offices.

More information on CITES is available at *www.cites.ca*.

It is an offence to possess wildlife that was killed, captured, taken, possessed, transported, bought, sold or removed from another jurisdiction contrary to the laws of that jurisdiction.

It is an offence to sell wildlife from another jurisdiction if the sale is not permitted in the jurisdiction that it was originally exported from.

Wildlife in Captivity

The Fish and Wildlife Conservation Act, 1997 requires you to have a licence in order to keep game and specially protected wildlife in captivity. Contact an MNR office for more information.

Field Dressing, Transporting and Processing Game

Proper handling of harvested game will help ensure a quality food product for the table. Always use a clean sharp knife and cutting tools and wear disposable gloves.

Big Game Field Dressing

Field dressing, or gutting, is the process of removing the entrails (internal organs) from the animal to promote cooling of the carcass and prevent the meat from spoiling.

- Always field dress game immediately after the kill.
- Move the animal to a clean site before field dressing.
- Roll the animal onto its back or side with head higher than the rump.
- Cut a line up from the crotch to the tip of the sternum (where the rib cage ends and the belly starts).
- It is best to cut with the blade up and out of the cavity to prevent cutting into internal organs.
- Free the colon by cutting around the anus and then tie a string just in front of the anus to prevent feces from entering the body cavity.
- Cut around the diaphragm.
- Free the windpipe at the throat and free any internal organs by cutting the tissue attaching them to the backbone.
- Do not cut open the rumen, intestines or bladder. If punctured wipe cavity with paper towels.
- Position carcass to allow blood to drain out.
- Do not wash cavity with water from the field. It is often a source of bacteria.
- Prop open the body cavity to allow air flow and cooling.
- In warm weather remove the skin and apply cheesecloth to help keep meat clean and cool. In cold weather you can leave the skin on.

Transporting

- Avoid dragging game through water, mud or dirt.
- Wipe out body cavity with paper towel if dirt enters.
- Use cheesecloth to keep meat clean if quartering animal. Never use plastic or tarps.
- Keep carcass away from engine heat, gas, road dust and sun. Allow air circulation.

Hanging and Cooling

- Game carcasses should be cooled as soon as possible to a temperature not exceeding 7° Celsius (45° F).
- Hang meat in a place that is cool and dry with good air circulation.
- Remove areas of blood clots or tissue damage with a clean knife.
- Use pepper and cheesecloth on carcass to deter insects in warmer weather.
- If you are not processing your own meat, make butchering arrangements before your hunt.
- If weather turns warm, inspect the carcass and take it to a butcher immediately if you cannot keep it cool.

Game Birds and Waterfowl

- Birds should have the entrails removed as soon as possible.
- Birds can be plucked or skinned.
- Keep free from dirt and natural water in the field.
- Birds must be cooled as soon as possible to a maximum of 4° C (39° F).
- Remove any damaged meat with a clean knife.
- Remember to leave one fully feathered wing on migratory birds when transporting.

Rabbits, Hares and Squirrels

- Peel the hide completely off and remove the tail before cutting the abdomen open and removing the entrails.
- Trim away any shot-damaged meat.
- The carcass should be cooled and maintained at a temperature not exceeding 4° Celsius (39° F), as soon as possible.

Preparing and Cooking Wild Meat for Consumption

- Always wash hands before and after preparing food and keep raw meat away from other food.
- Thaw your meat in the refrigerator, microwave or oven, not on the kitchen counter.
- Utensils, equipment and food contact surfaces must be cleaned and sanitized after each use. Disinfecting is especially important where wild game or fish is being prepared in the same kitchen as regular "store-bought" meat, poultry or fish. Disinfection must occur between the two types of preparations.
- You risk your health and the health of others when you do not thoroughly cook meat. Health officials indicate that meat must be cooked to a temperature of 82° Celsius (180° F) or higher. Use a meat thermometer to check that meat is cooked all the way through. Clean the thermometer after each use. Red meat is cooked when it is brown or grey inside and birds are cooked when the juices run clear.
- Ensure that bear meat, whether frozen or fresh, is always cooked to this temperature (and always to a grey colour, not red or pink) to prevent any possibility of Trichinosis, a parasitic disease found in bears in North America. Public health officials advise that smoking, drying, or microwaving may not cook bear meat to a high enough temperature.
- For additional information on safe food handling and meat preparation, consult your local public health unit.
- More detailed guidelines on field dressing, skinning, and processing wild game, is available in the *Ontario's Hunter Education Manual* or at *ontario.ca/hunting.*

Definitions

ANTLERLESS DEER:
Deer that have no antlers or antlers that are both less than 7.5 cm (3 inches) long. Generally, antlerless deer include adult female deer and fawns of both sexes.

BEAR MANAGEMENT AREA:
An area of Crown land licensed to an operator for providing bear hunting services to non-resident bear hunters.

BOWS:
Includes longbows, crossbows, compound bows and recurve bows.

CONTROLLED HUNT:
Hunts in which the total number of hunters is restricted. A hunter needs a controlled hunt validation tag to participate in a controlled hunt.

ENCASED:
A firearm is encased if the firearm is completely contained in a case so that it cannot be loaded or unloaded.

EXPORT PERMIT:
The permit required to take a moose, white-tailed deer, black bear or furbearer, or any part of them, out of Ontario.

GAME WILDLIFE:
A furbearing mammal, game amphibian, game bird, game mammal or game reptile.

FURBEARING MAMMALS:
Badger, beaver, bobcat, coyote, fisher, arctic fox, gray fox, red fox (all phases), lynx, marten, mink, muskrat, opossum, otter, raccoon, red squirrel, striped skunk, weasel (least, long-tailed and short-tailed), wolf, wolverine and polar bear.

GAME MAMMALS:
Black bear, woodland caribou, cottontail rabbit, white-tailed deer, American elk, European hare, varying hare, moose, gray (black) squirrel and fox squirrel.

GAME BIRDS:
Northern bobwhite, ruffed grouse, sharp-tailed grouse, spruce grouse, gray (Hungarian) partridge, ring-necked pheasant, rock ptarmigan, willow ptarmigan and wild turkey.

GAME REPTILES: Common snapping turtle.

GAME AMPHIBIANS: Bullfrogs.

HUNTING:
Includes lying in wait for, searching for, being on the trail of, pursuing, chasing or shooting at wildlife, whether or not the wildlife is killed, injured, captured or harassed. You need a hunting licence to do any of these things, except where the Fish and Wildlife Conservation Act states otherwise.

LICENCES, TAGS AND GAME SEALS:

OUTDOORS CARD:
An Outdoors Card constitutes a licence to hunt the animals and birds specified on the licence tag when that tag is affixed to the card and accompanied by any applicable paper hunting licences and game seals and/or validation tags.

LICENCE TAG:
A tag which, when affixed to an Outdoors Card, constitutes a licence to hunt animals or birds, or a class thereof, specified on the tag.

E-LICENCE:
E-licences are resident licences which are available over the Internet and must be printed by the angler or hunter. These licences, when accompanied by an Outdoors Card, allow the angler or hunter to immediately enjoy the open season.

GAME SEAL:
The seal that must be attached to a moose, deer, wild turkey or black bear and to a wolf and coyote (see page 75) as soon as the animal is killed. The game seal must remain attached to the animal while it is transported.

ADDITIONAL GAME SEAL:
A game seal, purchased in addition to the game seal that comes with the deer or black bear licence, which allows the hunter to harvest an additional animal under certain conditions. An additional game seal is NOT a licence to hunt for the species. A licence must be purchased before the additional game seal is valid for use.

VALIDATION TAG OR CERTIFICATE:
A tag or certificate which validates a licence to hunt game animals of a specified number, age or sex or in a specified area.

VALIDATION TAG (RESIDENTS):
A validation tag must be affixed to the front of the game seal to allow resident hunters to hunt adult moose or antlerless deer. In WMUs 48, 55A, 55B, 57 and 65, a specific calf validation tag is required to hunt calf moose. A validation tag is also required to take part in the controlled hunts for deer. A validation tag for a controlled hunt must be carried on your person and not affixed to the game seal.

Moose and deer licences obtained by telephone are validated by the ministry on the game seal itself. They are valid for calf moose or antlered deer in other WMUs except for calf moose in WMU 48, 55A, 55B and 57, during the regular open season providing the game seal has not been used.

VALIDATION TAG (NON-RESIDENTS):
A moose validation tag must be affixed to the back of the non-resident hunter's licence.

VALIDATION CERTIFICATE: A validation certificate must be carried by non-resident black bear hunters.

MOTORBOAT:
A boat with a motor that is attached to the boat and that is capable of being used as a means of propulsion, and includes any floating object being towed by a motorboat.

MUZZLE-LOADER:
A gun that is loaded through the muzzle. A percussion muzzle-loading gun is considered to be loaded if there is a charge of powder and a projectile in the barrel and a percussion cap on the nipple. A flintlock muzzle-loading gun is considered to be loaded if there is a charge of powder and a projectile in the barrel and the vent is unplugged.

NON-RESIDENT:
A person who does not qualify as a resident (see Resident). The ownership of property in Ontario does not qualify a person for a resident's licence.

PELT:
The untanned skin of a furbearing mammal, whether or not the skin is on a carcass.

RESIDENT:
A person whose primary residence is Ontario, and who has resided in Ontario for a period of at least six consecutive months during the previous 12 months before the time that the person's residence is relevant.

SELECTIVE HARVEST SYSTEM:
The system that controls the harvest of breeding moose and deer. The harvest of adult moose and antlerless deer is restricted to those who hold the appropriate validation tag, which is obtained through a random draw. The harvest of calf moose in WMUs 48, 55A, 55B and 57 is restricted to those who hold the appropriate validation tag, which is obtained through a random draw.

SIBLING:
Each of two or more children having one or both parents in common.

SPECIALLY PROTECTED WILDLIFE:
A specially protected mammal, specially protected bird, specially protected reptile, specially protected amphibian or specially protected invertebrate.

SPECIALLY PROTECTED MAMMALS:
Big brown bat, eastern pipistrelle bat, hoary bat, least bat, little brown bat, northern long-eared bat, red bat, silver-haired bat, eastern chipmunk, least chipmunk, northern flying squirrel, southern flying squirrel, arctic shrew, cinereus (masked) shrew, least shrew, northern short-tailed shrew, pygmy shrew, smoky shrew and water shrew.

SPECIALLY PROTECTED BIRDS (Raptors):
Bald eagle, golden eagle, peregrine falcon, northern goshawk, gyrfalcon, northern harrier, broad-winged hawk, Cooper's hawk, red-shouldered hawk, red-tailed hawk, rough-legged hawk, sharp-shinned hawk, American kestrel, American swallow-tailed kite, merlin, osprey, barred owl, boreal owl, burrowing owl, barn owl, eastern screech owl, great gray owl, great horned owl, long-eared owl, northern hawk owl, northern saw-whet owl, short-eared owl, snowy owl and turkey vulture.

SPECIALLY PROTECTED BIRDS (other than Raptors):
Brewer's blackbird, rusty blackbird, yellow-headed blackbird, blue jay, gray jay, belted kingfisher, white pelican and common raven.

SPECIALLY PROTECTED REPTILES:
Blue racer, eastern massasauga rattlesnake, five-lined skink, black rat snake, Butler's garter snake, eastern fox snake, eastern hognose snake, eastern smooth green snake, Lake Erie water snake, milk snake, northern water snake, queen snake, eastern spiny softshell turtle, Blanding's turtle, map turtle, midland painted turtle, musk turtle, spotted turtle, western painted turtle and wood turtle.

SPECIALLY PROTECTED AMPHIBIANS:
Blanchard's cricket frog, blue-spotted salamander, eastern tiger salamander, four-toed salamander, Jefferson salamander, northern dusky salamander, redback salamander, smallmouth salamander, spotted salamander, two-lined salamander, Fowler's toad and gray treefrog.

SPECIALLY PROTECTED INVERTEBRATES:
Karner blue butterfly, monarch butterfly, West Virginia white butterfly, mottled dusky wing, bog elfin, frosted elfin, black swallowtail, giant swallowtail, Old World swallowtail, pipevine swallowtail, spicebush swallowtail, tiger swallowtail and zebra swallowtail.

SPOUSE:
Either of two persons who are legally married to one another; or either of two persons who live together in a conjugal relationship outside of marriage.

VEHICLE :
Any kind of vehicle that is driven, propelled or drawn on land or ice by any kind of power, including muscular power, and includes the rolling stock of a railway.

WILDLIFE MANAGEMENT UNITS (WMUs):
Numbered divisions of the province used for wildlife management. WMU numbers are used in the tables for open seasons to indicate the relevant geographic areas of the province. Contact the Natural Resources Information Centre for exact descriptions of WMU boundaries.

Government Offices

The Ontario Government is committed to making it easier for citizens to access government services. ServiceOntario (*www.serviceontario.ca*) is now the key provider of walk-in transactional services and information for the public, including MNR's hunting and fishing licences.

The following is a listing of ServiceOntario/Government Information Centres (SO/GIC) and MNR counters which will be offering MNR hunting licences:

Should you have any general questions pertaining to the Hunting Regulations Summary, please contact the Natural Resource Information Centre at:

- 1-800-667-1940, or
- by emailing *mnr.nric.mnr@ontario.ca*

Information is also available on the MNR website at *ontario.ca/hunting.*

IMPORTANT MESSAGES FOR HUNTERS

As this 2008–2009 hunting summary goes to press, several changes are being considered.
For details on the items listed below, check with the local MNR office responsible for the Wildlife Management Units involved.
See page 80 for office locations and phone numbers.

NEW – Antlerless Deer Draw Deadline

Starting in **2009**, the deadline for applying to the Antlerless Deer Draw will be June 30. The earlier deadline will enhance customer service and ensure timely delivery of deer validation tags to hunters.

NEW – Wild Turkey

- New spring wild turkey seasons are now in place in WMUs 45, 53, and 56.

PENDING – Wild Turkey

- The ministry recently completed consultation on a proposed fall wild turkey hunting season in selected WMUs in 2008. Further news regarding the fall turkey hunt is available at *ontario.ca/hunting*.

PENDING – Sunday Hunting

Changes are expected to be made by September with regards to gun hunting on Sundays in areas south of the French and Mattawa Rivers. To confirm the status of the municipality in which you wish to hunt, please check the Sunday hunting information available at *ontario.ca/hunting*.

Moose

Ontario's Moose Program Review is underway.
See page 51 for details.

Importing Deer/Elk Carcasses

In 2005, due to concern about Chronic Wasting Disease (CWD), Ontario passed a regulation restricting the possession of high-risk carcass parts from all members of the deer family (except caribou and moose) harvested in other jurisdictions. See page 66 or *ontario.ca/cwd*.

PLEASE NOTE: Most jurisdictions have regulations in place governing the transport of deer or elk carcasses through their area. Hunters should be aware of these regulations to avoid inconvenience, potential seizure of game and charges. You should consult the appropriate government department in all provinces and/or states where you intend to transport deer or elk carcasses.

NEW – Endangered Species Act, 2007

As of June 30, 2008, the new Endangered Species Act, 2007 will be in effect. The new act provides broader protection for species at risk and their habitats, greater support for volunteer stewardship by private landowners and partners, a stronger commitment to recovery of species and more effective enforcement provisions. More information is available at *ontario.ca/speciesatrisk*.

Northern Bobwhite and Gray Fox are listed species that will be afforded protection when the act comes into affect on June 30, 2008. As a result, the open seasons for these species are currently under review. Please check with an MNR office or *ontario.ca/hunting* before hunting for these species.

NOTICE TO HUNTERS

For pending changes, in-season Regulation changes are posted on the MNR website.

Regulations are subject to change from time to time, and it is the hunter's responsibility to be informed of current regulations. Information updates for hunters are available at *ontario.ca/hunting*.

IMPORTANT MESSAGES FOR HUNTERS

Counter Services

The Ontario Government is committed to making it easier for people to access government services. ServiceOntario is now the key provider of walk-in transactional services and information for the public, including MNR's hunting and fishing licences.

Before travelling to a ServiceOntario centre for counter service, please check the list of offices on page 80 for the location nearest you. For updated information, refer to the list of offices at *www.serviceontario.ca* by scrolling down the left hand menu and clicking ServiceOntario Centres.

Donation of Big Game Hides

Hunters are encouraged to donate their big game hides to collection depots across Ontario where available.

A list of depots will be available in September from ServiceOntario Centres and the Ontario Federation of Anglers and Hunters (O.F.A.H.) or by calling 1-877-295-7277.

Where it is not feasible to donate hides, hunters may leave the hide in the bush so they may be scavenged by many wildlife species, such as blue jays, ravens, eagles, marten, fisher, foxes and wolves. Disposal sites for hides or carcass remains must be out of public view and well away from homes, water supplies, cottages, public trails and popular recreation areas. For disposal at municipal waste disposal sites, contact your local municipality.

Reminder to Return Hunter Questionnaires

Hunters contribute important wildlife management information through their response to hunter questionnaires. The active participation by the hunting community in harvest data collection supports our ability to provide increased hunting opportunities where wildlife populations are sustainable. If you receive a questionnaire, please take the time to accurately and completely fill it out and return it promptly.

In the case of Black Bear, the 2008 questionnaire is provided on page 69 of this publication. Copies of this questionnaire are available from ServiceOntario centres or *ontario.ca/hunting*.

NOTE: Successful wild turkey hunters must now report their harvest by telephone (toll-free 1-800-288-1155) no later than 12:00 noon the day after the bird was harvested. This system has replaced mandatory registration of harvested turkeys at check stations. See pages 30-31 for details.

Trespassing

It is an offence under the Fish and Wildlife Conservation Act, 1997 for anyone to trespass for the purpose of hunting or fishing. A hunting licence does not give hunters the right to enter or cross private property. ALWAYS ask for permission and obey signs. Positive landowner/hunter relationships are important to the future of hunting in Ontario. For more information on trespassing, see page 25.

Loaded Firearms on Roadways

In many parts of Ontario, it is an offence under the Fish and Wildlife Conservation Act, 1997 for anyone to have a loaded firearm on a road right-of-way, or to discharge a firearm from or across the roadway. For more information and a complete listing of where these regulations apply, see page 21.

The Small Vessel Regulations and the Liquor Licence Act

In 2007, Conservation Officers were designated to enforce certain provisions of the Liquor Licence Act. In addition, Conservation Officers now enforce certain provisions of the Small Vessel Regulations, such as safety equipment. Conservation Officers will be using these powers while engaged in checks of resource users to verify compliance with fishing and hunting regulations. For more information on the powers of Conservation Officers, see page 26.

Captive Deer/Elk Escape Notification

MNR, along with the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) and the Canadian Food Inspection Agency (CFIA), urges all individuals who become aware of an escape from a captive deer or elk facility to report the incident to their local MNR office. Additionally, if you are planning to transport live farm-raised deer or elk, please contact the CFIA at 1-800-442-2342 for guidance on the necessary live deer or elk movement permits.

2008 Licence Information

Ontario residents must have a hunting version Outdoors Card prior to purchasing a hunting licence or licence tag. See page 14.

It is illegal for a person to apply for, purchase or possess more than one licence tag for moose, deer, or black bear.

If you are an Outdoors Card holder, we now offer you instant small game hunting and fishing privileges. Visit the Ministry of Natural Resources' E-licensing website at *ontario.ca/outdoorscard* for information.

If you wish to hunt, you must have a licence valid for the species or group of species you are hunting, and **you must carry the licence, any validation tags and any game seals with you while hunting. (Validation tags and game seals are considered to be part of the licence.) To be valid, the licence must be completed and signed. Licence validity or expiry dates do not indicate open season dates. You must show the licence to a Conservation Officer if asked to do so.** Check the tables in this summary to see what, when and where you may hunt. (Game species listed in the tables may be hunted only during an open season.)

Residents and non-residents must be 16 years of age or older to be eligible for an Ontario licence to hunt. Residents may obtain a licence at 15 years of age, but they must first get consent in writing from both parents, one parent (if not living with both parents) or a legal guardian (also see **Hunter Apprenticeship**, on page 20).

All annual licences expire on December 31 in the year in which they were issued unless otherwise noted. A small game hunting licence is not valid from June 16 to August 31 for the area lying north and west of a line from Georgian Bay to the Ottawa River, formed by the southerly boundary of the District Municipality of Muskoka and the southerly and easterly boundaries of the Territorial District of Nipissing. Exemption exists for hunting small game by falconry and hunting game birds on game bird hunting preserves.

TRANSFER OF LICENCES

It is illegal to transfer, buy, sell or give a licence, validation tag, game seal or any component of a licence to another person. It is also illegal to use or possess a licence, validation tag, game seal or any component of a licence that was issued to someone else. Under certain circumstances, however, moose validation tags can be transferred (see group tag transfers, page 39). It is also an offence to do anything which would enable your game seal to be used by another person.

Licence fees are in effect until December 31, 2008.
NOTE: GST is included in these fees.

1. Moose

a) Resident's licence tag to hunt moose..... $44.18
b) Non-resident's licence to hunt moose $373.09
c) Dog licence.....$10.55

For information on Export Permits, see page 14.

2. Deer

a) Resident's licence tag to hunt deer..... $37.30
b) Farmer's licence tag to hunt deer..... $22.09
You must complete an "Application for a Farmer's Licence to Hunt Deer" form (available from ServiceOntario Centres and some licence issuers) to get this licence. This licence tag is valid only in the county (or other jurisdiction as the case may be) in which you reside.
c) Resident's additional game seal to hunt deer (selected WMUs only) $37.30
d) Non-resident's licence to hunt deer (antlered deer only)..... $186.54
e) Non-resident's additional game seal to hunt deer (selected WMUs only) $186.54
f) Dog licence $10.55

For information on Export Permits, see page 14.

3. Black Bear

a) Resident's licence tag to hunt black bear..... $37.30
b) Resident's second game seal to hunt black bear (selected WMUs only) $37.30
c) Non-resident's licence to hunt black bear $186.54
Non-residents must have a Black Bear Hunting Licence Validation Certificate as well as a black bear hunting licence. They must also complete the hunt report that comes with the Certificate and return it to the issuer of the Certificate by November 30 of the year of the hunt.
d) Dog licence. $10.55
e) Licence to provide black bear hunting services..... $35.00

For information on Export Permits, see page 14.

4. Small Game

a) Resident's licence tag to hunt small game $19.63
This licence tag is valid for a resident to hunt game birds (other than wild turkey), and game mammals (except black bear, caribou, deer, elk and moose). Under this licence tag you may also hunt coyote*, wolf*, raccoon, red fox, arctic fox, skunk, opossum and weasel. You may also hunt on game bird hunting preserves with this licence. A small game licence tag also permits you to hunt American crow, brown-headed cowbird, common grackle, house sparrow, red-winged blackbird or starlings and other animals not protected under the Fish and Wildlife Conservation Act, 1997 (e.g., groundhogs). This licence is not valid in northern Ontario and part of central Ontario from June 16 to August 31, except for hunting by falconry and hunting game birds on a game bird hunting preserve (see Map 2, pages 8-9, for more details).

* When accompanied by a wolf/coyote game seal in specific WMUs (see Section 5).

b) Resident's raccoon licence to hunt raccoon at night $18.17
See page 74 for regulations to hunt raccoon at night.

c) Resident's dog (raccoon) licence $10.55

d) Non-resident's small game licence..... $93.27
This licence authorizes a non-resident to hunt fox, game birds (except wild turkey), rabbits and hares in most areas, raccoon (though not at night), wolf*, coyote* and black, gray and fox squirrels but not red squirrels. The non-resident's small game licence also authorizes the holder to hunt game birds on game bird hunting preserves. This licence does not authorize the holder to hunt American crow, brown-headed cowbird, common grackle, house sparrow, red-winged blackbirds or starlings. However, you can hunt wild turkey if you possess a wild turkey licence in addition to a non-resident's small game licence. This licence is not valid in northern Ontario and part of central Ontario from June 16 to August 31 except for hunting by falconry and hunting game birds on a game bird hunting preserve (see Map 2, pages 8-9, for more details).

A non-resident licence does not allow you to hunt rabbits in the county of Lambton, the Municipality of Chatham-Kent or the county of Essex, except in the Township of Pelee.

* When accompanied by a wolf/coyote game seal in specific WMUs (see Section 5).

e) Non-resident's licence to hunt game birds on a game bird hunting preserve $14.72
To hunt game birds including wild turkeys on a game bird hunting preserve **only**, a non-resident may wish to purchase this licence rather than a non-resident's small game licence.

5. Wolf/Coyote

NOTE: Wolf/coyote game seals are required to hunt wolves/coyotes in WMUs 1A, 1C, 1D, 2-42, 46-50 and 53-58. Hunters may purchase a maximum of two wolf/coyote game seals per year. In WMUs 43-45 and 59-95, only your small game licence is required.

a) Resident's wolf/coyote game seal (maximum of two per year) (available from ServiceOntario Centres) $9.82
In order to hunt wolves or coyotes in the specified WMUs, a resident must have a wolf/coyote game seal, an Outdoors Card and a small game licence tag.

b) Non-resident's wolf/coyote game seal (maximum of two per year) (available from ServiceOntario Centres) $245.32
In order to hunt wolves or coyotes in the specified WMUs, a non-resident must have a wolf/coyote game seal and a non-resident's small game licence.

6. Wild Turkey

Wild turkey licence..... $23.28
In order to hunt wild turkeys, a resident must have a wild turkey licence, an Outdoors Card and a small game licence tag. Non-residents must have a wild turkey licence and a non-resident's small game licence.

7. Falconry Licences

a) General/Apprentice Falconry licence.....$19.81
b) Commercial Falconry licence $198.13
(GST not applicable)

8. Keeping Wildlife in Captivity

Please contact your local MNR office for further information.

9. Migratory Game Birds

(waterfowl, common snipe and woodcock)

To hunt migratory game birds, you must have a Federal Migratory Game Bird Hunting Permit and a Wildlife Habitat Conservation Stamp, as well as an Ontario licence tag (resident) or licence (non-resident) to hunt small game. This includes hunting with falconry birds or non-indigenous falconry birds. You may buy a Migratory Game Bird Hunting Permit and Wildlife Habitat Conservation Stamp at any post office.

10. Possession or Tanning of Furbearing Mammals

a) Licence to possess a pelt..... no charge
(available at MNR offices)
You are required to obtain this licence to possess a lawfully harvested pelt during the closed season or a road killed furbearing mammal acquired at any time. See pages 28 and 74 for the applications of this licence.

b) Licence to send pelts to a tanner.....no charge (available at MNR offices)

c) A royalty is payable to the province at the time that the hunter obtains a licence to send pelts to a tanner (for tanning or treating).

11. Export Permits

(See also Import, Export and Shipping under General Regulations, page 28.)

NOTE: An export permit is required for any part of the animal, including carcass, hide or pelt or antlers.

a) Resident Moose, Deer or Black Bear .....no charge

b) Non-resident Moose, Deer or Black Bear..... $35.00

c) Export permit for furbearing mammals or their pelts .....no charge (available from ServiceOntario Centres)
This permit is required by resident and non-resident hunters to export from Ontario any part of a furbearing mammal, including a wolf or coyote. A royalty is payable to the province at the time that the hunter obtains a licence to export a furbearing mammal.

d) CITES permit ..... no charge (available at MNR offices)
This permit is required by resident and non-resident hunters to export from Canada any part of a wolf and may be required for black bear (see black bear, Export and Shipping, on page 67).

For more information on CITES, visit *www.cites.ca*.

The GST does not apply to these permits.

INFORMATION FOR RESIDENTS OF ONTARIO

For a definition of resident, see Definitions page 79. Hunters who do not fit this definition must purchase a non-resident licence. (See page 19 for non-resident licence information.)

What is an Outdoors Card?

An Outdoors Card is a plastic, wallet-sized, identification card to which Ontario licence tag stickers are affixed. There are two versions of the card: the hunting version and the fishing (only) version. Hunting version Outdoors Cards are issued to Ontario residents only. The hunting version Outdoors Card and the Temporary Hunting Outdoors Card are the only cards that prove eligibility to purchase hunting licences and tags. The hunting version Outdoors Card also provides fishing privileges, once a fishing licence tag is obtained. You must carry your Outdoors Card with you whenever you hunt or fish.

An Outdoors Card is valid for three calendar years, expiring on December 31 of the third year. The expiry year for your Outdoors Card is shown on the front of your card, immediately to the right of the card number. Hunting licence tags also expire on December 31, **but the year of expiry may be different for your Outdoors Card and your licence tags**, depending on how you purchase your licence(s). The expiry date for one-year licence tags is printed on the lower edge of the tag. The expiry of one-year E-licences is shown in the "Valid Licences" box in the top right corner of the licence.

Three-year small game hunting or fishing licence tags expire with the card. Your Outdoors Card, licence tag or E-licence and any applicable paper licence must be current for you to have a particular hunting or fishing privilege.

Who needs a hunting version Ontario Outdoors Card?

To hunt in Ontario, most Ontario residents need a hunting version Outdoors Card and all applicable licence tags and licences. There are two exceptions to this.

The first exception is an Ontario resident Hunter Apprentice who is hunting with a licensed Mentor. The Hunter Apprentice must carry an Ontario-issued Hunter Apprenticeship Safety Card. (The Mentor must have an Ontario hunting version Outdoors Card and all applicable licences, see page 20.)

The second exception is members of Aboriginal communities with Aboriginal or treaty hunting rights in Ontario. These hunters are not required to be in possession of an Outdoors Card provided they are hunting for food or ceremonial purposes within their traditional or treaty area or they are visiting the traditional area of another First Nation and have received written permission to hunt from that First Nation.

All other Ontario residents, including Aboriginal persons hunting outside of areas within which they have Aboriginal or treaty hunting rights or for which they have received permission to hunt must have a hunting version Ontario Outdoors Card and all applicable licences.

What are the two classes of hunting version Outdoors Cards?

As of January 1, 2006, Ontario recognizes two types of resident hunters (and two classes of hunting Outdoors Cards) based on the hunting method(s) for which the hunter is accredited. Hunters will be designated as either H1 or H2.

The Class H1 card permits the cardholder to hunt with all methods permitted under the Fish and Wildlife Conservation Act, 1997.

The Class H2 card permits the cardholder to hunt with all methods permitted under the Fish and Wildlife Conservation Act, 1997 except guns.

Any person with:

- An Ontario hunting version Outdoors Card (current or expired) issued before January 1, 2006 **OR**
- An Ontario Hunter Education Exam Certificate/Report indicating a pass issued after January 1, 1968 and before January 1, 2006 **OR**
- An Ontario resident's hunting licence issued after January 1, 1968 and before January 1, 2006.

will automatically be deemed to be an H1 hunter.

If a new applicant does not have one of the pieces of accreditation listed above, a hunting version Outdoors Card is

now issued based on the exam(s) the applicant has passed. To obtain an H1 hunting version Outdoors Card, the applicant must provide proof (an original or certified copy) of passing BOTH the Ontario Hunter Education Course exam and the Canadian Firearms Safety Course exam. The applicant for an H2 hunting version Outdoors Card must provide proof (an original or certified copy) of passing the Ontario Hunter Education Course exam.

NOTE: Two classes of Hunter Apprenticeship Safety Cards are also recognized as of January 1, 2006. The A1 card permits the Apprentice to hunt with all methods permitted under the Fish and Wildlife Conservation Act, 1997 (FWCA). The A2 card permits the Apprentice to hunt with all methods permitted under the FWCA and regulations except guns. If the A1 Apprentice is hunting with a gun, the Mentor must hold an H1 Outdoors Card. If the Apprentice is using bow hunting equipment or a falconry bird, the Mentor must hold an H1 or an H2 Outdoors Card.

Is an Outdoors Card a hunting licence?

No, an Outdoors Card is not a hunting licence. A complete and valid licence to hunt consists of an Outdoors Card plus the required hunting licence tags plus any applicable paper hunting licences and game seals and/or validation tags.

One-year hunting licence tags are available from licence issuers located throughout Ontario. Call the MNR office that serves your area (see page 80) to find out the location of the issuer nearest you, and where you can purchase any required paper licences.

One-year small game licences are available for instant use at *ontario.ca/outdoorscard*.

How do I get a hunting version Outdoors Card if I have never had one before?

A resident of Ontario who has never had a hunting version Outdoors Card may apply in one of two ways. The method you use to apply depends on how soon you want to go hunting or enter a wildlife validation tag draw.

The following types of hunting accreditation will be accepted when applying for an H1 hunting version Outdoors Card. You must provide the original or certified copy of one of the following:

- An Ontario Hunter Education Exam Certificate/ Report indicating a pass issued to you after January 1, 1968 and before January 1, 2006 **OR**
- An Ontario resident's hunting licence issued to you after January 1, 1968 **OR**
- An Ontario Hunting Licence Verification Certificate showing that you were issued a hunting licence as a resident or that you passed the Hunting Licence Examination before January 1, 2006 **OR**
- An Ontario Hunter Education Exam Report indicating a pass issued to you after January 1, 2006, plus proof of passing the Canadian Firearms Safety Course exam.

NOTE: New residents of Ontario have **one** opportunity to successfully challenge the Ontario Hunter Education Exam, without having to take the Ontario Hunter Education Course, if they can provide proof of having been issued a resident hunting licence or completing a hunter education course in any jurisdiction of which they were a resident at the time.

In order to apply for an H2 hunting version Outdoors Card, the applicant must provide the original or a certified copy of an Ontario Hunter Education Exam Report issued after January 1, 2006.

The two methods of applying for a hunting version Outdoors Card are:

1. **If you do not intend to go hunting right away,** you can submit an Outdoors Card application with the original of your hunting accreditation (and, if required, proof of passing the Canadian Firearms Safety Course exam if applying for an H1 hunting version Outdoors Card) and payment, to the Outdoors Card Centre through the mail. (You may want to make a photocopy for your records before sending original documentation.) You will receive the Outdoors Card, with any hunting or fishing licence tags you purchased affixed to the card, in approximately four to six weeks.

   An Outdoors Card application is available by calling **1-800-387-7011**. The application form will be mailed to you.

2. **If you want to hunt, or enter a wildlife draw, right away,** a Temporary Hunting Outdoors Card is available from ServiceOntario Centres only. You must show the original of your hunting accreditation (and, if required, proof of passing the Canadian Firearms Safety Course exam if applying for an H1 Outdoors Card).

   A Temporary Hunting Outdoors Card is valid for hunting during the open season as soon as the required hunting licence tags are affixed to the back, and any required paper licences, game seals and/or validation tags are obtained. The Temporary Hunting Outdoors Card is valid until the end of the calendar year. The fee for this Temporary Hunting Outdoors Card includes the cost of a three-year Outdoors Card. You will automatically be mailed the plastic three-year card at the end of the calendar year.

My Outdoors Card has expired. How do I renew it?

The date on which your hunting version Outdoors Card expires is shown on the front of your card (immediately to the right of your card number). To avoid any lapse in your privileges, it is recommended that you renew your card as soon as you receive your renewal notification. This information is automatically mailed to you in the fall of the year in which your card expires.

You may renew your Outdoors Card in any of four ways. If you want to hunt right away or apply to a big game draw with

a paper application and the draw deadline is imminent, you should renew by purchasing a Temporary Hunting Outdoors Card (see option number four below). If you wish to hunt small game right away, you may be eligible to renew your Outdoors Card and purchase an "instant" E-licence tag over the Internet. Please check the website for restrictions if you wish to add a small game E-licence to your renewal purchase (see option number two below).

The four ways to renew your Outdoors Card are:

1. By using the toll-free automated telephone system and your VISA, MasterCard or American Express credit card. Be sure to have your Outdoors Card number on hand when you call 1-800-288-1155. Please allow two to three weeks for your card to reach you.
2. By visiting *ontario.ca/outdoorscard* and using your VISA or MasterCard credit card. You will need your Outdoors Card number and date of birth to complete this transaction. Please allow two to three weeks for your card to reach you, or print out any E-licences you have purchased. Your expired Outdoors Card, when carried with your E-licences, will allow you to enjoy the open season while you wait for your new plastic Outdoors Card to reach you. **NOTE:** Big game licences cannot be affixed to an E-licence. You must receive your plastic card before purchasing your licence tag from an issuer.
3. By mail, using a paper application. Payment may be made by VISA, MasterCard, American Express, cheque or money order. Please allow four to six weeks for your card to reach you. If you need a paper application, call 1-800-387-7011.
4. By purchasing a Temporary Hunting Outdoors Card, in person, from a ServiceOntario Centre. The fee includes the cost of a three-year Outdoors Card. Hunters purchasing a Temporary Hunting Outdoors Card will be charged an administrative fee of $9.82. You will automatically be mailed the plastic three-year Outdoors Card at the end of the calendar year.

I have a current Outdoors Card but my licence tag has expired. How do I get a licence tag for this year?

If you wish to purchase a small game licence, you may do so 24 hours a day at *ontario.ca/outdoorscard.* Deer, moose, black bear and one-year small game hunting licence tags are available from licence issuers located throughout Ontario. Call the MNR office that serves your area to find out the location of the issuer nearest you, and where you can purchase any required paper licences.

A deer licence tag is also available when applying to the antlerless deer draw through the automated telephone application system from March 1 to July 31. A moose licence tag is also available when applying to the moose draw through the automated telephone application system from April 25 to June 2. The phone number for the automated telephone application system is 1-800-288-1155.

How can I get more information on the Outdoors Card?

The staff at the Outdoors Card Centre would be pleased to answer your questions. You can reach the Outdoors Card Centre without charge from anywhere in North America by calling: **1-800-387-7011**.

The hours of operation of the Outdoors Card Centre are Monday to Friday from 8:30 a.m. to 5:00 p.m. (ET).

What should I do if my Outdoors Card is lost, stolen or destroyed?

If your Outdoors Card or any part of your licence is lost, stolen or destroyed, call the Outdoors Card Centre to arrange for a replacement. You will receive a replacement for the card and any three-year licence tags previously purchased. There may be a fee for replacement. To get an annual licence tag or paper licence replaced, you must complete an application form for a search (for a fee of $9.82) at a ServiceOntario Centre. If you lose a game seal, contact a ServiceOntario Centre. A list of offices is provided on page 80.

What else should I know about my Outdoors Card?

Here are other important things to keep in mind:

- You must notify the Ministry of Natural Resources of any address change within 10 days of the change. You can do this by using the Internet site at *ontario.ca/outdoorscard,* or by calling the Outdoors Card Centre toll-free at **1-800-387-7011**. Failure to change your address within 10 days can result in a fine under the Fish and Wildlife Conservation Act, 1997.
- You must carry your Outdoors Card, with all applicable licence tags attached (and all applicable paper licences), on your person whenever you are fishing or hunting. If a Conservation Officer asks to see your Outdoors Card, the law states that you must show it.
- Your Outdoors Card is not transferable to another person – it provides privileges to you alone.
- It is an offence to provide false information on an Outdoors Card application, licence tag, game seal or validation tag or to accept a licence with no date or one dated before or after the date you applied for it.
- It is illegal for a hunter to hold more than one Outdoors Card or more than one licence tag to hunt deer, moose or black bear. Multiple game seals are permitted where they are available.
- Licences cannot be exchanged as part payment toward another type of licence.

Some Outdoors Card and Hunting Licence Options for Residents of Ontario

A list of Ontario hunting licences is available on page 12. The one-year licence fees stated in this Summary are in effect until December 31, 2008. Three-year fees are subject to change after August 31, 2008. For the location of the licence issuer nearest you, contact the Ministry of Natural Resources. A list of Ministry of Natural Resources offices is provided on page 80.
NOTE: It is illegal for a hunter to hold more than one licence tag to hunt deer, moose or black bear.

Licence Type	Available From	Fee (includes GST)
Hunting/Fishing Outdoors Card plus three-year small game licence tag and three-year sport fishing licence tag.	Available by mail (new application or renewal), by telephone (renewal only) at 1-800-288-1155, and at *ontario.ca/outdoorscard* (renewal only). **NOTE:** This licence type is available as an "instant" E-licence when the Outdoors Card is renewed over the Internet.	$135.48
Hunting/Fishing Outdoors Card plus three-year small game licence tag and three-year conservation fishing licence tag.	Available by mail (new application or renewal), by telephone (renewal only) at 1-800-288-1155, and at *ontario.ca/outdoorscard* (renewal only). **NOTE:** This licence type is available as an "instant" E-licence when the Outdoors Card is renewed over the Internet.	$105.99
Hunting/Fishing Outdoors Card plus three-year small game licence tag.	Available by mail (new application or renewal), by telephone (renewal only) at 1-800-288-1155, and at *ontario.ca/outdoorscard* (renewal only). **NOTE:** This licence type is available as an "instant" E-licence when the Outdoors Card is renewed over the Internet.	$64.77
Hunting/Fishing Outdoors Card only (no fishing or hunting licence tag), valid for three years. **NOTE:** This Outdoors Card becomes a licence only when the appropriate licence tag is affixed or when accompanied by an E-licence. For some types of hunting, a paper licence, game seal and/or validation tag will also be required.	Available by mail (new application or renewal), by telephone (renewal only) at 1-800-288-1155, and at *ontario.ca/outdoorscard* (renewal only).	$5.88
Ontario resident's moose licence tag, game seal and draw application. Expires December 31 in year of purchase.	Available by telephone (1-800-288-1155) for hunters who wish to apply for a moose validation tag on the automated telephone licensing line (with a credit card). See page 38 for more information. Also available from numerous licence issuers throughout Ontario. For the location of the issuer nearest you, contact the MNR office that serves your area. (For the date and time of the annual moose surplus validation tag telephone line, see page 2.)	$44.18
Ontario resident's deer licence tag, game seal and draw application. Expires December 31 in year of purchase.	Available by telephone (1-800-288-1155) for hunters who wish to apply for an antlerless deer validation tag on the automated telephone licensing line (with a credit card). See page 55 for more information. Also available from numerous licence issuers throughout Ontario. For the location of the issuer nearest you, contact the MNR office that serves your area.	$37.30
Ontario farmer's deer licence tag, game seal and draw application. Expires December 31 in year of purchase.	Available from the ServiceOntario Centre that serves your area. For ServiceOntario Centre locations, visit *www.ServiceOntario.ca*, scroll down the left column and click on ServiceOntario Centres.	$22.09
Additional game seals for deer (offered in selected Wildlife Management Units only).	Available for many of the selected WMUs by telephone at 1-800-288-1155 from August 5 to August 22, 2008. See page 53 for more information.	$37.30
Ontario resident's black bear licence tag and game seal. Expires December 31 in year of purchase.	Available from numerous licence issuers throughout Ontario. For the location of the issuer nearest you, contact the MNR office that serves your area.	$37.30
Second game seal for black bear (offered in selected Wildlife Management Units only).	Available at ServiceOntario Centres. For ServiceOntario Centre locations, visit *www.ServiceOntario.ca*, scroll down the left column and click on ServiceOntario Centres.	$37.30
Game seals for wolves/coyotes (required in selected WMUs only). Not valid without a small game licence.	Available at ServiceOntario Centres. For ServiceOntario Centre locations, visit *www.ServiceOntario.ca*, scroll down the left column and click on ServiceOntario Centres.	$9.82 (max. two seals per hunter)
Ontario resident's one-year small game licence tag. Expires December 31 of the year for which it is valid.	Available from numerous licence issuers throughout Ontario. For the location of the issuer nearest you, contact the MNR office that serves your area. **NOTE:** This licence is available as an "instant" E-licence at *ontario.ca/outdoorscard.*	$19.63
Ontario resident's spring licence (paper licence) and game seal to hunt wild turkey. Valid only with a small game licence during specific open seasons.	Available by automated telephone licensing line (1-800-288-1155) with a credit card from March 1 to April 30. Also available from selected ServiceOntario Centres and selected licence issuers in participating MNR districts. See page 29 for more information.	$23.28 per licence, (max. two Spring wild turkey licences per hunter)
Temporary Hunting/Fishing Outdoors Card.	Available at ServiceOntario Centres. For ServiceOntario Centre locations, visit *www.ServiceOntario.ca*, scroll down the left column and click on ServiceOntario Centres.	$5.88 plus an administrative fee of $9.82

INFORMATION FOR NON-RESIDENTS OF ONTARIO

I live outside Ontario. How do I get a non-resident licence to hunt in Ontario?

Non-residents of Ontario must present one of the following to obtain a non-resident licence to hunt in Ontario:

- An Ontario non-resident's hunting licence issued to you after January 1, 1968
- A hunting licence issued to you by a competent authority in any jurisdiction as a resident of that jurisdiction after January 1, 1968
- An Ontario Hunter Education Examination Certificate/ Report issued to you after January 1, 1968
- An Ontario Hunting Licence Verification Certificate showing that you were issued an Ontario licence to hunt, or passed the Hunting Licence Examination
- A certificate, issued to you after January 1, 1968, by a competent authority in any jurisdiction, giving you permission to purchase a hunting licence in that jurisdiction.

NOTE: A non-resident who wishes to hunt in Ontario must be 16 years of age or older.

Where can I purchase a non-resident's hunting licence?

Non-resident hunters who wish to go hunting immediately may purchase a hunting licence at many locations throughout the province. For the non-resident licence issuer nearest to your intended hunting location, call the MNR office serving that area. A list of MNR offices is provided on page 80.

What should I know about taking my hunting rifle or shotgun into Canada?

Federal firearms regulations require that hunters who wish to bring non-restricted firearms into Canada declare their firearms at their point of entry. A fee is required to complete this procedure; this confirmed declaration is valid for up to 60 days. Firearms Declaration Forms are available from the Canadian Border Services Agency (Customs) offices, through the toll-free Canadian Firearms Centre information line at **1-800-731-4000**, through the Canadian Firearms Centre website at *www.cfc-cafc.gc.ca* (click on "Fact Sheets" and then "Firearm Users Visiting Canada"), and often through hunting outfitters.

NOTE: Non-residents may face special requirements around the import or purchase of ammunition. Consult with your outfitter or call the Canadian Firearms Centre at **1-800-731-4000**.

Lost, Stolen, or Destroyed Licences, Validation Tags or Game Seals

If you lose your non-resident licence, you must complete an application for a search at a ServiceOntario Centre. The fee is $9.82 for each lost licence. The search can only be done if the paper licence was purchased in the current year or the previous three years. You need to give the name and address of the licence issuer and the date of purchase (month and year). If possible, ask your licence issuer for the original licence number.

Some Hunting Licence Options for Non-Residents

The licence fees stated in this summary are in effect until December 31, 2008. A list of Ontario hunting licences is available on page 12. NOTE: It is illegal for a hunter to hold more than one licence to hunt deer, moose or black bear.

Licence Type	Available From	Fee (includes GST)
Non-resident's small game licence	Available from numerous licence issuers throughout Ontario.	$93.27
Non-resident's moose licence	Available from numerous licence issuers throughout Ontario. **NOTE:** See page 44 for information on non-residents wishing to hunt moose.	$373.09
Non-resident's deer licence (antlered deer only)	Available from numerous licence issuers throughout Ontario.	$186.54
Additional game seals for deer (available to non-residents in selected WMUs only)	Available from August 5 to August 22 by calling 1-800-387-7011. **NOTE:** See page 53 for more information.	$186.54
Non-resident's black bear licence	Available from numerous licence issuers throughout Ontario. **NOTE:** See page 70 for information on non-residents wishing to hunt bear.	$186.54
Game seals for wolves/coyotes (required in selected Wildlife Management Units only). Not valid without a small game licence.	Available from ServiceOntario Centres. For ServiceOntario Centre locations, go to *www.ServiceOntario.ca*, scroll down the left column and click on ServiceOntario Centres.	$245.32
Spring wild turkey licence (not valid without a small game licence)	Available from selected ServiceOntario Centres, and selected licence issuers in participating MNR districts.	$23.28 per licence (max. of two Spring wild turkey licences per hunter)

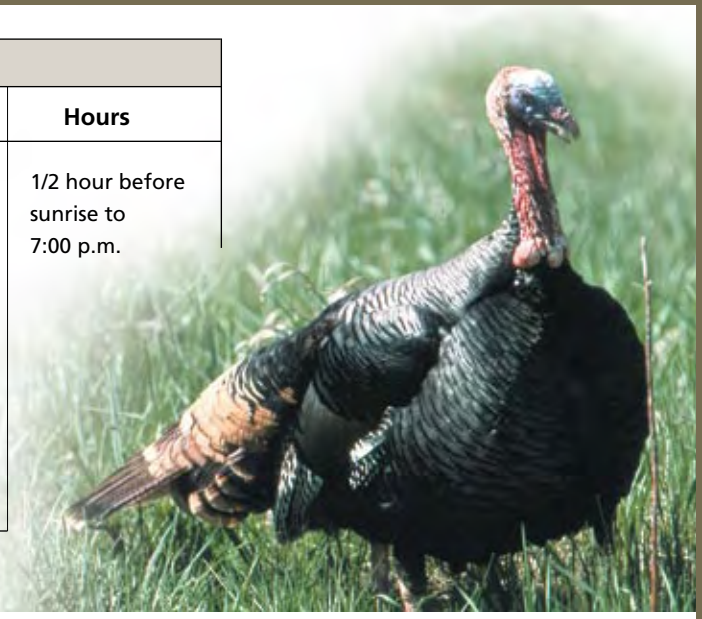
The two birds may not be taken on the same day.	1/2 hour before sunrise to 7:00 p.m.



Licence fees can be found on page 13.

Turkey Hunting Requirements

Ontario **residents** wishing to hunt wild turkeys must have:

- A valid hunting version Outdoors Card
- A small game licence (the sticker that goes on the back of the Outdoors Card) or an E-licence
- A wild turkey licence (a paper licence that must be carried when hunting) and game seal.

Ontario's wild turkey season is open to **non-residents** who:

- Are accredited hunters (see page 19 for details)
- Have taken the Ontario Wild Turkey Hunter Education Seminar and passed the written test
- Have purchased a non-resident's small game licence and a wild turkey licence.

If you have never hunted wild turkeys in Ontario, you must take a wild turkey hunter education seminar and pass a test in order to get a wild turkey licence.

The MNR Wild Turkey Hunter Education Seminar Program, administered by the O.F.A.H., teaches safety, ethics and successful turkey hunting techniques. Participants must attend a seminar and pass a written, multiple-choice test to receive a certificate which allows them to purchase an Ontario wild turkey licence.

New – Consent Required

Individuals under the age of 16 must file a consent signed by one parent or guardian before attending the Ontario Hunter Education Course or the Ontario Wild Turkey Education Course. Consent forms are available at *ontario.ca/hunting.*

The schedule of wild turkey seminar locations and dates is available from the O.F.A.H. at **(705) 748-6324**, or on the O.F.A.H. website at *www.ofah.org*.

The ministry recently completed consultation on a proposed fall wild turkey hunting season in selected WMUs in 2008. Further news regarding the fall turkey hunt is available at *ontario.ca/hunting.*

Automated Telephone Licensing for Ontario Resident Hunters

Spring wild turkey licences are available province-wide through the Ministry of Natural Resources' automated telephone licensing line. This line allows Ontario resident hunters to purchase a wild turkey hunting licence using a toll-free telephone line, 24 hours a day, seven days a week from March 1 to April 30. To use this system, a hunter who has received a certificate at a wild turkey hunter education seminar needs:

- A valid hunting version Outdoors Card number
- A valid VISA, MasterCard or American Express card
- A Touch-Tone™ telephone.

The hunter will be instructed to enter the required information using the telephone's keypad.

PLEASE NOTE: This system does not accept spoken answers; only responses provided using the keypad can be processed.

To purchase a licence using the automated telephone line, call **1-800-288-1155 between March 1 and April 30**. Hunters wishing to purchase two wild turkey licences by telephone must place two calls. Your wild turkey licence(s) and game seal(s) will be mailed the next business day. Please allow time for your licence(s) and game seal(s) to reach you.

Over the Counter Licensing for Residents and Non-residents

Wild turkey licences will be offered by selected licence issuers and ServiceOntario Centres in southern Ontario.

Ontario residents wishing to purchase a wild turkey licence from a licence issuer must show one of the following at the time of purchase:

- Their Outdoors Card bearing a "T" insignia
- Their valid hunting version Outdoors Card plus their Wild Turkey Hunter Education certificate
- Their valid hunting version Outdoors Card plus a previous Ontario wild turkey licence bearing the hunter's name and Outdoors Card number.

Non-residents wishing to purchase a wild turkey licence from a ServiceOntario Centre or licence issuer must show their Wild Turkey Hunter Education certificate.

Wild Turkey Hunting Regulations

The wild turkey hunting season is open from April 25 to May 31, 2008, in selected Wildlife Management Units in southern Ontario. The spring turkey hunting hours are from 1/2 hour before sunrise to 7:00 p.m. The harvest limit is two bearded wild turkeys per hunter per season. A licence is required for each of the two birds. You may buy both licences in advance, but the **two birds may not be taken on the same day**. You are permitted to call wild turkeys for another hunter after filling your own licence(s), but you must not be in possession of a firearm when doing so.

It is illegal to use live decoys or electronic calls while wild turkey hunting in Ontario. It is illegal to hunt wild turkeys with the use of bait. Wild turkeys may be hunted using shotguns (including muzzle-loading shotguns) or bows. For details on legal firearms and ammunition, please refer to the chart on page 22.

Sealing and Transporting

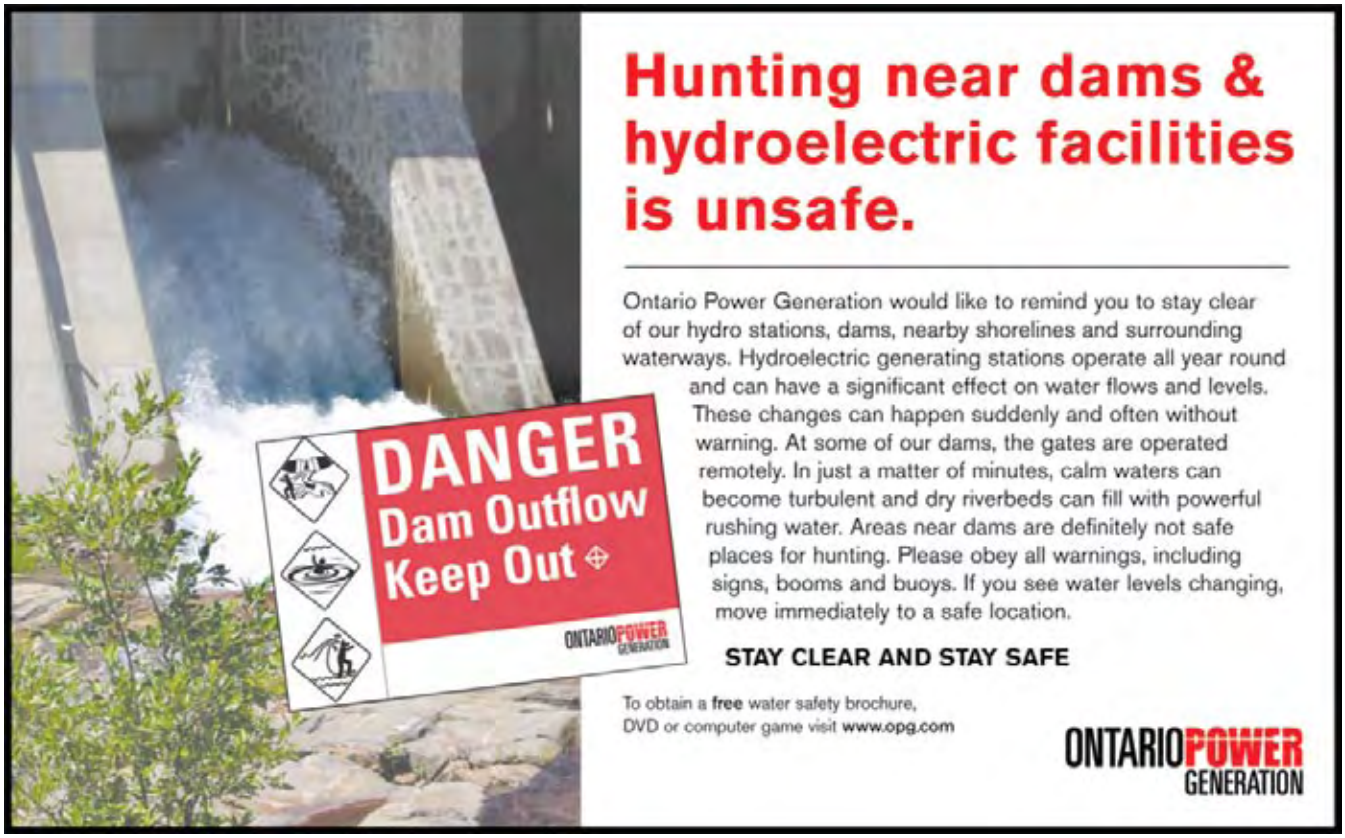
The holder of a licence who has killed a wild turkey shall:

a) Immediately after the kill and at the site of the kill attach the game seal provided with the licence or licence tag to the wild turkey in the manner indicated on the seal.

b) Keep the game seal attached to the wild turkey until it is prepared for consumption.

Mandatory Reporting of Turkey Harvest

Successful turkey hunters **must** report their harvested turkey by calling toll-free **1-800-288-1155** and providing the requested harvest information no later than 12:00 noon the day after the bird was harvested. This replaces the previous system where hunters were required to take their harvested bird to check stations. Once you complete your harvest report, you will be provided with a confirmation number. Record the confirmation number in the box provided on your licence and keep it as a record that you have reported. An information worksheet is provided on page 31 to assist you in gathering the necessary information before calling to report your harvest. This information is also available at *ontario.ca/hunting*.



Mandatory Turkey Harvest Reporting Worksheet

Fill in the worksheet before you call, and have a pen or pencil and your licence available so you can record your confirmation number once your report is complete. The illustrations to the right of the page have been provided to assist you in collecting important biological information from your bird. This information will be requested as part of your report.

CELL PHONE USERS: A common reason why hunters are unable to complete telephone reports is a poor cellular connection. You have until no later than 12:00 noon the day after the bird was harvested to report your harvest. Please wait until you receive a clear, strong signal before placing your call.

STEP 1 Call toll-free 1-800-288-1155. When the system prompts you, use the keypad of your telephone to select the Turkey Harvest Reporting option.

STEP 2 Record your Outdoors Card number below or have your card available when you make the call. After the prompt, enter the 15 digits of your Outdoors Card.
Your Outdoors Card Number is:

7 0 8 1 5 8 ☐☐☐☐☐☐☐☐☐

STEP 3 Was the turkey harvested in the morning or afternoon?

_____

STEP 4 What WMU did the harvest occur in? Only the valid WMUs listed on page 29 will be accepted.

WMU ☐☐☐

STEP 5 How many days did you hunt in that WMU before harvesting a turkey?

_____

STEP 6 Was the turkey a male or female (Figure 1)? _____

PLEASE NOTE: Only bearded turkeys are legal during the spring season.

STEP 7 Was the turkey an adult or juvenile (Figure 2)? _____

STEP 8 How long was the longer spur in **millimetres** (Figure 3)?

_____

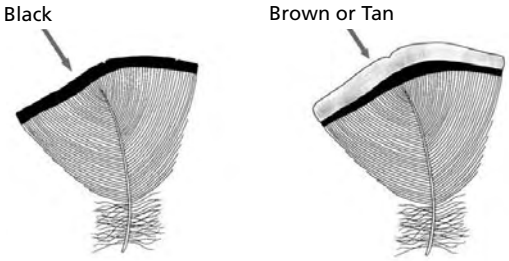
STEP 9 How long was the beard in **millimetres** (Figure 4)?

_____

STEP 10 **Record your confirmation number in the space provided on your licence and keep it as your record of having reported.**

Copies of this worksheet are available at *ontario.ca/hunting.*

Figure 1: Determining the Sex of the Turkey



Male breast feathers are black tipped.

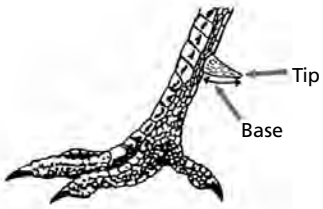
Female breast feathers have an outer edge of brown or tan.

Figure 2: Determining the Age of the Turkey

The leading wing feathers of **adults** have white barring to the tip, and the tip is usually rounded.

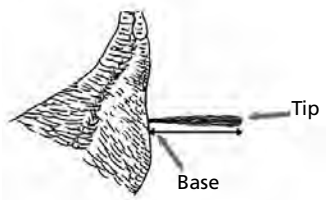
The leading wing feathers of **juveniles** are not barred to the tip, and are generally pointed.

Figure 3: Measuring Spur Length



Measure each spur in **millimetres** and report the longer of the two measurements. The spurs must be measured from the base of the spur to the tip along the bottom curve. A flexible tape or ruler provides a more accurate measurement.

Figure 4: Measuring Beard Length



Measure the beard in **millimetres**. Extend the beard and measure from the base of the beard at the breast to the tip of the beard.

Moose Regulations

INFORMATION FOR ALL MOOSE HUNTERS

Licence fees can be found on page 12.

Firearms

Big game, including moose, may only be hunted with a firearm (this includes bows). When hunting moose you may use or carry (on your person, in a vehicle or boat) only a firearm of the type (rifle, shotgun, bow or muzzle-loader) permitted for hunting moose at that time in that WMU. For example, when hunting moose during a bow-only season, you may use or carry only bow hunting equipment. You may not carry a rifle or shotgun for hunting other game species. However, when hunting moose during a rifle/shotgun season you may also carry a rifle or shotgun for small game (in addition to your firearm that meets the specifications to hunt moose) because it is the same type of firearm.

Specifications on the firearms, bows, bolts and arrows that are permitted when hunting moose can be found on page 22.

Party Hunting for Moose

Party hunting for moose is permitted during the open season for moose **under a set of specific conditions. The list of conditions are on page 23.**

Sealing and Transporting Moose

The moose validation tag, in the case of resident hunters, must be affixed to the recipient's game seal before hunting begins. In the case of non-resident hunters, the validation tag must be affixed to the moose hunting licence.

If you have killed a moose while hunting alone, you must **immediately** after the kill and at the kill site, securely **attach the game seal to the animal in the manner described on the seal. The seal must remain attached while transporting the carcass.**

If party hunting for moose, the shooter or a member who is hunting in the party, whose licence has been validated for the type of moose (bull, cow, or in WMUs 48, 55A, 55B and 57, bull, cow, or calf) that was killed, must immediately after the kill and at the kill site, **securely attach the game seal to the animal in the manner described on the seal**.

A person who seals a moose must notch out the month, date and time of kill on the game seal.

Only the hunter whose game seal is to be used is allowed to attach the game seal to the moose. It is illegal to transfer a game seal in order to seal a moose.

If you are transporting part of a moose, you must know, and be prepared to state:

- The name of the hunter who sealed the animal
- The hunting licence and validation tag number under which the animal was claimed
- The WMU in which it was taken
  if requested to do so by a Conservation Officer.

Import, Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

Note on White Coloured Moose: The Fish and Wildlife Conservation Act, 1997 prohibits the hunting of moose that are predominantly white coloured in Wildlife Management Units 30 and 31, an area near Timmins, Chapleau and Foleyet. This regulation does not affect the availability of moose validation tags for resident and non-resident hunters.

INFORMATION FOR ONTARIO RESIDENTS WISHING TO HUNT MOOSE

Who can hunt moose in Ontario?

A resident of Ontario may hunt moose under certain conditions if he or she is in possession of a valid hunting version Outdoors Card **and** a current moose hunting licence tag (sticker that goes on the back of the Outdoors Card) **and** can meet one of the following criteria:

- The hunter has a game seal and validation tag for a cow or a bull **OR**
- If hunting for calf in WMU 48, 55A, 55B or 57 the hunter has a game seal and validation tag for a calf in the specific WMU being hunted **OR**
- The hunter has a game seal and is hunting calf moose in a WMU other than 48, 55A, 55B or 57 (or WMU 65; see note following) **OR**
- The hunter is party hunting (see the section on party hunting on page 23) with someone who has a game seal and validation tag.

Note: WMU 65 has a hunt with controlled hunter numbers. For more information on the controlled hunt in WMU 65 call the Kemptville District Office at (613) 258-8204.

To receive a validation tag to hunt for an adult moose (or to hunt for a calf moose in WMUs 48, 55A, 55B or 57), the resident hunter must purchase a moose licence and apply to the moose validation tag draw.

Tags are issued through a computerized draw. The validation tag authorizes the holder to hunt only the type of moose described on the validation tag in the WMU specified. **No refund of licence fees is granted to a moose draw applicant who is unsuccessful in the draw for a validation tag.**

Residents of Ontario who are going to be a guest of a qualified tourist outfitter at the time of the hunt may be able to get an adult moose validation tag through the outfitter. The tag is valid only if you are a registered guest and actually accommodated by the tourist establishment. This may be on a Crown land site if authorized for occupancy by the Ministry of Natural Resources, or at a camp operated by the outfitter.

What is a moose validation tag?

A validation tag allows the tag holder or a member of the hunter's party hunting with the tag holder, to harvest an adult moose (or a calf moose in WMUs 48, 55A, 55B or 57) under certain specified conditions. The conditions state the WMU to which the tag applies: the season (either the gun season or the archery season); the type of moose (bull, cow, calf); and, any firearm restrictions (rifle, shotgun, bow, muzzle-loader) which may apply to the hunter. Moose validation tags obtained through tourist outfitters include additional information.

The number of validation tags available in a WMU is related to the number of moose MNR biologists calculate can be sustainably harvested. Because the number of Ontario residents wishing to hunt moose is greater than the number of validation tags available, validation tags are allocated through computerized draws (see page 37).

Ontario resident hunters wishing to apply to the draw have two options:

- Call the toll-free automated telephone application system to purchase a moose licence and apply to the draw (see page 40) **OR**
- Fill out and mail the Resident's Application for a Moose Validation Tag that is attached to the paper moose licence purchased from a licence issuer.

The deadline by which a telephone application must be made is 11:55 p.m. (ET) on June 2, 2008. If you plan to apply by telephone, do not leave your call until the day of the deadline! If you wait until the last day and cannot get through because the lines are busy, you will not be able to enter the draw. The earlier in the application period you apply, the easier it will be to connect to the system on your first try. The deadline by which a carefully and completely filled out paper application must be received at a ServiceOntario Centre is 5:00 p.m. on June 2, 2008.

What are the different ways a resident of Ontario may apply to the regular draw for a validation tag to hunt moose?

There are two ways in which an Ontario resident hunter can apply to the draw for a moose validation tag:

- As a member of a group **OR**
- As an individual hunter

In order to apply to the draw, the hunter must have a valid hunting version Outdoors Card and must have purchased a moose licence.

A hunter who fails to get an adult moose validation tag through the draw process and still wishes to hunt an adult moose may party hunt with the holder of an adult moose validation tag. Another option is to hunt with an outfitter who has moose validation tags available for guests and who is accommodating the resident hunter as a registered guest.

If the hunter fails to get a calf validation tag in WMUs 48, 55A, 55B or 57 through the draw process, other options are to hunt for a calf in any other WMU with an open season for moose (except WMU 65), party hunt with the holder of an adult or calf moose validation tag or, hunt with an outfitter who has adult moose validation tags available for guests and who is accommodating the resident hunter as a registered guest.

NOTE: A hunter cannot have more than one moose validation tag at the time of the hunt.

What are the benefits of applying as a group?

If you party hunt, it is usually better to apply as part of a group. The maximum group size is 15 hunters.

Applying in a group increases every hunter's chances of obtaining a moose validation tag for their party. Group applications allow tags to be spread out more evenly among hunting parties.

If your group is too small to meet the Guaranteed Group Size or the Hunter:Tag Ratio, all members of your group will have, at the very least, the same chance they would have had if they all applied to the draw as individuals and they will not be negatively affected by applying in a group.

Applying in a group provides your party with the best chance of getting one validation tag while keeping as many hunters as possible in Pool 1 for the next year.

If you applied in a group and the validation tag holder is unable to go hunting, the tag can be transferred to the ministry-designated alternate within the group's applicants. Individual applicants are never permitted to transfer their validation tag to another person.

The membership of the group in which you applied for a moose validation tag does not necessarily have to be identical to the membership of your hunting party at the time of the hunt.

How do I know what "pool" I am in for tag application purposes?

All applicants to the draw for a moose validation tag are in either Pool 1 (also called the preferred pool) or Pool 2 (also called the non-preferred pool). Knowing what pool you (and members of your group) are in is important information because only Pool 1 hunters are counted when determining the size of your group.

You are in Pool 1 if you:

- Applied on time for the draw in 2007, and were unsuccessful in getting a tag **OR**
- Were successful in the draw and transferred the tag to the group alternate, unless you did this in two consecutive years **OR**
- Were successful in the draw for a calf tag in WMU 48, 55A, 55B or 57.

Simply purchasing a moose licence last year does not qualify you for Pool 1 this year.

You are in Pool 2 if you:

- Received an adult moose validation tag in the 2007 draw **OR**
- Received an adult validation tag through a transfer in 2007 **OR**
- Did not apply to the draw in 2007 **OR**
- Gave up your tag in a transfer in both 2006 and 2007.

How do I stay in Pool 1 for next year if I know I cannot hunt this year?

Some hunters who are eligible for Pool 1 know they will not be able to participate in the moose hunt this year, but want to ensure they are in Pool 1 next year. There are two ways to ensure you do not get a tag this year when you apply for the draw, so that you can retain your Pool 1 status for the next year's draw.

You can:

- Submit a paper draw application and apply for WMU 99Z (this is not a real WMU so you will not be issued a tag) **OR**
- Submit a paper draw application and leave your choice of WMU and firearm (gun or bow) blank.

What is the Guaranteed Group Size method of applying to the draw?

In some WMUs, an adult moose validation tag will be guaranteed to a group of hunters when the number of Pool 1 hunters in the group meets a pre-determined size. This is known as the Guaranteed Group Size.

The actual size of the group required varies:

- From WMU to WMU
- According to the sex of moose preferred
- In some WMUs according to the firearm preferred by the group (gun or bow).

Remember, only Pool 1 hunters in the group are counted when determining the group size.

If you have enough Pool 1 hunters in your group to meet the Guaranteed Group Size in the WMU, sex and season (gun or bow) choice for the type of validation tag your party wants, you should apply to the draw as one group. Be sure to apply for the guaranteed tag (WMU, bull/cow and season) as your first choice if it is your preference. If applying by telephone, keep a record of the Group Reference Number (group leaders only) or the Authorization Number (group members and individual applicants) provided to you during the phone call. If applying by paper, keep a record of your Group Application Number (printed in red on the back of the Group Application Envelope).

We want to party hunt, but our group is smaller than the Guaranteed Group Size. How should we apply?

If you hunt in a party it usually makes sense to apply as a group.

Even if you do not have enough Pool 1 members to guarantee a validation tag – or if there is no Guaranteed Group Size for your WMU – by applying as a group you will be in the draw at two tag allocation steps: the Large Group Allocation and the Random Allocation. If your party members were to apply as individuals, they would only be eligible for the Random Allocation portion of the draw – missing their chance at the tags allocated to groups meeting the Hunter: Tag Ratio in the Large Group Allocation step of the draw.

All hunters in group applications will have at least the same chance to receive a validation tag that they would have if they applied as individual applicants.

Moose Hunter Questionnaire Survey Results

Every year, a sample of moose hunters is asked to return a hunter assessment survey. These surveys provide valuable information used by the Ministry of Natural Resources to manage moose populations. Your field experience is important to us – please tell us about it by completing and returning your survey as soon as your hunt is over.

Here are some things we learned from resident moose hunters in the 2006 survey:

- About 88,500 resident hunters hunted for moose.
- An estimated 7,422 moose were harvested by residents (3,776 bulls, 1,387 cows and 2,259 calves).

Ontario's current moose population in huntable areas is estimated to be about 94,000 moose. An additional 15,000 more moose live in remote and protected areas.

1 Northwest Region
Moose Population: **50,070**
Moose Harvest: **3,702**

2 Northeast Region
Moose Population: **37,970**
Moose Harvest: **2,898**

3 Southern Region
Moose Population: **5,860**
Moose Harvest: **822**

Do individual hunters have a chance for a validation tag?

Big game in Ontario has traditionally been hunted by groups of hunters for social, cultural and practical reasons. Ontario's moose tag allocation system is designed to allow this traditional harvest method to continue, and permit the greatest number of hunters to benefit.

While it makes sense to apply as part of a group if you hunt in a party, individuals may also apply for a validation tag. Individual hunters are eligible for a validation tag in the Random Allocation step of the draw.

Hunting parties who apply as individuals and receive more validation tags than the party wants are not permitted to return tags.

ATTENTION MOOSE HUNTERS

If you harvest a moose wearing an ear-tag or collar, this animal may have been chemically immobilized in the past using veterinary drugs. Health Canada has established recommended guidelines for consumption. Please call the phone number on the ear-tag or collar for specific information on whether Health Canada would recommend that the meat of your animal be consumed.

What should I know about bow hunting for moose?

Hunters who wish to hunt adult moose during the bows-only season must have an adult validation tag issued for the bows-only season or party hunt with someone who has such a tag. In WMUs 48, 55A, 55B and 57, hunters who wish to hunt calf moose during the bows-only season must have a calf validation tag issued for the bows-only season or party hunt with someone who has such a validation tag. All validation tags issued for the bows-only season become invalid at the end of the bows-only season.

Hunters without an adult validation tag may hunt for calves with a bow during the bows-only season provided they comply with all other legal requirements for bow hunting. The exceptions to this are WMUs 48, 55A, 55B and 57 where a calf validation tag is required, and WMU 65.

If you have not harvested an adult moose during the bows-only season, you may still hunt for a calf (except in WMUs 48, 55A, 55B, 57 and 65) using any legally allowed firearm during the regular gun hunt.

Northern Resident Moose Validation Tag Draw

In 2008, five per cent of the adult moose validation tags in Wildlife Management Units (WMUs) north of the French and Mattawa rivers will be held back from the regular moose validation tag draw and used as the quota for a second draw specifically for residents of northern Ontario.

The Northern Resident Moose Validation Tag Draw is intended to provide residents of northern Ontario with an additional opportunity for a validation tag.

The allocation of these Northern Resident validation tags will take place as follows:

- The regular moose draw will be run to distribute 95 per cent of the annual quota to all resident applicants through random draws as described on page 37.
- Once the regular draw is complete, each northern resident moose hunter who applied to a WMU north of the French and Mattawa rivers (WMUs 1-42) and was unsuccessful (or who was a member of a group that was unsuccessful) in the 2008 draw and was also unsuccessful in the previous two annual draws (2006 and 2007), will automatically be entered into a separate draw for the remaining five per cent of the quota in the first choice WMU applied to in the regular draw. Successful second draw hunters will be notified by mail and asked to verify their residency to claim the validation tag.

Northern resident moose hunters are defined as those individuals with a permanent address in the territorial districts of Kenora, Rainy River, Thunder Bay, Cochrane, Algoma, Sudbury, Timiskaming, Nipissing, Parry Sound, Manitoulin and the City of Greater Sudbury at the time of their application.

Calf Validation Tag and Hunter Reporting Requirements in WMUs 48, 55A, 55B and 57

In 2004, MNR established a calf validation tag requirement for hunting calf moose in WMUs 48, 55A, 55B and 57. This was done to address the declining moose population in eastern Ontario, and to respond to the recommendations of a public consultation group called the Eastern Ontario Moose Management Round Table.

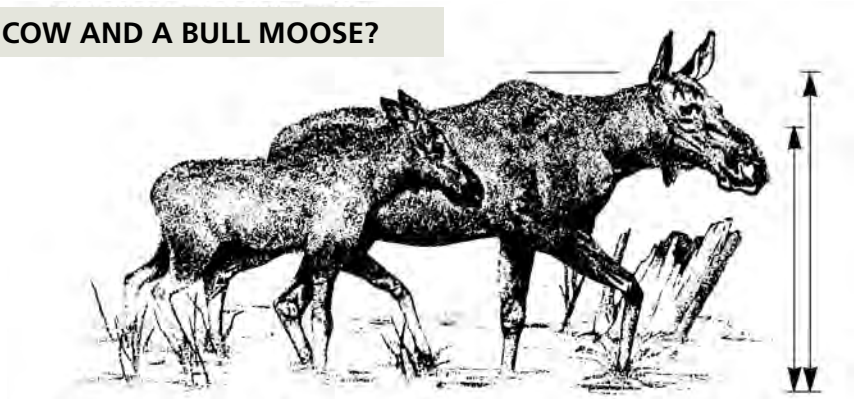
The moose hunting rules for these WMUs include calf tag allocation and enhanced hunter registration and reporting.

HOW DO YOU DEFINE A CALF, A COW AND A BULL MOOSE?

A calf is a moose that is less than one year old at the time of the hunt.

A cow is a female moose that is at least one year old at the time of the hunt.

A bull is a male moose that is at least one year old at the time of the hunt.



Short face
Calf moose appear to have a small nose and a "short face."

Seldom alone
Calf moose are seldom alone.

Body proportions
Calf moose appear to have more leg than body and their hindquarters appear slender.

Shoulder Height
Shoulder height of cow moose is six feet (2 m) and of calf moose is four feet (1.3 m).

Understanding the Moose Validation Tag Draw

It is to each hunter's advantage to understand how moose validation tags are allocated.

Though the process is often referred to as a draw, there are four steps in the draw process:

- The Guaranteed Group Allocation
- The Large Group Allocation
- The Random Draw Allocation
- The Northern Resident Draw

Some units have both a gun season quota and a bow season quota. In these units, separate draws are run for bull gun, bull bow, cow gun, and cow bow validation tags. These WMUs include: 2, 3, 4, 5, 6, 7B, 8, 9A, 9B, 11A, 12A, 12B, 13, 14, 15A, 15B, 18A, 19, 21A, 21B, 22, 23, 24, 29 and 38. When hunters apply to the draw in these WMUs, they must select the corresponding Hunt Code if applying by telephone. If applying by paper application, they must check the Special Bow Season Preference box on the application if they want a bow season validation tag. WMUs 7A and 18B each have a combined bow/muzzle-loader quota.

Other units have both a bow season and a gun season for moose, but only one tag quota for bulls and one tag quota for cows. Included in this group of WMUs are: 27, 28, 30, 31, 32, 33, 35, 36, 37, 39, 40, 41, and 42. When hunters apply to the draw in these WMUs, they must select the corresponding Hunt Code if applying by telephone. If applying by paper application, they must check the Special Bow Season Preference box on the application if they want a bow season validation tag. Like other bow season validation tags, these tags are only valid during the bow-only season.

Step One: Guaranteed Group Allocation

In step one, each group meeting the Guaranteed Group Size requirement (valid applications from a group with enough Pool 1 hunters to meet or exceed the Pool 1, Choice 1 Guaranteed Group Size) and who make this their first choice, is allocated one tag for the unit, type of moose (bull, cow, calf) and type of firearm selected by the group. The validation tag is assigned to a Pool 1 member of the group who has gone the longest number of years without receiving a validation tag, and another Pool 1 hunter is designated as the alternate. All the members of these "guaranteed groups" are then removed from the draw.

Step Two: Large Group Allocation

Next, the Large Group Allocation of validation tags is performed.

At this step, the computer calculates the number of applicants left in the draw after step 1 and compares it to the number of validation tags still available. The ratio is called the Hunter:Tag Ratio. Each group whose number of Pool 1 applicants is equal to or greater than the Hunter:Tag Ratio is issued one validation tag. The tag is assigned to a Pool 1 member of the group who has gone the longest number of years without receiving a validation tag, and another Pool 1 hunter is designated as the alternate. (Example: If at the Large Group Allocation stage there are 600 hunters left, and 104 tags available, the Hunter:Tag Ratio is 5.7. All groups with six or more Pool 1 hunters will be issued a tag.) All members of these successful "large groups" are then removed from the draw.

Step Three: Random Draw Allocation

Next, the draw proceeds to the Random Draw Allocation.

The random draw step is actually many draws performed in the allocation of tags. The computer allocates tags to both groups and individuals in the following sequence:

- Pool 1, Choice 1 (P1C1)
- Pool 1, Choice 2 (P1C2)
- Pool 2, Choice 1 (P2C1)
- Pool 2, Choice 2 (P2C2)

At this step, all remaining Pool 1 applicants (all individuals and every member of the remaining groups) who have this WMU and type of moose (bull, cow, calf) as their first choice, are eligible to receive one of the remaining tags in a random draw. If a validation tag is allocated to a member of a group at this stage, the rest of the group members are removed from the draw. If there are still validation tags available, the Large Group Allocation and the Random Draw Allocation are repeated for Pool 1, Choice 2 hunters, then Pool 2, Choice 1 and Pool 2, Choice 2.

In most WMUs, only hunters in Pool 1, Choice 1 will have a chance to receive a validation tag. The Guaranteed Group Allocation is performed only for Pool 1, Choice 1 applicants.

Step Four: Northern Resident Draw

In northern Ontario WMUs (1-42), there is an additional draw in the distribution of validation tags called the Northern Resident Moose Validation Tag Draw. Five per cent of the adult validation tag quota is held back from the regular draw quota for Northern residents who were unsuccessful (or who were a member of a group that was unsuccessful) in the current year's draw and the previous two draws.

How to Maximize Your Chances of Success in the Moose Tag Draw

Review the open season dates table, the moose quota table and, if you are hunting in a group, the Guaranteed Group Size table. Using this information, determine your first and second choices of WMU, type of animal (bull, cow or, in the case of WMUs 48, 55A, 55B or 57, bull, cow or calf) and firearm type. If hunting in a group, contact all group members and decide whether you will all apply by telephone, or if you will all apply by paper application. (All group members must use the same method.) Choose one method only – you will be disqualified if more than one application is submitted in your name.

Applying by Telephone

Use the telephone application system to purchase a moose licence and apply to the draw, in one call. Do not use the telephone application system if you have already purchased a paper moose licence.

Note: You must use a Touch-Tone™ telephone when applying. Cellular, cordless and radio telephones are not recommended with this system.

If your Outdoors Card has expired, you must renew it before you use the telephone application system. The quickest, most convenient ways to renew are:

- With a call to the toll-free, automated Outdoors Card renewal line at **1-800-288-1155**, and
- At *ontario.ca/outdoorscard*.

Once you have successfully completed your renewal by either method, you may proceed immediately to the telephone application system for the moose draw.

For more information on Outdoors Card renewal options, see page 15.

If your Outdoors Card is valid but you have moved since you received it, contact the Outdoors Card Centre at 1-800-387-7011 or *ontario.ca/outdoorscard* and provide your current address. This will ensure that you receive your licence (and validation tag if you are successful in the draw).

To purchase a moose licence and apply to the draw, you will need your Outdoors Card number and a VISA, MasterCard or American Express credit card. If you are a Group Leader or an Individual Applicant, you must identify your 2008 Hunt Code from the table found on pages 42 and 43 of this summary. If you are a Group Member, you will need the Group Reference Number provided by your Group Leader. Completing the appropriate worksheet before you call is strongly recommended. (Worksheets are found on pages 40-41 of this summary.) The charge to your credit card will be $44.18 (includes GST).

If you are applying as a member of a group, decide with your group **before you call** who will be the Group Leader and who will be the Group Members. Then, ensure that all Group Members are told the Group Reference Number (which is provided to the Group Leader) so they can successfully complete their call.

The deadline for applying to the moose draw by telephone is **11:55 p.m., (ET) June 2, 2008**.

Remember, do not apply by telephone if you have already purchased a paper licence or submitted a paper application.

Applying by Paper Application

You must be in possession of a valid hunting version Outdoors Card to purchase a moose licence, and you must have a moose licence in order to apply to the draw with a paper application. If your Outdoors Card has expired, renewing it is the first step in this process. To review your Outdoors Card renewal options, see page 15.

A paper application for the moose draw comes attached to the moose licence. Ensure that the Outdoors Card number imprinted on your application for the moose draw is legible. If any portion of the imprinted number is not clear, write it neatly in the space provided at the top of the application.

Fill out the application form carefully and completely.

Write in a valid WMU and check off a valid type of moose (bull, cow or – for WMUs 48, 55A, 55B and 57 only – bull, cow or calf). If you do not select a WMU and a type of moose, your application will be rejected. If there is a bow season in your WMU as well as a gun season, and you wish to apply for the bow hunt, select the box labelled "Special Bow Season Preference."

You are not required to indicate a second choice on your application if you do not have a second choice.

If you are applying for a Guaranteed Group Size validation tag, be aware of the pool status of each applicant in your group. Only Pool 1 hunters are counted toward the Guaranteed Group Size. Including Pool 2 applicants in your group won't hurt your chances, but it won't help them either.

If you are applying in a group, keep a record of your Group Application Number (found on the outside of the Group Application Envelope provided by the MNR). This number must appear on the application of each person in the group.

The group leader should complete the outside of the Group Application Envelope before mailing. **The information you write on the envelope overrides any information contained on the paper applications inside the envelope. To ensure you are following the current application procedures, please use the most recent (green) group application envelope.**

Fifteen is the maximum group size for a draw application. Do not include more than 15 applications in the Group Application Envelope. **If you are applying for a bow tag, remember to check the appropriate box on the outside of the Group Application Envelope.**

Submit your paper draw application well before the **5:00 p.m., June 2, 2008**, deadline. Remember that the deadline is the date and time by which your application has to be in ServiceOntario/MNR hands. **This deadline is NOT a "post-marked by" date.** Whether an application is delivered by courier, registered mail or through the regular or government mail, please allow at least five working days for its delivery. **All applications not received by 5:00 p.m., June 2, 2008, will be rejected from the draw without exception.**

Remember, do not purchase a paper licence or submit a paper application if you have already applied to the draw by telephone.

Points to Remember When Applying to the Draw

- Submit only one application in your name.
- Your Outdoors Card must be valid.
- The application must be complete.
- The writing must be legible.
- Your application must be received by the deadline.
- Your hunting licence privileges cannot be under suspension.

The responsibility for entering a valid application rests with the hunter. If you have any questions about applying to the moose draw, contact the Outdoors Cards Centre at 1-800-387-7011.

Draw Results Telephone Line

Using the Draw Results Telephone Line at 1-800-288-1155 is the quickest, easiest way to find out if you were successful in the moose validation tag draw. This automated line runs 24 hours a day, seven days a week, from August 1 until December 31. Hunters will need their 15-digit Outdoors Card number to access their draw record. Unsuccessful applicants can also receive information regarding surplus tags during this call.

The Mailing of Validation Tags

Only draw applicants successful in the regular draw, and those hunters who used the telephone application system to purchase their moose licence, will be notified by mail. If you have called the Draw Results Telephone Line and you were successful in the regular draw but have not received your validation tag by September 1 (or if you purchased your licence by telephone, and you have not received your licence), contact the Outdoors Card Centre at 1-800-387-7011. You can get a duplicate validation tag or licence and validation tag through a ServiceOntario Centre only after signing a declaration and verifying your address information. There may be a charge for this service. After the season starts, duplicate tags will be issued only at the discretion of the ministry.

Draw applicants successful in the northern resident draw will be required to complete an Application to Receive an Adult Moose Validation Tag from the Northern Resident Draw. This application must be returned to a ServiceOntario Centre or mailed to the address indicated. The recipient will then be mailed the northern resident validation tag.

Everything You Wanted to Know about Moose Validation Tag Transfers

- Hunters who apply to the draw as individuals are never permitted to transfer validation tags to other hunters.
- Groups are permitted one transfer only. The transfer is granted only to the alternate tag transfer recipient in your group. The alternate is the Pool 1 member of the group who has gone the second longest number of consecutive years without receiving a validation tag. Once the original validation tag recipient transfers the tag to the alternate, the tag cannot be transferred back to the original recipient or to anyone else.
- The transfer of a validation tag from the original recipient to the designated alternate is granted by a ServiceOntario Centre provided a valid transfer application is submitted, the original tag is returned to ServiceOntario at the time of the request, and the moose season has not yet opened. The fee for transferring a tag is $9.82.
- To determine who the designated alternate validation tag transfer recipient is for your group, look at the lower half of your validation tag. Inside the brackets ({ }) it will show the moose licence number of another Pool 1 member in your group. This moose licence number belongs to your group's designated alternate tag transfer recipient.
- Validation tags can be transferred to a Pool 2 hunter only if the tag is for a WMU where a Pool 2 hunter actually had a chance to receive a tag in the draw.
- After the season opens, a validation tag can only be transferred if the current tag holder is medically unfit to participate in the hunt, as proven by a doctor's certificate.
- Hunters who receive adult validation tags through a transfer will be placed in Pool 2 the following year. Most hunters who have transferred tags to another group member will be placed in Pool 1 in the following year's draw. However, hunters who have transferred validation tags in two consecutive seasons will be placed in Pool 2 for the following year's draw. This means that if a hunter transferred a tag last year (2007), and if successful this year (2008) wants to transfer again, he/she will be placed in Pool 2 for the 2009 draw. This change was made as a result of an increasing number of hunters repeatedly transferring validation tags. As before, the recipient will be placed in Pool 2.

2008 Telephone Application System for the Moose Validation Tag Draw

INSTRUCTION SHEET

What type of applicant are you?

To use the telephone application system, applicants must decide how they will be applying to the draw prior to calling. **When applying for a tag as a group, all hunters in the group must purchase their moose licence and apply to the draw using the same method – either everyone applies by telephone or everyone applies by paper.**

The telephone application system recognizes three types of applicants:

- Group Leader
- Group Member
- Individual Applicant

If you hunt in a party it is to your members' advantage to apply as a group rather than as individuals. **The maximum number of hunters that can apply to the draw as one group is 15 (14 plus the leader).** When applying as part of a group, hunters will have to decide who the Group Leader is and who the Group Members are, prior to calling.

Group Leader

The Group Leader must be the first member of the group to apply through the telephone application system. The Group Leader is the only member of a group who enters the Hunt Code representing the group's choice of WMU, type of moose, and firearm (see the table of valid Hunt Codes on pages 42 and 43). The Group Leader is then provided with a Group Reference Number to identify the group and its choices. The Group Leader must give the Group Reference Number to the Group Members so they may add their names to the group's application when they phone in.

Group Member

Each Group Member must obtain the Group Reference Number from the Group Leader before calling to enter the draw. Only your Group Leader can give you the Group Reference Number. During the call each Group Member will be asked for the Group Reference Number so the group can be identified and linked together for their application to the draw. Each Group Member will be given an Authorization Number.

Individual Applicant

Individuals must enter the Hunt Code representing their choice of WMU, type of moose, and firearm (see the table of valid Hunt Codes on pages 42 and 43). Each individual applicant will be given an Authorization Number.

All applicants are encouraged to record the information they will need on the worksheet for the type of applicant they are, before they call.

Please Note: Hunt Codes may differ from year to year; be sure to use the 2008 Hunt Codes Table when applying to the 2008 moose validation tag draw.

GROUP LEADER

The instructions and worksheet provided below will assist you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep the worksheet in front of you during the call so you can record your Group Reference Number. **Before the call** you need to record your Outdoors Card Number, choice(s) of Hunt Code, and credit card number and expiry date. Hunt Codes are found in the 2008 Moose Draw Hunt Codes Table on pages 42 and 43.

STEP 1 Contact the members of your group (maximum group size is 14 plus the leader) to ensure they know you are the Group Leader.

STEP 2 Call **1-800-288-1155** between **April 25 and June 2, 2008**. This telephone line operates 24 hours a day, 7 days a week until 11:55 p.m. (ET), June 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Moose Draw option.

STEP 3 At the prompt, choose the option to apply as part of a group, and at the next prompt, choose the Group Leader option.

STEP 4 After the prompt, enter your 15-digit (hunting version) Outdoors Card Number.
Your Outdoors Card Number is:

7 0 8 1 5 8 ☐☐☐☐☐☐☐☐☐

STEP 5 After the prompt, enter your first choice Hunt Code, and second choice Hunt Code (if you have one).

PLEASE NOTE: The responsibility for correctly entering the Hunt Code(s) rests solely with the applicant. Listen to your choice(s) carefully before confirming them.

	WMU	Type	Firearm	Hunt Code
First Choice				
Second Choice				

STEP 6 Enter your **VISA, MasterCard, or American Express number**:

☐☐☐☐ ☐☐☐☐ ☐☐☐☐ ☐☐☐☐

STEP 7 Enter the 4-digit expiry date from your credit card.

expiry date: ☐☐ / ☐☐
month year

STEP 8 Stay on the line while the system authorizes your credit card number, and provides you with a 7-digit Group Reference Number. Record this number in the space below.

Group Reference Number: ☐☐☐☐☐☐☐

STEP 9 Stay on the line to confirm your postal code to ensure that you receive your moose licence and game seal when they are mailed to you, **and to receive confirmation that your application has been entered in the draw**. At the end of the call you will be told your pool status.

Pool Status: ☐

If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address. Your address may also be updated 24 hours a day at: *ontario.ca/outdoorscard*.

STEP 10 As the last step, contact your Group Members and give them your 7-digit Group Reference Number so that they may call in and add their names to the group's application.

Keep this worksheet for your files.

GROUP MEMBER

To use this worksheet, ensure you are a Group Member and not a Group Leader or an Individual Applicant. If you are the first member of your group to apply to the draw by telephone, then you are considered to be the Group Leader and should refer to those instructions before calling.

The instructions and worksheet provided below will assist you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep the worksheet in front of you during the call so you can record your Authorization Number. **Before the call** you need to record your Group Reference Number (provided by your Group Leader), your Outdoors Card Number, and credit card number and expiry date.

STEP 1 Call **1-800-288-1155** between **April 25 and June 2, 2008.** This telephone line operates 24 hours a day, 7 days a week until 11:55 p.m. (ET), June 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Moose Draw option.

STEP 2 When the system prompts you, choose the option to apply as part of a group, and at the next prompt, choose the Group Member option.

STEP 3 After the prompt, enter your 7-digit Group Reference Number.
Group Reference Number: ☐☐☐☐☐☐☐

STEP 4 After the prompt, enter your 15-digit (hunting version) Outdoors Card Number.
Your Outdoors Card Number is:

7 0 8 1 5 8 ☐☐☐☐☐☐☐☐☐

STEP 5 A recording will tell you your group's Hunt Code, WMU, type of moose, and firearm choice(s) as selected by your Group Leader.

STEP 6 Enter your **VISA, MasterCard, or American Express number:**

☐☐☐☐ ☐☐☐☐ ☐☐☐☐ ☐☐☐☐

STEP 7 Enter the 4-digit expiry date from your credit card.

expiry date: ☐☐ / ☐☐
month year

STEP 8 Stay on the line while the system authorizes your credit card number. Record the Authorization Number in the space provided below.

Authorization number: ☐☐☐☐☐☐

STEP 9 Stay on the line to confirm your postal code to ensure that you receive your moose licence and game seal when they are mailed to you, **and to receive confirmation that your application has been entered in the draw**. At the end of the call you will be told your pool status and the number of people who have applied to your group (including yourself). This number may include both Pool 1 and Pool 2 applicants.

Pool Status: ☐
If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address. Your address may also be updated 24 hours a day at *ontario.ca/outdoorscard*.

Keep this worksheet for your files.

INDIVIDUAL APPLICANT

The instructions and worksheet provided below will assist you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep the worksheet in front of you during the call so you can record your Authorization Number. Before the call you need to record your Outdoors Card Number, choice(s) of Hunt Code, and credit card number and expiry date. Hunt Codes are found in the 2008 Moose Draw Hunt Codes Table on pages 42 and 43.

STEP 1 Call **1-800-288-1155** between **April 25 and June 2, 2008**. This telephone line operates 24 hours a day, 7 days a week until 11:55 p.m. (ET), June 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Moose Draw option.

STEP 2 When the system prompts you, choose the option to apply as an individual.

STEP 3 After the prompt, enter your 15-digit (hunting version) Outdoors Card Number.
Your Outdoors Card Number is:

7 0 8 1 5 8 ☐☐☐☐☐☐☐☐☐

STEP 4 After the prompt, enter your first choice Hunt Code, and second choice Hunt Code (if you have one).

PLEASE NOTE: The responsibility for correctly entering the Hunt Code(s) rests solely with the applicant. Listen to your choice(s) carefully before confirming them.

	WMU	Type	Firearm	Hunt Code
First Choice				
Second Choice				

STEP 5 Enter your **VISA, MasterCard, or American Express number:**

☐☐☐☐ ☐☐☐☐ ☐☐☐☐ ☐☐☐☐

STEP 6 Enter the 4-digit expiry date from your credit card.

expiry date: ☐☐ / ☐☐
month year

STEP 7 Stay on the line while the system authorizes your credit card number, and provides you with your Authorization Number. Record this number in the space provided below.

Authorization Number: ☐☐☐☐☐☐

STEP 8 **Stay on the line** to confirm your postal code to ensure that you receive your moose licence and game seal when they are mailed to you, **and to receive confirmation that your application has been entered in the draw**. At the end of the call you will be told your pool status.

Pool Status: ☐
If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address. Your address may also be updated 24 hours a day at *ontario.ca/outdoorscard*.

Keep this worksheet for your files.

[**] Only individual applications accepted

Firearm
Gun = Rifles, Shotguns, Bows, & Muzzle-loaders
Bow = Bows only, including Crossbows
Bow & Muzzle-loader = Bows, including Crossbows & Muzzle-loaders

Special Opportunities for Moose Hunters with Lower Limb Disabilities

While hunters with disabilities may apply for a moose validation tag in any WMU, there are two WMUs that offer seasons specifically for resident moose hunters with lower limb disabilities. Hunters who qualify for these special seasons are:

- A paraplegic or hemiplegic
- A person with a single (above the knee) lower limb amputation, or a double (below the waist) amputation
- A person who suffers severe disability and cannot hunt without the use of a wheelchair or similar means of locomotion. In this case, the hunter must provide a medical certificate stating the disability.

Hunters wishing to take part in these hunts must apply to the regular draw for a validation tag; there is no separate tag quota. Lower-limb disabled hunters have the same odds of receiving an adult moose validation tag in these WMUs as any other hunter.

Northwestern Ontario – WMU 11B

A special moose season for hunters who qualify in one of the categories of mobility impairment listed above will be held before the regular gun hunt in WMU 11B. A limited number of opportunities are available in 2008. Those hunters wishing to hunt for an adult moose in this WMU during this special season must apply to the regular draw for a validation tag and then apply to the Thunder Bay District Office.

Resident archers without a disability who acquire a validation tag for the "special bow season preference" may bow hunt during this period.

The first opportunities in the hunt will be available to hunters who qualify and hold an adult moose validation tag for WMU 11B. Remaining opportunities will be available to hunters who qualify and who are interested in hunting calves. **For more information regarding this hunt, please contact the MNR Thunder Bay District Office, 435 James Street South, Suite B001, Thunder Bay, Ontario, P7E 6S8, telephone: (807) 475-1462.**

Southeastern Ontario – WMU 65

A special bows-only moose hunt for hunters who qualify in one of the categories of mobility impairment listed above will be held October 5-7, 2008, in WMU 65.

Hunters wishing to participate in this special hunt must apply to the regular draw and receive a validation tag in WMU 65. Mobility impaired moose hunters will be able to participate in the early mobility impaired season (October 5-7) as well as the regular bow hunt which follows (October 8-14).

If you have questions, please contact the MNR Kemptville District Office, at Postal Bag 2002, 10 Campus Drive, Kemptville, Ontario, K0G 1J0, or telephone (613) 258-8204.

INFORMATION FOR NON-RESIDENTS WISHING TO HUNT MOOSE

A non-resident who wishes to hunt moose in Ontario must have valid hunting accreditation and be a registered guest and actually accommodated at a tourist establishment. The outfitter must apply for and receive, on the non-resident's behalf, a validation tag to hunt moose (see exceptions below).

A non-resident's licence to hunt moose is only valid if it has a bull, cow or calf validation tag affixed to it. The non-resident can hunt only moose of the age and sex specified on the validation tag.

A non-resident may hunt in a party for moose when hunting in a Wildlife Management Unit (WMU) that is specified on the validation tag and that has a non-resident season. The party hunting must be carried out in accordance with the definition of party hunting (see page 23).

Please note that WMUs 46-63 and 65 do not have a moose season for non-residents.

Exceptions to requirement to hunt through an outfitter:

- Non-residents may hunt with an immediate relative who is an Ontario resident licensed to hunt moose in a WMU that has an open season for non-residents. Immediate relative when used in reference to a person, means that person's grandparent, parent, spouse, child, sibling or grandchild. If you qualify under this exception, you may apply in the resident moose draw for an adult validation tag. You must purchase a moose licence and submit your application, along with your affidavit verifying your relationship to your immediate relative, to a ServiceOntario Centre in the area in which you wish to hunt (see offices and WMU listings, page 80). Please note that the moose draw deadline is June 2, 2008.
- Non-residents who are owners of land in a WMU that has an open season for non-residents and wish to hunt in that unit, may apply for a calf validation tag from a ServiceOntario Centre. (Non-resident landowners are not eligible to apply in the resident moose draw for an adult validation tag.) Non-residents who qualify under this exception and wish to apply for a calf validation tag must purchase a moose licence and, prior to the hunt, submit their application along with proof of property ownership to a ServiceOntario Centre. Where a property is owned by more than one person or by a corporation, only one calf validation tag will be issued.
- **PLEASE NOTE:** Non-resident moose hunters may hunt moose in WMUs 7B, 9B, 11A, 11B, 12B, 13 and 14 only by hunting through a tourist outfitter or by hunting with an immediate relative (as defined above), who is an Ontario resident licensed to hunt moose. Non-resident landowners are not eligible to moose hunt in these units.

Guides

Non-residents must be accompanied by one licensed guide for each two hunters when hunting moose in the Territorial District of Rainy River. Wildlife Management Units (WMUs) in the Territorial District of Rainy River are: 9B, 10, 11A and parts of 7B and 12B.

Moose Hunter Education

MNR, in partnership with the Ontario Federation of Anglers and Hunters (O.F.A.H.) has produced two manuals: *Book 1 – Moose Biology, Ecology and Management,* and *Book 2 – Moose Hunting Techniques, Hunting Ethics and the Law.*

This two-volume set is available from the O.F.A.H. for $13.45 (GST and shipping included).

A 90-minute DVD on moose hunting has been produced for moose hunters. *Moose Hunt – A Guide To Success* covers such topics as equipment, tracking, calling and field dressing. It may be purchased from the O.F.A.H. for $67.35 (taxes and shipping included).

To order using a credit card, please call the O.F.A.H. at (705) 748-6324 or send a cheque payable to:
Ontario Federation of Anglers and Hunters
P.O. Box 2800
Peterborough, Ontario K9J 8L5

ONTARIO MOOSE IDENTIFICATION GUIDE ON CD

An Ontario Moose Identification Guide for Hunters is available on CD. This CD is a self-teaching presentation for use on personal computers. The Guide includes descriptions of the features used to identify the different ages and sexes of moose, as well as distinguish them from Ontario's other big game. The Guide is followed by an interactive quiz to test the user's knowledge of moose identification and reinforce messages about safe and lawful hunting. The CD will help both novice and experienced hunters. English and French versions of the CD are available through the Centre for Northern Forest Ecosystem Research in Thunder Bay (call 1-807-343-4000).

CADMIUM

The Ministry of Natural Resources recommends that people do not eat the liver and kidneys of moose and deer because of the concerns about cadmium levels in these internal organs.

2007 Moose Validation Tag Draw Provincial Summary

General Draw Statistics

Total tags available	15,679
Total applicants entered in the draw	100,560
Total successful applicants	14,549

Tags available

Gun Bull	9,718
Gun Cow	3,398
Gun Calf	71
Bow Bull	1,043
Bow Cow	1,374
Bow Calf	75
Total	15,679

Group Statistics

Total number of hunters in groups	45,499
Total tags issued to groups	7,996
Percentage of groups receiving tags	76%

Individual Statistics

Total number of hunters applying as individuals	55,061
Total tags issued to individuals	6,553
Percentage of individuals receiving tags	12%

Explanation of Tables (pages 47-50)

1 Shows the 2008 Guaranteed Group Size for all WMU/tag/season choices where the group size is 15 or fewer (the current group size maximum). Remember that only Pool 1 hunters are counted when determining group size and guaranteed tags are issued only on the first choice.

2 Shows the 2008 tag quotas for each WMU season and type choice.

3-5 Shows the tag quotas for 2007 and the total valid applications for all pools and choices for each WMU and season.

2008 Moose Seasons

Rifles, Shotguns, Bows and Muzzle-loaders

WMU(s)	Resident – Open Season	Non-resident – Open Season	Conditions (Restrictions Only)
1A**, 1C, 1D**, 16A, 16B, 16C, 17**, 25	Sept. 20 to Dec. 15	Sept. 22 to Nov. 15

22, 23, 24, 27, 28, 29, 30*, 31*, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42	Oct. 11 to Nov. 15	Oct. 13 to Nov. 15	* No hunting of predominantly white-coloured moose (over 50 per cent white) in WMUs 30 and 31.
26	Sept. 20 to Oct. 31	Sept. 22 to Oct. 31	
46, 47, 49, 50, 53, 54, 56, 58, 59, 60, 61, 62, 63	Oct. 20 to Oct. 25	No season	
48, 55A, 55B, 57	Oct. 20 to Oct. 25	No season	See special moose calf and adult hunting regulations and reporting requirements for these WMUs on page 36.

** WMUs 1A, 1D, 17 – no road access; water or air access only.

Bows and Muzzle-loaders Only

WMU(s)	Resident – Open Season	Non-resident – Open Season	Conditions (Restrictions Only)
7A**	Oct. 11 to Dec. 15	Oct. 13 to Nov. 15	
18B**	Sept. 20 to Oct. 10	Sept. 20 to Oct. 10	

** Note: To apply for the above bows and muzzle-loader seasons in WMU 7A and 18B, select the Special Bow Season Preference.

Bows-Only

WMU(s)	Resident – Open Season	Non-resident – Open Season	Conditions (Restrictions Only)
2, 3, 4, 5, 6, 8, 9A, 12A, 15A, 15B, 18A, 19, 21A, 21B, 22, 23, 24, 27, 28, 29, 30, 31, 32, 33, 35, 36, 37, 38, 39, 40, 41, 42	Sept. 20 to Oct. 10	Sept. 20 to Oct. 10	No hunting of predominantly white-coloured moose (over 50 per cent white) in WMUs 30 and 31.
7B+, 9B+, 11A+, 12B+, 13, 14	Sept. 20 to Oct. 10	Sept. 20 to Oct. 10	Non-resident landowners must hunt through a Tourist Outfitter. + Non-residents must hunt with a guide (part 7B and part 12B).
11B	Sept. 20 to Oct. 10	No season	
48, 55A, 55B, 57	Oct. 6 to Oct. 11	No season	See special moose calf and adult hunting regulations and reporting requirements for these WMUs on page 36.

2008 Moose Hunts with Controlled Hunter Numbers

WMU(s)	Resident – Open Season	Non-resident – Open Season	Conditions (Restrictions Only)
11B	Sept. 20 to Oct. 10	No season	Must have lower limb disability (see page 44). Eligible hunters must obtain a tag through the draw if they wish to hunt adult moose or be in possession of a valid calf validation tag in order to hunt calves.
65*	Oct. 5 to Oct. 7	No season	Must have lower limb disability (see page 44). Eligible hunters must obtain a tag through the draw if they wish to hunt moose. Only bows may be used. Written landowner permission required.
65*	Oct. 8 to Oct. 14	No season	Only bows may be used. Written landowner permission required.

* All hunters must obtain a WMU 65 validation tag, or be the partner of a hunter who has obtained a WMU 65 validation tag, before they can hunt any moose (adult or calf) in WMU 65. Contact Kemptville Office (613) 258-8204 for details. Written landowner permission required.

A Message from Ontario's Conservation Officers

It is illegal to abandon game or allow it to spoil. If you mistakenly shoot the wrong game, please call the 1-877-TIPS-MNR line and report it as soon as possible.

1-877-TIPS-MNR (847-7667)

Help Protect
Ontario's Natural Heritage

Ontario

The Ministry of Natural Resources would like to thank hunters, anglers and the public for calling the TIPS-MNR Line to report suspected resource violations such as night hunting, poaching of wildlife, taking over limits of fish, game or waterfowl and illegal dumping of waste and littering on Crown land.

In 2007 a total of 4,315 suspected resource violations were reported to the TIPS-MNR Line and 3,047 investigations have been completed by Conservation Officers as a result of these tips.

Your tips calls help protect Ontario's natural resources and support our compliance efforts. If you see or suspect an act of resource abuse, call the Ministry of Natural Resources' toll-free TIPS Line 24 hours a day, 7 days a week, year round at 1-877-847-7667.

It is unsafe and illegal to possess or carry a loaded firearm in or on a vehicle or motorboat unless authorized.

CONSERVATION OFFICER Ontario AGENT DE PROTECTION DE LA NATURE

1-877-TIPS-MNR (847-7667)

MOOSE PROGRAM REVIEW

Ontario's Moose Program Review is Underway

What's Happening

Last summer, the Ministry announced a broad review of Ontario's moose management program to ensure that the program continues to address factors affecting moose populations and is also responsive to the needs of Ontarians.

The Review will consist of two phases.

PHASE 1: In the spring/summer of 2008, an information package will be made available for public review, which deals with three components relating to moose management and a fourth component that relates to the resident moose tag draw. The Components of this phase of the Review are:

1. **Cervid Ecological Framework**
   How caribou, moose, elk, and deer could be managed in relation to each other.
2. **Moose Population Objectives**
   How objectives for the number of moose in each Wildlife Management Unit could be set.
3. **Moose Population Management**
   Tools for managing the moose population sustainably, including the enhanced management of adults and calves
4. **Resident Moose Tag Distribution**
   (Preliminary consultation)
   How the present system works and how can it be enhanced?

PHASE 2: In the winter of 2009, a broad consultation on the moose tag allocation process and the draw will take place which will include suggestions received from the Phase 1 public and stakeholder comments.

How to Participate

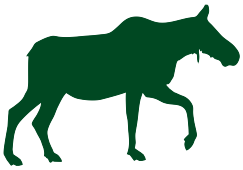
If you are interested in moose, we encourage you to review the information package and send us your ideas.

The Moose Review information package and questionnaire will be available at *ontario.ca/hunting*.

The information package will be available at ServiceOntario Centres upon request.

If you would like us to send you a package in the mail, write to us at:

Ministry of Natural Resources
Fish and Wildlife Branch
Box 7000
300 Water Street
Peterborough, Ontario
K9J 8M5



White-tailed Deer Regulations

INFORMATION FOR ALL DEER HUNTERS

Licence fees can be found on page 12.

Firearms

Big game, including deer, may only be hunted with a firearm (this includes bows). When hunting deer you may use or carry (on your person, in a vehicle or boat) only a firearm of the type permitted for hunting deer at that time in that WMU. For example, when hunting deer during a bows-only season, you may use or carry only bow hunting equipment. You may not carry a rifle or shotgun for hunting other game species. However, when hunting deer during a rifle/shotgun season you may also carry a rifle or shotgun for small game (in addition to your firearm that meets the specifications to hunt deer) because it is the same type of firearm.

Specifications on the firearms, bows, bolts and arrows that are permitted when hunting deer can be found on page 22.

Party Hunting for Deer

Party hunting for deer is permitted during the open season for deer **under a set of specific conditions. The list of conditions can be found on page 23.**

A person shall not hunt deer in a party during a controlled deer hunt season unless he or she holds a controlled deer hunt validation tag. The exception is a Hunter Apprentice hunting with a Mentor (in which case the Mentor must have a controlled deer hunt validation tag).

Sealing and Transporting Deer

The antlerless deer validation tag must be affixed to the recipient's game seal before hunting begins.

The controlled deer hunt validation tag must be carried by the recipient at all times while hunting in a controlled hunt.

If you have killed a deer while hunting alone, you must, **immediately** after the kill and at the kill site, securely **attach the game seal to the animal in the manner described on the seal. The seal must remain attached while transporting the carcass.**

If party hunting for deer, the member whose game seal is to be used and whose licence has been validated for hunting deer of the type that has been killed must **immediately** after the kill, and at the kill site, **securely attach the game seal to the animal, in the manner described on the seal.**

A person who seals a deer must notch out the month, date, and time of the kill on the game seal.

Only the hunter whose game seal is to be used is allowed to attach the game seal to the deer. It is illegal to transfer a game seal in order to seal a deer.

If you are transporting part of a deer, you must know, and be prepared to state:

- The name of the hunter who sealed the animal
- The hunting licence number and validation tag number under which the animal was sealed
- The WMU in which it was taken

if requested to do so by a Conservation Officer.

Import, Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

INFORMATION FOR NON-RESIDENTS WISHING TO HUNT DEER

Guides

Non-residents must be accompanied by one licensed guide for each two hunters when hunting deer in the Territorial District of Rainy River. WMUs within the Territorial District of Rainy River are 9B, 10, 11A and part of 7B and 12B.

Non-Residents of Canada Crown Land Camping Restrictions – WMUs 6, 7B, 9A, 9B

Non-residents must also be aware that Crown land camping is prohibited within 1 km of the following road systems in Kenora and Fort Frances Districts between October 1 to November 15:

- Hwy 71 and roads branching off of Hwy 71 from Strachan Road to the junction of Hwy 17
- Hwy 596, Caribou Falls Road and Sand Lake Road and all roads branching off of these roads to the junction of the English River Road
- Rush Bay Road and branch roads
- Shoal Lake Road and branch roads
- Gundy Lake Road and branch roads.

For more information contact the Kenora District Office at (807) 468-2501 or the Fort Frances District Office at (807) 274-5337.

INFORMATION FOR ONTARIO RESIDENTS WISHING TO HUNT DEER

There are two types of opportunities for Ontario resident deer hunters that involve computerized random draws for validation tags. They are:

- The Antlerless Deer Draw
- The Controlled Deer Hunt Draw.

The **antlerless deer** validation tag program was instituted in portions of Ontario in 1980, when deer populations were at a relatively low level.

An antlerless deer is defined as a deer that has no antlers, or has antlers that are less than 7.5 cm (3 inches) in length.

The program's purpose is to ensure the sustainability of the herd. Habitat has a limited ability to support deer; this ability is called the carrying capacity of the habitat. Maintaining a deer population within the carrying capacity of its habitat ensures a healthy population with minimal habitat impacts, which ensures sustainability.

The antlerless deer validation tag program is used to limit the number of antlerless tags allocated, which controls the number of antlerless deer harvested. If deer populations are low, then the number of antlerless tags offered will be low, to allow the herd to rebuild. As deer numbers increase, the number of antlerless tags offered will increase to control the growth of the herd. The antlerless deer validation tag program allows any legally licensed hunter to harvest a buck, but an antlerless deer (a doe or fawn) can be harvested only if the hunter or hunting party holds an antlerless deer validation tag.

The term **"controlled deer hunt"** means that the number of deer hunters hunting in a Wildlife Management Unit (WMU) is controlled or limited.

Controlled deer hunts take place in southern and southwestern Ontario. Many hunters refer to these hunts as the "shotgun hunts" because the firearm that is permitted is usually a shotgun or flintlock/percussion cap muzzle-loading gun.

Starting in 2009, the deadline for applying to the Antlerless Deer Draw will be June 30. The earlier deadline will enhance customer service and ensure timely delivery of deer validation tags to hunters.

Additional Game Seals for Deer

Deer populations in Ontario have flourished in recent years, leading to crop damage and increased deer/vehicle collisions in some areas.

When deer populations in certain Wildlife Management Units warrant, hunters may be offered the opportunity to purchase game seals to harvest additional deer. In offering these game seals for sale, limits will apply on both the total number of seals a hunter may purchase and the number of seals a hunter may purchase for any one Hunt Code. The table to the right shows the WMUs in Ontario in which it is anticipated a limited number of additional game seals will be offered in 2008.

For most of these WMUs additional game seals will be sold by automated telephone system only from August 5-22, 2008, on a first come, first served basis, at 1-800-288-1155.

In early August, hunters who purchased an additional deer seal in 2007 will be mailed a brochure confirming the WMUs that will offer additional deer seals and containing the hunt codes required to use this system. (If you do not receive a brochure, please call the Outdoors Card Centre at 1-800-387-7011 or view it on the MNR website.) Cost of the additional deer seal for residents is $37.30 (includes GST).

If a WMU has any game seals remaining for sale after August 22, they will be sold at selected ServiceOntario Centres starting August 27. Note that the limits mentioned above remain in effect during this over-the-counter sales period.

WMUs Expected to Offer Additional Game Seals for Deer, 2008	
Northwest Region	3, 4, 5, 6, 7A, 7B, 8, 9A, 9B, 10, 11A, 11B, 12A, 12B, 13, 14, 15A, 15B, 21A
Northeast Region	38, 43B, 47
Southern Region	63A, 63B, 64A, 64B, 65, 66A, 66B, 67, 69A , 69B, 70, 71, 72A, 72B, 73, 74A, 74B, 75, 76, 77, 78, 79, 80, 81, 82A, 82B, 84, 85A, 85B, 85C, 86A, 86B, 87A, 87B, 87C, 87D, 87E, 88, 89A, 89B, 90, 91, 92, 93, 94

Additional seals for Controlled Deer Hunts will be sold in October as outlined in the brochure. Hunters must possess a Controlled Deer Hunt Validation Tag along with their additional game seal to hunt with their additional seal during the Controlled Deer Hunt Season. Changes are proposed that would permit more WMUs to offer additional game seals for deer.

Please refer to the brochure that will be mailed in early August for more information.

NOTE: An additional game seal for deer is NOT a deer licence. An additional game seal for deer is valid only if the hunter possesses a current deer licence.

DEER FAMILY COMPARISON

Four different members of the deer family range freely in Ontario. You must have a valid licence for the species you are hunting. There is no open season for elk or caribou in Ontario, so you must be absolutely certain that the animal you see is the right species, sex and age.

There are differences in the size, shape and colour of moose, white-tailed deer, elk and caribou.

WOODLAND CARIBOU

Size: 1.0-1.2 m (3.5-4.0 ft.)
at the shoulders
Bull: 160 to 210 kg (353-464 lb)
Cow: 110 to 150 kg (243-331 lb)

MOOSE

Size: 1.5-1.8 m (5.5-6.0 ft.)
at the shoulders
Bull: 336 to 448 kg (900 -1,200 lb)
Cow: 224 to 299 kg (600-800 lb)

ELK

Size: 1.2 to 1.5 m (4.0-5.0 ft.)
at the shoulders
Bull: average 354 kg (780 lb)
Cow: 227 to 239 kg (500-525 lb)

WHITE-TAILED DEER

Size: 0.9 to 1.1 m (3.0-3.5 ft.)
at the shoulders
Adult buck: 45 to 136 kg
(100-300 lb)
Adult doe: 39 to 60 kg (85-130 lb)

Applying to the Draw for an Antlerless Deer Validation Tag

Any resident of Ontario who has a valid hunting version Outdoors Card may apply to the draw for an antlerless deer validation tag. Hunters who receive a validation tag in the draw are permitted to harvest their choice of EITHER an antlerless deer in the WMU specified on the tag OR an antlered deer anywhere in the province during the open season – with the exception of during a controlled hunt. See page 61 for information on hunting during a controlled deer hunt season.

Licensed hunters who do not apply to the antlerless draw, or who are not successful in the draw for an antlerless deer validation tag, may harvest an antlered deer only, anywhere in the province during the open season, with the exception of during a controlled hunt.

Hunters who wish to apply to the antlerless deer draw may use one of two methods. For your convenience, you may purchase your resident's deer licence tag (the sticker that goes on the back of your Outdoors Card) and apply to the antlerless deer draw in one toll-free call to **1-800-288-1155** between March 1 to July 31. This line is available 24 hours a day, seven days a week.

You may also purchase a deer licence from a licence issuer and submit a paper application for the draw to a ServiceOntario Centre.

Your chance of being drawn for an antlerless deer validation tag is the same whether you apply by telephone or by paper application. **Choose one method only** – you will be disqualified if more than one application is submitted in your name.

The deadline for applications by telephone is 11:55 p.m. (ET) on July 31, 2008.

The deadline for paper applications to be received at a ServiceOntario Centre is 5:00 p.m. on July 31, 2008.

Whether a hunter applies by telephone or by paper application, the responsibility for entering a valid application rests with that hunter. If you have any questions regarding your application or the application process, more information is available from the Natural Resources Information Centre at 1-800-667-1940.

Applying by Telephone

The telephone application system will allow you to both purchase a deer licence and apply to the antlerless validation tag draw in one phone call. **(If you have already purchased a deer licence, you must apply to the antlerless tag draw using the paper application that comes with your licence and game seal. Please refer to the section on Applying by Paper Application on page 57.)**

To use this system you must have a valid hunting version Outdoors Card. If your Outdoors Card has expired, you must renew it before you use the telephone application system. The quickest, most convenient ways to renew are:

- With a call to the toll-free, automated Outdoors Card renewal line at 1-800-288-1155,
- At *ontario.ca/outdoorscard*.

Once you have successfully completed your Outdoors Card renewal you may proceed immediately to the telephone application system for the antlerless deer validation tag draw.

For more information on Outdoors Card renewal options, see page 15.

It is recommended that you complete the Antlerless Deer Draw Worksheet for Hunters Applying by Telephone found on page 56 before making your call.

To use the telephone application system, you will need:

- A valid hunting version Outdoors Card number
- A VISA, MasterCard or American Express credit card (the charge on your credit card will be $37.30)
- The first and second choice (if you have one) Wildlife Management Units (including any sub-units) to which you would like to apply
- A Touch-Tone™ telephone.

During your call, listen to the recorded instructions carefully. You will be asked to confirm your answers, and will be given the opportunity to change an answer if you make a mistake. Remember that you must respond to the questions asked by using the keypad of your telephone. Do not speak your answers. The information that you enter electronically during your telephone call (using your telephone keypad) is your direct application to the draw.

When keying in the WMU to which you wish to apply, remember that single-digit WMUs (such as 5, 6, 7 etc.) must be entered with a "0" as the first digit. Enter such WMUs by keying 05, 06, 07, etc. Refer to the table titled Valid Antlerless Deer Wildlife Management Units (2008) on page 56. Remain on the line to get an Authorization Number. Record this number at the bottom of your worksheet for future reference.

Confirm your postal code before hanging up. If your postal code is not correct, call the Outdoors Card Centre during regular business hours (1-800-387-7011) to update your address so your licence (and validation tag if you are successful in the draw) will reach you; or update your address at: *ontario.ca/outdoorscard*.

Remember, do not apply to the draw by telephone if you have already submitted a paper application.

Antlerless Deer Draw Worksheet for Hunters Applying by Telephone

Note: The antlerless deer draw system does not accept controlled deer hunt applications.

Fill in the worksheet before you call, and keep the worksheet in front of you during the call so you can record your Authorization Number. Before the call you need to record your Outdoors Card Number, choice(s) of Wildlife Management Unit(s), and credit card number and expiry date.

Using your best Touch-Tone™ telephone, dial **1-800-288-1155**, 24 hours a day, seven days a week from March 1 to July 31. **Be sure to apply early**. If you wait for the last day and cannot get through because the lines are busy, you will not be able to enter the antlerless deer draw. **Do not wait until the last day.**

NOTE: If you are having a problem applying by telephone, after your fourth unsuccessful attempt to enter correct information when prompted, you will be given the telephone number of the Outdoors Card Centre. You should call this number as directed during regular business hours for assistance with your draw application. If you do not call this number before the draw deadline, your application will not be entered into the draw.

STEP 1 When the system prompts you, use the keypad of your telephone to choose the Antlerless Deer Draw entry option.

STEP 2 After the prompt, enter the 15 digits of your Outdoors Card.
Your Outdoors Card Number is:
7 0 8 1 5 8 ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

STEP 3 After the prompt, enter your first choice Wildlife Management Unit (WMU). Only the valid WMUs listed on this page will be accepted.

First, enter only the numbers of your WMU. If your WMU has more than one sub-unit, you will be asked to select the sub-unit next.

Your First Choice WMU is: ☐ ☐ ☐

PLEASE NOTE: You will be asked to confirm your choice of WMU. Listen to your choice carefully before confirming it. The responsibility for entering the correct WMU rests solely with the applicant. You cannot change your choices after you have confirmed them and entered the draw.

STEP 4 Repeat step 3 for your second choice WMU.
Your Second Choice WMU is: ☐ ☐ ☐

STEP 5 Enter your VISA, MasterCard or American Express card number:
☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

STEP 6 Enter the four digit expiry date from your credit card:
expiry date ☐ ☐ / ☐ ☐
month year

STEP 7 Stay on the line while the system authorizes your credit card number. Record the authorization number for your records.
Your authorization number is: ☐ ☐ ☐ ☐ ☐ ☐

STEP 8 Stay on the line to confirm your postal code to ensure that you receive your licence (and validation tag if successful in the draw) when it is mailed to you. If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (**1-800-387-7011**) to update your address. Your address can also be updated 24 hours a day at *ontario.ca/outdoorscard*. A correct address will ensure you receive your licence and game seal.

Keep this worksheet for your records.

Applying by Paper Application

Hunters who wish to apply for an antlerless deer validation tag using a paper application must first purchase a resident's or farmer's deer licence tag (the sticker that goes on the back of your Outdoors Card).

To purchase a deer licence from a licence issuer you must have a valid hunting version Outdoors Card in your possession. If your Outdoors Card has expired, you must renew it before you can purchase your deer licence. The quickest, most convenient ways to renew your Outdoors Card are:

- With a call to the toll-free, automated Outdoors Card renewal line at 1-800-288-1155
- At *ontario.ca/outdoorscard*.

Your new Outdoors Card will reach you in two to three weeks.

For more information on Outdoors Card renewal options, see page 15.

When you buy your deer licence, you will receive a paper application for the antlerless deer draw and your game seal.

Fill out the application form carefully and completely.

Write in a valid antlerless deer Wildlife Management Unit (WMU). Be sure to indicate the WMU sub-unit (A or B) if required. (Refer to the table titled Valid Antlerless Deer Wildlife Management Units (2008) on page 56.) If you need more information or have a question, call the Natural Resources Information Centre at 1-800-667-1940.

Ensure that the Outdoors Card number imprinted on your application for an antlerless deer validation tag is legible. If any portion of the imprinted number is not clear, write it neatly in the space provided at the top of the application. You are not required to indicate a second choice on your application if you do not have a second choice.

Submit your application well before the **5:00 p.m., July 31, 2008**, deadline for the antlerless deer draw. Remember that this deadline for your paper application is the date by which your application must be received by ServiceOntario. **This deadline is NOT a "postmarked by" date.** Whether an application is delivered by courier, registered mail or through the regular or government mail, please allow at least five working days for its delivery. **All late applications will be rejected from the draw without exception.**

Remember, do not submit a paper application if you have already applied to the draw by telephone.

Points to Remember When Applying to the Draw

- Submit only one application in your name.
- Your Outdoors Card must be valid.
- The application must be complete.
- The writing must be legible.
- Your application must be received by the deadline.
- Your hunting licence privileges cannot be under suspension.

The responsibility for entering a complete and correct application rests with the hunter. If you have any questions regarding your application, or the application process, more information is available from the Natural Resources Information Centre at 1-800-667-1940.

Draw Results Telephone Line

Draw applicants may call the toll-free Draw Results Line at 1-800-288-1155 to determine the results of the Antlerless Deer Draw. This automated line runs 24 hours a day, seven days a week from August 25 until December 31. Hunters will need their 15-digit Outdoors Card number to access their draw record.

The Mailing of Licences and Antlerless Deer Validation Tags

Only successful draw applicants, and those hunters who used the telephone application system to purchase their deer licence, will be notified by mail.

If you applied to the antlerless deer draw by telephone and were successful, the validation tag you receive is part of the game seal that is mailed to you. **Remember to remove your resident's deer licence tag from the top left corner of your game seal and affix it to the back of your Outdoors Card before you go hunting.**

If you applied to the antlerless deer draw with a paper application and were successful, the validation tag you receive must be affixed to your game seal.

Do not lose your validation tag or game seal.

If you were successful in the draw, or you purchased a licence by telephone, and you have not received your licence and/or validation tag, visit the ServiceOntario Centre which serves your area. You can get a duplicate licence and/or validation tag through your ServiceOntario Centre only after signing a declaration and verifying your address information. There may be a charge for this service. After the season starts, duplicate tags will be issued only at the discretion of the ministry.

If you have moved recently and have not informed the ministry of your new address you may not receive your licence/validation tag when it is mailed after the draw. Please call the Outdoors Card Centre at **1-800-387-7011** to update your address information, or change your address at *ontario.ca/outdoorscard*.

2008 Regular Deer Seasons

Rifles, Shotguns, Bows and Muzzle-loaders

Rifles, Shotguns, Bows and Muzzle-loaders are permitted during many of these seasons. Check the conditions under which you may hunt. These seasons located in Southern Ontario that include Sundays are subject to the Sunday gun hunting restrictions. (See page 24.)

WMU(s)	Resident – Open Season	Non-resident – Open Season (antlered deer only)	Conditions (Restrictions Only)

82B	Nov. 17 to Nov. 22	Nov. 17 to Nov. 22	Bows and muzzle-loading guns only; no dogs

Bow Hunting Seasons

Bow hunters wishing to hunt antlerless deer in a WMU with a bows-only season (refer to the table below Bows-Only Seasons – Deer) must apply to the antlerless deer validation tag draw in that unit.

Do not apply for an antlerless deer validation tag in a WMU with a controlled hunt unless you plan to hunt with a bow during the bows-only season. You must apply to the controlled hunt draw if you wish to hunt with a permitted firearm other than a bow during the controlled season.

2008 Bows-Only Seasons – Deer (No Dogs)

WMU(s)	Resident – Open Season	Non-resident– Open Season (antlered deer only)

Applying to the Draw for a Controlled Deer Hunt Validation Tag

Any resident of Ontario who has a valid hunting version Outdoors Card may apply to the draw for a controlled deer hunt validation tag. Tags are randomly assigned by computer. Each hunter who receives a tag in the draw is permitted to hunt a deer in the WMU specified on the tag during the period indicated.

Hunters who are not successful in the draw for a controlled deer hunt validation tag may not participate in the controlled deer hunt. (**NOTE:** Hunter Apprentices may participate in a controlled hunt if hunting in the approved Apprentice/Mentor fashion with a Mentor who has a controlled deer hunt validation tag.)

Hunters who are applying to the controlled deer draw do not have to purchase a deer licence prior to applying to the draw. However, hunters who receive a validation tag in the draw must purchase a deer licence tag (the sticker that goes on the back of the Outdoors Card) before they can hunt in the controlled hunt.

There are two ways to enter the draw for a controlled deer hunt validation tag:

- By calling the toll-free automated telephone application system at 1-800-288-1155.
- By paper application to a ServiceOntario Centre.

NOTE: If you are applying for a controlled deer hunt validation tag as a farmer/landowner, you must apply with a paper application to a ServiceOntario Centre (page 80) in the area in which you or your immediate relative own land. For more information on farmer/landowner applications, see page 64.

Your chance of being drawn for a controlled deer hunt validation tag is the same whether you apply by telephone or by paper application, and both application methods are free of charge. **Choose one method only – you will be disqualified if more than one application is submitted in your name.**

Draw applicants who wish to hunt in a party should apply as a group (using one application form) rather than as individuals. (The benefit of this is that if your group application is selected in the computerized draw, **every hunter** listed on your application will receive a controlled deer hunt validation tag. The applicant who hunts in a party but applies as an individual risks being the only hunter in the party who is successful, or unsuccessful, in the draw.) The maximum number of hunters who can apply as one group is four.

Whether a hunter applies by telephone or by paper application, the responsibility for entering a valid application rests with that hunter. If you have any questions regarding your application, or the application process, more information is available from the Natural Resources Information Centre at 1-800-667-1940. For a list of WMUs that offer controlled deer hunts, see page 65.

The deadline for applications by telephone is 11:55 p.m. (ET) on September 2, 2008.

The deadline for paper applications to be received at a ServiceOntario Centre is 5:00 p.m. on September 2, 2008.

Before You Apply – Advance Preparation

You will need a valid hunting version Outdoors Card to apply to the controlled deer hunt draw.

If your Outdoors Card has expired, the quickest, most convenient ways to renew are:

- With a call to the toll-free, automated **Outdoors Card renewal line at 1-800-288-1155**
- At *ontario.ca/outdoorscard*.

Once you have successfully completed your Outdoors Card renewal by either method you may proceed immediately to the telephone application system for the controlled deer draw or return your paper application to a ServiceOntario Centre. For more information on renewal options see page 15.

If your Outdoors Card is valid but you have moved since you received it, contact the Outdoors Card Centre at **1-800-387-7011** or *ontario.ca/outdoorscard* and provide your current address. This will ensure that you receive your tag at your new address if you are successful in the draw.

See the 2007 Controlled Deer Validation Tag Draw Results table on page 66 for a general indication of the chances of receiving a controlled deer hunt validation tag in 2008.

Selecting a WMU that offers a large number of tags and has relatively few applicants will increase a hunter's chance of getting a validation tag in the draw.

Applying by Telephone

For your convenience you may apply for a controlled deer hunt validation tag with a toll-free call to **1-800-288-1155**, 24 hours a day, seven days a week from **August 1, 2008 to 11:55 p.m. (ET) on September 2, 2008**. There is no fee for this application service.

To use the telephone application system, you will need:

- A Touch-Tone™ telephone
- A valid hunting version Outdoors Card
- The 2008 Hunt Code representing the first and (optional) second choice Wildlife Management Units and seasons to which you would like to apply (see page 62).

- If applying as part of a group, you will need to have decided with your group if you are the Group Leader or a Group Member. (If you call in as the Group Leader, you will be given a Group Reference Number to identify your group. If you are a Group Member, you will be asked for the Group Reference Number provided to the Group Leader so your group can be identified.)

When using the telephone application system, it is important to remember that you must respond to the questions asked by using the keypad of your phone. **Do not speak your answers.**

What Type of Applicant Are You?

To use the telephone application system, hunters must decide – prior to calling – which type of applicant they are. If your group is using the telephone application system, every member of the group must apply to the draw by telephone.

There are three types of draw applicants:
• Group Leader • Group Member • Individual

Hunters applying as part of a group will have to decide who the Group Leader is and who the Group Members are, prior to calling. The maximum number of hunters that can apply as one group is four, comprised of three Group Members plus the Group Leader.

GROUP LEADER – The Group Leader must be the first member of the group to apply through the telephone application system. The Group Leader is the only member of the group who enters the Hunt Code representing the group's choice of WMU and season. (Refer to the table titled Hunt Codes for the 2008 Controlled Deer Draw Telephone Application System on this page.) The Group Leader is then provided with a Group Reference Number to identify the group and its choice(s). The Group Leader must give the Group Reference Number to the Group Members so they may add their names to the group's application when they phone in.

GROUP MEMBERS – Each Group Member must obtain the Group Reference Number from the Group Leader before calling to enter the draw. During the call each Group Member will be asked for the Group Reference Number so the group can be identified and linked together in the draw. **Your Confirmation Number is your assurance that you have been entered in the draw.**

INDIVIDUALS – Individuals must enter the Hunt Code representing their choice(s) of Wildlife Management Unit and season. (Refer to the table titled Hunt Codes for the 2008 Controlled Deer Draw Telephone Application System on this page.) **Your Confirmation Number is your assurance that you have been entered in the draw.**

The deadline for applications by telephone is 11:55 p.m. (ET) on September 2, 2008.

Remember, do not apply by telephone if you have already submitted a paper application.

Hunt Codes for the 2008 Controlled Deer Draw Telephone Application System

WMU	Season Dates for 2008	Hunt Code	Conditions B=Bow SG=Shotguns R=Rifles ML=Muzzle-loaders

* Some Controlled Hunt Validation Tags for the December hunt in units marked with an asterisk (*) are valid for ANTLERED DEER ONLY.

** WMU 69A2 will be referred to as 69A during the telephone draw entry call.

GROUP LEADER INSTRUCTIONS AND WORKSHEET

The instructions and worksheet provided below will help you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep this worksheet in front of you during the call so you can record your Group Reference Number. **Before you call** you need to record your Outdoors Card Number and choice(s) of Hunt Code. The table titled *Hunt Codes for the 2008 Controlled Deer Draw Telephone Application System* is found on page 62.

STEP 1 Contact the members of your group (maximum group size is three plus the leader) to ensure they know you are the Group Leader.

STEP 2 Call **1-800-288-1155** between August 1 and September 2, 2008. This telephone line operates 24 hours a day, seven days a week until 11:55 p.m. (ET), September 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Controlled Deer Draw option.

STEP 3 When the system prompts you, choose the option to apply as part of a group, and at the next prompt, choose the Group Leader option.

STEP 4 After the prompt, enter your 15-digit (hunting version) Outdoors Card Number. Your Outdoors Card Number is:

708158 ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

STEP 5 After the prompt, enter your first choice Hunt Code, and your second choice Hunt Code (if you have one).

Please note: The responsibility for correctly entering the Hunt Code(s) rests solely with the applicant. Listen to your choice(s) carefully before confirming them. You will be given the opportunity during the call to change your selection(s) if you have made a mistake.

	WMU	Season	**Hunt Code**
First Choice			
Second Choice			

STEP 6 Stay on the line while the system provides you with a seven digit Group Reference Number. Record this number in the space below.

Group Reference Number: ☐ ☐ ☐ ☐ ☐ ☐ ☐

STEP 7 **Stay on the line** to confirm your postal code to ensure that you receive your Controlled Deer Hunt Validation Tag if you are successful in the draw. If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address.
Your address can also be updated 24 hours a day at: *ontario.ca/outdoorscard.*

STEP 8 As the last step for the Group Leader, contact your Group Members and give them your seven-digit Group Reference Number so that they may call in and add their names to the group's application.

Keep this worksheet for your files.

GROUP MEMBER INSTRUCTIONS AND WORKSHEET

To use this worksheet, ensure you are a Group Member and not a Group Leader or an Individual Applicant. If you are the first member of your group to apply to the draw by telephone, you are considered the Group Leader and should refer to those instructions before calling.

The instructions and worksheet provided below will assist you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep the worksheet in front of you during the call so you can record your Confirmation Number. Your Confirmation Number is your assurance that you have been entered in the draw. **Before the call** you need to record your Group Reference Number (provided by your Group Leader) and your Outdoors Card Number.

STEP 1 Call **1-800-288-1155** between August 1 and September 2, 2008. This telephone line operates 24 hours a day, seven days a week until 11:55 p.m. (ET), September 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Controlled Deer Draw option.

STEP 2 When the system prompts you, choose the option to apply as part of a group, and at the next prompt, choose the Group Member option.

STEP 3 After the prompt enter the seven-digit Group Reference Number provided by your Group Leader.

Group Reference Number: ☐ ☐ ☐ ☐ ☐ ☐ ☐

Step 4 After the prompt, enter you 15-digit (hunting version) Outdoors Card Number. Your Outdoors Card Number is:

708158 ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

Step 5 A recording will tell you your group's Hunt Code, WMU and season choice(s) as selected by your Group Leader.

Step 6 **Stay on the line** while the system provides you with your Confirmation Number. **Your Confirmation Number is your assurance that you have entered the draw.** Record your Confirmation Number in the space below.

Confirmation Number: ☐ ☐ ☐ ☐ ☐ ☐

Step 7 **Stay on the line** to confirm your postal code to ensure that you receive your Controlled Deer Hunt Validation Tag if you are successful in the draw. If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address. Your address can also be updated 24 hours a day at: *ontario.ca/outdoorscard* .

At the end of the call you will be told the number of people who have been applied to your group (including yourself).

Keep this worksheet for your files.

INDIVIDUAL APPLICANT INSTRUCTIONS AND WORKSHEET

The instructions and worksheet provided below will assist you with the telephone application process. **Fill in the worksheet spaces before you call**, and keep the worksheet in front of you during the call so you can record your Confirmation Number. Your Confirmation Number is your assurance that you have been entered in the draw. **Before the call** you need to record your Outdoors Card Number and choice(s) of Hunt Code. The table titled *Hunt Codes for the 2008 Controlled Deer Draw Telephone Application System* is found on page 62.

STEP 1 Call **1-800-288-1155** between August 1 and September 2, 2008. This telephone line operates 24 hours a day, seven days a week until 11:55 p.m. (ET), September 2. (We recommend that you call early in the application period. Do not wait until the last day.) When the system prompts you, choose the Controlled Deer Draw option.

Step 2 When the system prompts you, choose the option to apply as an Individual.

Step 3 After the prompt, enter your 15-digit (hunting version) Outdoors Card Number. Your Outdoors Card Number is:

708158 ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

Step 4 After the prompt, enter your first choice Hunt Code, and your second choice Hunt Code (if you have one).

Please note: The responsibility for correctly entering the Hunt Code(s) rests solely with the applicant. Listen to your choice(s) carefully before confirming them. You will be given the opportunity during the call to change your selection(s) if you have made a mistake.

	WMU	Season	**Hunt Code**
First Choice			
Second Choice			

Step 5 **Stay on the line** while the system provides you with your Confirmation Number. **Your Confirmation Number is your assurance that you have entered the draw.** Record your Confirmation Number in the space below.

Confirmation Number: ☐ ☐ ☐ ☐ ☐ ☐

Step 6 **Stay on the line** to confirm your postal code to ensure that you receive your Controlled Deer Hunt Validation Tag if you are successful in the draw. If your postal code is not correct, call the Outdoors Card Centre as soon as possible during regular business hours (1-800-387-7011) to update your address. Your address can also be updated 24 hours a day at: *ontario.ca/outdoorscard.*

Keep this worksheet for your files.

Applying by Paper Application

Hunters who wish to apply for a controlled deer hunt validation tag using a paper application may obtain an application from a ServiceOntario Centre. For a list of Wildlife Management Units in which controlled deer hunts will be held, see page 65.

The paper application has spaces on it for up to four hunters to apply to a controlled hunt as a group. The same application may be used by an individual hunter. Individuals have the same chance to receive a tag as group applicants.

To be eligible for the draw, your completely and correctly filled out paper application and the carbon copy must be received at a ServiceOntario Centre by the **deadline of 5:00 p.m. on September 2, 2008.** If your application is delivered by courier, registered mail or through the regular or government mail, it is suggested that you allow at least five business days for its delivery. **All late applications will be rejected from the draw without exception.**

Remember, do not submit a paper application if you have already applied to the draw by telephone, or if you are a member of a group which has decided to apply by telephone.

Points to Remember When Applying to the Draw

- Submit only one application in your name.
- Your Outdoors Card must be valid.
- The application must be complete.
- The writing must be legible.
- Your application must be received by the deadline.
- Your hunting licence privileges cannot be under suspension.

The responsibility for entering a complete and correct application rests with the hunter. If you have any questions about your application, or the application process, more information is available from the Natural Resources Information Centre at 1-800-667-1940. For a list of WMUs that offer controlled deer hunts, see page 65.

Draw Results Telephone Line

Draw applicants may call the toll-free Draw Results Telephone Line at **1-800-288-1155** to determine the results of the Controlled Deer Hunt Validation Tag Draw. This automated line operates 24 hours a day, seven days a week from October 15 until December 31. Hunters will need their 15-digit Outdoors Card number to access their draw record.

The Mailing of Validation Tags

Only successful draw applicants will be notified by mail. If you have called the Draw Results Telephone Line and you were successful in the draw, but have not received your validation tag, contact the Outdoors Card Centre at 1-800-387-7011. You can get a duplicate validation tag through a ServiceOntario Centre only after signing a declaration and verifying your address information. After the season starts, duplicate tags will be issued only at the discretion of the ministry.

With your tag you will receive a Controlled Deer Hunt Report. **It is mandatory that every person who receives a controlled deer hunt validation tag complete and return the Report to the MNR office which offered the hunt** (see address on the back of the Report) **within two weeks of the hunt.** On the form you will be asked to report the number of deer and wild turkeys you saw while hunting, as well as details of your deer harvest.

Farmer and Landowner Deadline for a Controlled Hunt Validation Tag

Farmers and landowners may submit one (1) application for a controlled deer hunt validation tag if:

- They own 20 hectares (50 acres) or more of land in a Wildlife Management Unit (WMU) that is offering a controlled hunt **OR**
- Their occupation is farming and they have an Ontario Ministry of Agriculture, Food, and Rural Affairs Farm Business Registration Number (or letter of exemption from the Farm Organization Accreditation Tribunal) in a WMU that is offering a controlled hunt **OR**
- They are the owner or the sole designated representative (president, vice-president, treasurer or secretary) of a company which owns a parcel of land of 20 hectares (50 acres) or more in the WMU that is offering a controlled deer hunt.

Farmers and landowners meeting one of these criteria will be issued a validation tag if:

- They hold a valid hunting version Ontario Outdoors Card **AND**
- They submit an application to a ServiceOntario Centre (page 80) in the area of the hunt **before 5:00 p.m. on October 1, 2008.**

An immediate relative of the farmer or landowner meeting the above criteria also qualifies to receive a controlled deer hunt validation tag. An application signed by the **landowner** must be submitted to the ServiceOntario Centre in the area that administers the controlled hunt in which the hunter wishes to take part. “Immediate relative” when used in reference to a person, means that person’s grandparent, parent, spouse, child, sibling or grandchild.

2008 Deer Hunts with Controlled Hunter Numbers (No Dogs)

You must have a controlled deer hunt validation tag before participating in these hunts.

WMU(s)	Resident – Open Season	Non-resident – Open Season (antlered deer only)	Conditions (Restrictions Only)

* Hunt administered by CFB Borden.
For more information on the WMUs listed above please contact the appropriate MNR office listed on page 80 of this booklet.

species at risk

Ontario has a rich diversity of wild plant and animal species but the populations of more than 170 are in decline. They are species at risk.

The good news is our new **Endangered Species Act, 2007**, makes Ontario a North American leader in species at risk protection and recovery. We're working with people and partner organizations across Ontario to recover species and their habitats.

You can help protect Ontario's species at risk by reporting any illegal activity to the Ministry of Natural Resources. **Call their toll-free TIPS Line at 1-877-TIPS-MNR (847-7667)** 24 hours a day, seven days a week. Your information will be used to help Conservation Officers investigate violations.

To learn more about species at risk and the Endangered Species Act, 2007, visit *ontario.ca/speciesatrisk*.

Blanding's Turtle is a threatened species in Ontario, and is a specially protected reptile under the Fish and Wildlife Conservation Act (see page 79).

CHRONIC WASTING DISEASE (CWD)

Chronic Wasting Disease (CWD) is a degenerative, fatal brain disease of deer, elk, and moose. As of November 2007, it had been identified in captive and/or wild animals in 14 U.S. states and two Canadian provinces.

Since 2002, Ontario has been testing for CWD but has found no evidence that CWD exists in wild deer or elk in the province. MNR encourages hunters to take part in the 2008 surveillance program (details will be available before the fall).

The World Health Organization has said there is no scientific evidence that CWD can infect humans, but recommends that meat from an infected animal should NOT be eaten.

More information on CWD, the regulation, Ontario's CWD Surveillance and Response Plan and CWD testing program, is available at *ontario.ca/cwd.*

New information will be posted on the website as it becomes available.

Important Information for Hunters and the Public:

- In Ontario, there is a restriction on the possession of high risk carcass parts of deer and elk that were harvested in other jurisdictions. These parts include the head, spinal column, unprocessed antlers or hide, lymph nodes, eyes, spleen, mammary glands, entrails and internal organs. However, this does not apply to a finished taxidermy mount, tanned skin, canine teeth (no tissue attached), or antlers (or a skull cap with antlers attached) as long as there is no tissue/skin attached and they are separate from the skull. A person can possess a hide or the skin of the head if it is in a container from which nothing can escape until it is processed by a tanner/taxidermist (must be within five days of coming into Ontario).
- Due to the increased potential to spread disease, MNR currently discourages winter feeding of deer and elk except in emergency situations where severe winter conditions can jeopardize the sustainability of the population.
- If you see an animal displaying physical signs of CWD (including loss of body weight and condition, indifference to humans, increased salivation, tremors, stumbling), report this information to an MNR office.

Black Bear Regulations

INFORMATION FOR ALL BLACK BEAR HUNTERS

Licence fees can be found on page 12.

Firearms

Big game, including black bears, may only be hunted with a firearm (this includes bows). If you are hunting deer or moose at the same time you are hunting black bears, you may only use or carry (on your person, in a vehicle or boat) a firearm of the type permitted for deer or moose, as the case may be, at that time in that WMU.

Specifications on the firearms, bows, bolts and arrows that are permitted when hunting black bear can be found on page 22.

Party Hunting for Black Bears

Party hunting for black bears is permitted during the open season for black bears **under a set of specific conditions. The list of conditions can be found on page 23**.

Sealing and Transporting Black Bears

If you have killed a black bear while hunting alone, you must immediately after the kill and at the kill site securely attach the game seal to the animal in the manner described on the seal. The seal must remain attached while transporting the carcass.

If party hunting for black bears, the member whose game seal is to be used must, immediately after the kill and at the kill site, securely attach the game seal to the animal in the manner prescribed on the seal.

A person who seals a black bear must notch out the month, date and time of the kill on the game seal.

Only the hunter whose game seal is to be used is allowed to attach the game seal to the black bear. It is illegal to transfer a game seal in order to seal a black bear.

Other Black Bear Hunting Regulations

It is illegal to hunt black bears within 400 m (437 yd.) of a waste disposal site, regardless of whether the land is Crown or private.

It is illegal to shoot or interfere with black bears in their dens, or damage or destroy their dens.

It is illegal to possess a bear gallbladder that has been separated from the bear carcass. Leave the gallbladder with the entrails after field dressing your bear.

Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

In some instances, both a CITES and a Provincial Export permit are required. Except as outlined on page 68, a resident or non-resident black bear hunter must also obtain a Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) export permit through an MNR office when a black bear or its parts are being exported from Canada.

A Canadian CITES export permit is no longer required for U.S. or Canadian resident bear hunters transporting their black bear in a fresh, frozen or salted condition back to the U.S. or through the U.S. en route to another part of Canada at the conclusion of their hunt. The black bear must be part of the hunter's accompanying baggage. **NOTE:** Materials sent as cargo, even if on the same flight as the hunter, are considered commercial and must be accompanied by CITES permits. This exemption does not apply to taxidermy mounts or black bears that are in any condition other than fresh, frozen or salted.

CITES export permits are still required for ALL black bear exports to countries other than the United States.

CITES permits are not normally available near border crossings and, consequently, hunters are advised to obtain any required permits from a source closest to where they are hunting.

CITES export permits are available free of charge.

In some countries, importation of black bears is restricted. Requirements for importation should be determined by the exporter.

More information on CITES is available at *www.cites.ca*.

INFORMATION FOR RESIDENT BLACK BEAR HUNTERS

Residents who purchase a black bear hunting licence are required to complete a mandatory questionnaire and mail it to MNR by December 15 of the year of the hunt. A hunter must submit the mandatory questionnaire even if they did not bear hunt. The questionnaire is included on page 69 of this publication. Copies are available at ServiceOntario Centres or at *ontario.ca/hunting.*

A resident hunter must complete the mandatory questionnaire, place it in an envelope, and mail it to MNR, Big Game Harvest Assessment Program, 1350 High Falls Road, Bracebridge ON P1L 1W9 by December 15 of the year of the hunt.

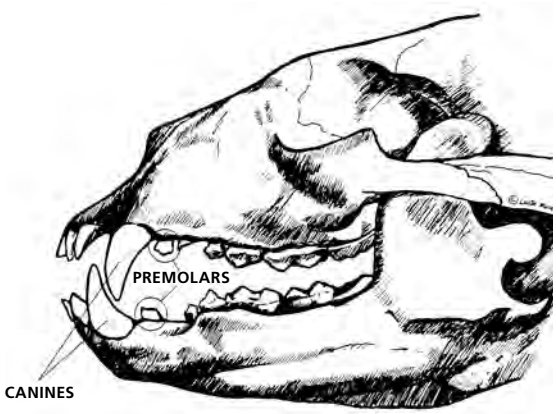
WMU-specific **second game seals for black bears** may be available to resident bear hunters in WMUs where there are no sustainability concerns. The second game seal allows a resident hunter to harvest a second black bear. These seals are available from ServiceOntario Centres. You can contact ServiceOntario in August of the year of the hunt for information on WMUs where second game seals are available or go to *ontario.ca/hunting.* **It is illegal to hunt in a WMU not specified on the game seal when hunting black bears under a second game seal.**

BLACK BEAR HUNTERS WE NEED YOUR HELP

Successful black bear hunters can assist the Ministry of Natural Resources in determining the age structure of local bear populations by submitting for analysis two premolar teeth from each bear harvested. This information provides data necessary for the sustainable management of the species.

In return for your support of wildlife management efforts, an Ontario Bear Hunter Crest and information about the age of your bear(s) will be mailed to your home address, usually within six months. Please contact the MNR office in the area in which you will be hunting, or your bear operator, for more information.

Premolar teeth should be extracted shortly after the animal has been killed while the jaw is still pliable. The first premolar is a small, single-rooted peg-like tooth located just behind the canines. To remove the tooth push the blade of a knife down along all sides of the tooth between it and the gum. Gently loosen the tooth by rocking it back and forth using the canine for leverage, then carefully remove the tooth using pliers. Care should be taken when extracting the tooth to ensure that the root is not broken.



2008 Mandatory Questionnaire for Resident Black Bear Hunters

Regulations under the Fish and Wildlife Conservation Act, 1997, require that **all residents who purchase a black bear hunting licence complete the mandatory questionnaire** below and submit it to the MNR by **December 15, 2008. You must submit a report even if you did not bear hunt.**

At the end of your hunting activity for the year, please complete the questionnaire below, and tear off this page and mail it in an envelope to the following address:

Ministry of Natural Resources
Big Game Harvest Assessment Program
1350 High Falls Road
Bracebridge, ON P1L 1W9

Copies of this questionnaire are available at ServiceOntario Centres and *ontario.ca/hunting*.

Personal information contained on this form is requested under the authority of the Fish and Wildlife Conservation Act, 1997, and will be used for the purposes of administration of the act, population management and harvest assessment. Questions about the collection of this information should be referred to:

MNR Wildlife Surveys Officer, 1350 High Falls Road, Bracebridge, ON P1L 1W9, telephone (705) 646-5541.

Last Name: _____ First Name: _____ Middle Initial: _____

Your Outdoors Card Number is:

7 0 8 1 5 8 ☐☐☐☐☐☐☐☐☐

Resident Black Bear Hunting Licence No.

B ☐☐☐☐☐

1. (a) Did you specifically hunt for bears in 2008? ☐ Yes ☐ No

   (b) Did you hunt bears while deer or moose hunting? ☐ Yes ☐ No

2. For each Wildlife Management Unit (WMU) in which you hunted bears in 2008, provide the following information relating to your activities while bear hunting (if the answer is none, enter the number "0"):

	WMU ☐☐☐	WMU ☐☐☐	WMU ☐☐☐
Number of days spent hunting bears			
Number of live bears seen while bear hunting			

3. Did you attach the bear game seal that came with your licence to a bear (no matter who shot the bear)? ☐ Yes ☐ No
   If yes,
   (a) What sex was the bear? ☐ Female ☐ Male
   (b) In which Wildlife Management Unit (WMU) was the bear shot? WMU ☐☐☐
   (c) On what date was the bear shot? ☐☐/☐☐ (month / day)

4. Did you purchase a second bear game seal in 2008? ☐ Yes ☐ No

   If you did not purchase a second bear game seal, you have completed your questionnaire.
   If you purchased a second seal, please respond to the following questions:

   (a) Did you attach this seal to another bear (no matter who shot the bear)? ☐ Yes ☐ No
   If yes,
   (b) What sex was the bear? ☐ Female ☐ Male
   (c) In which WMU was the bear shot? WMU ☐☐☐
   (d) On what date was the bear shot? ☐☐/☐☐ (month / day)

Thank you for your co-operation in providing this valuable information.

Please voluntarily submit two premolar teeth (see diagram on page 68 of this summary) from your bear(s) for age analysis, and you will receive a bear hunter crest and information on the age of your bear(s). Teeth should be placed in the envelope along with the completed questionnaire, and mailed to the address above.

INFORMATION FOR NON-RESIDENT BLACK BEAR HUNTERS

A non-resident who wishes to hunt a black bear in Ontario must have a Black Bear Hunting Licence Validation Certificate (white copy) to validate their non-resident black bear hunting licence. This certificate can be obtained from a bear operator (operator of a tourist establishment, guide or air carrier) licensed in Ontario to provide black bear hunting services to non-residents.

The following non-residents are not required to use a licensed bear operator:

- A non-resident hunting with an immediate relative who is an Ontario resident licensed to hunt a black bear in a Wildlife Management Unit (WMU) that has an open season for non-residents. Immediate relative, when used in reference to a person, means that person's grandparent, parent, spouse, child, sibling or grandchild.
- A non-resident who is the owner of property in a WMU that has an open black bear season for non-residents, may hunt anywhere in the WMU in which the property is located.

A non-resident who qualifies under either of these two exceptions MUST still apply for the validation certificate at an MNR office in the area of the hunt. A non-resident black bear hunting licence is not valid unless a validation certificate accompanies it. Where a property is owned by more than one person or by a corporation, only one validation certificate will be issued. The non-resident landowner can hunt only in the WMU where the property is located. See also Licence Information, page 12.

A non-resident hunter using the bear hunting services of an operator licensed to provide black bear hunting services must hunt only in the areas designated on the Black Bear Hunting Licence Validation Certificate received from the operator. These areas can include Crown or private land located within a Bear Management Area (BMA) assigned to the operator, and private land located within a WMU designated on the operator's licence. The licence to provide black bear hunting services does not permit the operator to provide hunting services on private land located within a BMA licensed to another operator. The operator must have permission of the landowner in order to provide bear hunting services to clients on private land.

Non-resident hunters are required to report their black bear hunting activity and harvest by November 30 of the year of the hunt. To report, the hunter must complete, sign and date the hunter mandatory report on the pink copy of the Black Bear Hunting Licence Validation Certificate held by the issuer of the certificate (operator licensed to provide bear hunting services or MNR office). It is the responsibility of the issuer to return the hunter's completed mandatory report to MNR.

ATTENTION ALL HUNTERS

If you harvest an animal wearing an ear-tag that contains phone number 1-866-514-2327, this animal was chemically immobilized in the past using veterinary drugs. Health Canada has established recommended guidelines for consumption. Please call the above number for specific information on whether Health Canada would recommend that the meat of your animal be consumed.

2008 Black Bear Seasons
Rifles, Shotguns, Bows and Muzzle-loaders

WMU(s)	Resident – Open Season	* Non-resident – Open Season	Conditions (Restrictions Only)
1A, 1C, 1D, 2, 3, 4, 5, 6, 7B, 8, 9A, 9B, 10, 11A, 11B, 12A, 12B, 13, 14, 15A, 15B, 16A, 16B, 16C, 17, 18A, 18B, 19, 21A, 21B, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45	Aug. 15 to Oct. 31	Aug. 15 to Oct. 31	
7A	Aug. 15 to Oct. 31	Aug. 15 to Oct. 31	Bows and muzzle-loaders only
46, 47, 49, 50, 53A, 53B, 64, 66, 67, 69A, 69B, 71, 72, 73, 74, 75, 76, 83, the geographic townships of Keppel and Sarawak in 82A and the geographic township of Amabel in 84	Sept. 2 to Nov. 30	Sept. 2 to Nov. 30	
48, 54, 55A, 55B, 56, 57, 58, 59, 60, 61, 62, 63, 68	Sept. 1 to Nov. 30	Sept. 1 to Nov. 30	

* A Black Bear Hunting Licence Validation Certificate is required for non-residents hunting black bear.

Small Game Regulations

Licence information and fees can be found on page 13.

Firearms

In an area where there is an open season for deer, moose or black bear, if you are the holder of a small game licence you may not possess or use a rifle of greater calibre or projectile power than a .22 calibre rim-fire rifle chambered to .22 short, .22 long or .22 long rifle or shells loaded with ball or with shot larger than No. 2 shot (or if using non-toxic shot, you may not use steel shot larger than triple BBB steel shot, or bismuth shot that is larger than double BB bismuth shot), unless you possess a valid licence to hunt deer, moose or black bear as the case may be.

The preceding does not apply to the holder of a small game licence, hunting small game only south of the French and Mattawa Rivers during an open season for deer that is restricted to the use of bows.

The holder of a small game licence may not use a rifle of greater calibre than .275, except a flintlock or percussion cap muzzle-loading gun, for hunting small game in the counties of Brant, Elgin, Essex, Huron, Lambton, Middlesex, Northumberland, Oxford, Perth and Wellington and the regional municipalities of Chatham/Kent, Durham, the former regional municipalities of Haldimand-Norfolk and Hamilton-Wentworth, Halton, Niagara, Peel, Waterloo and York and the City of Toronto.

Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

Game and Migratory Bird Regulations

You may hunt and possess wild turkey, pheasant, ruffed grouse, sharp-tailed grouse, spruce grouse, ptarmigan, Hungarian partridge and northern bobwhite. Check the tables for bag and possession limits. **You require a special licence to hunt wild turkey in addition to a small game licence** (see pages 29-31).

You may only hunt game birds identified in the tables. In addition, Ontario residents may hunt American crow, brownheaded cowbird, red-winged blackbird, common grackle, starling and house sparrows.

Specially Protected Birds

You must not shoot specially protected birds or interfere with the eggs and nests of game birds and specially protected birds. (See Definitions, page 79 and Specially Protected Wildlife, page 79.)

Game Bird Hunting Preserves

You may hunt pheasant, northern bobwhite and wild turkey throughout the year on game bird hunting preserves. You must arrange with the owner as to when you can hunt. Ontario residents need a licence to hunt small game when hunting on a preserve.

A non-resident hunter needs either a non-resident's licence to hunt game birds on a game bird hunting preserve or a non-resident's licence to hunt small game.

Information on wild ducks and avian influenza, including information for hunters handling waterfowl, is available from the Canadian Wildlife Service (CWS) at *www.cws-scf.ec.gc.ca* by following the avian influenza link or by phoning CWS at 1-800-668-6767.

Migratory Game Birds

Migratory game bird seasons are the responsibility of the federal government. In the past, as a service to hunters, the migratory game bird seasons were included in the Ontario Hunting Regulations Summary. However, the waterfowl seasons will not be finalized until June 2008 and therefore were not available at press time.

The Migratory Birds Convention Act and its regulations govern hunting of migratory game birds. **It is illegal to hunt migratory birds within 400 m (437 yd.) of where bait has been deposited unless that place has been free of bait for at least seven days.**

When transporting migratory game birds, a fully feathered wing must remain attached until the bird is prepared for immediate consumption.

Migratory Game Bird Licensing

(waterfowl, common moorhens, American coots, common snipe, woodcock and rails [other than yellow and king rails which cannot be harvested])

You must have a federal Migratory Game Bird Hunting Permit and a Wildlife Habitat Conservation Stamp, as well as an Ontario licence to hunt small game, in order to take migratory game birds. This includes hunting with falconry birds and non-indigenous falconry birds. You may buy a Migratory Game Bird Hunting Permit and Wildlife Habitat Conservation Stamp at most post offices. See page 73 for more information regarding falconry.

More information on migratory game birds is available from: Canadian Wildlife Service, Environment Canada, 867 Lakeshore Road, Burlington, Ontario L7R 4A6 (905) 336-6410 or *www.on.ec.gc.ca/wildlife*.

Pheasant

TOWNSHIP / MUNICIPALITY LICENCES – A township licence is required in addition to a provincial licence for hunting pheasant in regulated townships (see maps, pp 6-11). Contact the municipal clerk for issuance of township licences and information on firearm restrictions. Hunting of pheasants with a rifle is prohibited.

WMU(s)	Open Season	Daily Limit	Hours
2-41, 45	Sept. 15 to Dec. 15	3 of either sex	1/2 hour before sunrise to 1/2 hour after sunset

87, 90	Oct. 15 to Dec. 15	8	16

Northern Bobwhite

WMU(s)	Open Season	Daily Limit	Possession Limit
65	Under the Endangered Species Act, 2007 (ESA) effective June 30, 2008 Northern Bobwhite may not be killed or possessed. For more information on the ESA, please see page 4.		

Falconry

You must have a falconry licence to keep falconry birds in captivity. You also need a valid small game hunting licence to hunt with these birds. Falconry birds are: bald eagle, golden eagle, peregrine falcon, northern goshawk, gyrfalcon, northern harrier, broad-winged hawk, red-shouldered hawk, red-tailed hawk, sharp-shinned hawk, Cooper's hawk, American kestrel, merlin, great horned owl, northern hawk owl, and snowy owl. No other specially protected birds (raptors) may be used to hunt.

You do not need a falconry licence to keep non-indigenous falconry birds. However, if you use them for hunting, you must have a valid small game hunting licence. Non-indigenous falconry birds are: prairie falcon, saker falcon, lanner falcon, lagger falcon, Harris' hawk, ferruginous hawk, Swainson's hawk, European kestrel, European sparrow-hawk, Bonelli's eagle, tawny eagle and steppe eagle. No other non-indigenous raptors may be used to hunt.

Small Mammals

Squirrel Seasons

Gray (Black), Fox

WMU(s)	Open Season	Daily Limit	Possession Limit

42-44, 46-50, 53-59, 61-67, 69B	Sept. 20 to Dec. 15	10	10
60, 68, 69A, 70-92	Sept. 25 to Dec. 15	5	10
93, 94	Oct. 29 to Nov. 7	5	10

Rabbit and Hare Seasons

Cottontail Rabbit, European Hare, Varying (Snowshoe) Hare

TOWNSHIP / MUNICIPALITY LICENCES: A township or municipality licence is required in addition to a provincial licence for hunting rabbits in a regulated township (see map, pp. 6-11). Contact the municipal clerk for issuance of township licences and information on firearm restrictions.

NON-RESIDENTS NOTE: A non-resident's small game licence is not valid for hunting rabbits in the county of Lambton, the Municipality of Chatham / Kent or the county of Essex, except in the Township of Pelee.

WMU(s)	Open Season	Daily Limit
1-50, 53-59	Sept. 1 to June 15 of the next year	1) Cottontail Rabbit: limit of 6 2) European Hare: limit of 6 3) Varying Hare: • for WMUs 1-50 and 53-59: no limit • for WMUs 60-95: 6 maximum
61-67, 69B	Sept. 20 to Mar. 31 of the next year	
60, 68, 69A, 70, 71, 74, 75	Sept. 25 to Mar. 31 of the next year	
72, 73, 76, 77, 81-86	Sept. 25 to the last day of February of the next year	
78, 79, 80, 87, 90, 91, 92	Oct. 15 to the last day of February of the next year	
88, 89	Oct. 22 to the last day of February of the next year	
93, 94	Oct. 29 to the last day of February of the next year	
95	Jan. 1 to the last day of February

Furbearing Mammal Regulations

Furbearing Mammals

You may only hunt the furbearing mammals (see Definitions, page 78) listed in the table below under the authority of your small game licence. See special regulations for **Wolf and Coyote** on page 75. Note that a small game licence is not valid in northern Ontario and parts of central Ontario (as shown on Map 2, pp 8-9) from June 16 to August 31.

If you wish to hunt **raccoons at night**, you must carry your licence to hunt raccoon at night and your Outdoors Card with a small game licence. You must also be accompanied by a dog licensed for raccoon hunting. You can only use a .22 calibre rim-fire rifle chambered for the following cartridges: .22 short, .22 long or .22 long rifle. Raccoon night hunters must have their guns encased while in the vehicle. A licensed night raccoon hunter may use a light if it is not shone from or attached to a vehicle or boat.

Possession of Pelts During the Closed Season

Small game hunters who harvest furbearing mammals, including wolves and coyotes, during the open season and have not disposed of the pelts by the close of the season must obtain a Licence to Possess a Pelt in order to possess pelts during the closed season. This licence is available at no charge at MNR offices.

Royalty, Import, Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

A royalty is payable to the province at the time that the hunter obtains a licence to send pelts to a tanner (for tanning or treating, including taxidermy), or a licence to export a furbearing mammal.

Selling and Spoilage

See General Regulations, page 27, Game Wildlife and Parts for information on Selling and Spoilage.

Furbearing Mammals
which may be taken under the authority of a small game licence

Open Seasons

Species	Area	Open Season
Raccoon	All of Ontario*	Oct. 15 to Jan. 15 of the next year
Red Fox	All of Ontario north of French and Mattawa Rivers	Sept. 15 to the last day of Feb. of the next year
	Remainder of Ontario*	All Year
Arctic Fox**	All of Ontario*	Oct. 25 to Mar. 31 of the next year
Gray Fox	Under the Endangered Species Act, 2007 (ESA) effective June 30, 2008 Gray Fox may not be killed or possessed. For more information on the ESA, please see page 4.	
Skunk**	All of Ontario*	All Year
Weasel**	All of Ontario*	Oct. 25 to the last day of Feb. of the next year
Opossum**	All of Ontario*	Oct. 25 to Jan. 15 of the next year
Wolf and Coyote	See table pg. 76	See table pg. 76

* Not including WMU 51 (Algonquin Park)
** These species may not be taken by the holder of a non-resident small game licence.

A Message from Ontario's Conservation Officers

You must unload and encase firearms in your possession during the period from a half-hour after sunset to a half-hour before sunrise. The only exception is for licensed night raccoon hunters.

1-877-TIPS-MNR (847-7667)

Wolf and Coyote Regulations

INFORMATION FOR ALL WOLF AND COYOTE HUNTERS

Licence fees can be found on page 13.

You may only hunt wolves and coyotes under the authority of your small game licence. **In WMUs 43-45 and 59-95, only your small game licence is required.**

In WMUs 1A, 1C, 1D, 2-42, 46-50 and 53-58 the following regulations apply:

- **The wolf/coyote hunting and trapping season is closed from April 1 to September 14.**
- **You may only hunt wolves and coyotes under the authority of your small game licence accompanied by a wolf/coyote game seal purchased from ServiceOntario. You can purchase a maximum of two wolf/coyote game seals per calendar year.**
- **Party hunting of these animals is not permitted.**
- **You are required to immediately attach your wolf/coyote game seal to the wolf/coyote you have killed.**
- **You must complete and mail a mandatory questionnaire on your wolf/coyote hunting activity and harvest by January 15 of the year following the hunt. You must submit the questionnaire even if you bought a seal but did not hunt. Mandatory questionnaires will be mailed to hunters by MNR in December. Hunters should mail their completed questionnaire to: MNR, Big Game Harvest Assessment Program, 1350 High Falls Road, Bracebridge, ON P1L 1W9.**

The above regulatory changes include coyotes within core wolf range (WMUs 1A, 1C, 1D, 2-42, 46-50 and 53-58) because coyotes are difficult to distinguish from wolves, especially eastern wolves, where their ranges overlap. The above regulations do not apply to wolves and coyotes in WMUs south of core wolf range (WMUs 43-45 and 59-95).

Firearms

See page 71, Small Game Regulations, for specifications on firearms.

Sealing and Transporting

Party hunting for wolves and coyotes is not permitted in WMUs 1A, 1C, 1D, 2-42, 46-50 and 53 to 58. This means that you may hunt co-operatively with several hunters, however each hunter will have to be in possession of a wolf/coyote game seal to hunt wolves/coyotes in these WMUs, and the hunter that harvests the animal must personally seal it and may not continue to participate in the hunt unless in possession of an unfilled second wolf/coyote seal. It is illegal to transfer a wolf/coyote game seal from one hunter in order to seal a wolf or coyote taken by another hunter. **NOTE:** The specific rules around "party hunting" as summarized on page 23 apply only to moose, deer or black bears.

Once you have killed a wolf or coyote under a wolf/coyote game seal, you must **immediately** after the kill and at the kill site securely **attach your game seal** to the animal in the manner prescribed on the seal. The game seal must remain attached while the pelt (on or off the carcass) is being transported.

You must notch out the month, date and time of the kill on the wolf/coyote game seal, at the time of, and at the location of, the kill.

In WMUs 43-45 and 59-95 where a wolf/coyote seal is not required, you may hunt co-operatively in a group or party for wolves or coyotes without restrictions on the number of animals harvested or who can take them.

Possession of Pelts During the Closed Season

See page 74, Furbearing Mammals.

Royalty, Import, Export and Shipping

See General Regulations, page 28, for information on Import, Export and Shipping.

A royalty is payable to the province at the time that the hunter obtains a licence to send pelts to a tanner (for tanning or treating, including taxidermy), or a licence to export a furbearing mammal.

You need a CITES permit to export a wolf and several other species from Canada. CITES permits are currently available free of charge from MNR offices. In some countries the importation of wolves is restricted; requirements for importation should be determined by the exporter prior to shipment.

More information on CITES is available at *www.cites.ca*.

Wolf and Coyote

Species	Area/WMUs	Open Season
Wolf and Coyote*	1A, 1C, 1D, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 46, 47, 49, and 53B In 48, 50, 53A, 54, 55, 56, 57, and 58 **except** in the geographic townships listed below with no season.	From September 15, in any year, to March 31, in the next year following
Wolf and Coyote	In the geographic townships of Airy, Alice, Ballantyne, Boulter, Boyd, Bruton, Burns, Butt, Calvin, Cameron, Chisholm, Clancy, Clara, Clyde, Dickens, Dudley, Eyre, Finlayson, Franklin, Fraser, Hagarty, Harburn, Harcourt, Havelock, Head, Herschel, Lauder, Livingstone, Maria, McClintock, McClure, McCraney, McKay, Murchison, Papineau, Paxton, Petawawa, Richards, Rolph, Sabine, Sinclair, and Wylie	No season
Wolf and Coyote	43, 44, 45, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94 and 95	All year

* Wolf/coyote game seal required in order to hunt wolves and coyotes in these WMUs.

Game Amphibians and Reptiles

Frogs and Turtles

Snapping turtles and bullfrogs may be taken under the authority of a valid sport or conservation fishing licence. No commercial harvest of snapping turtles is permitted. You may only take snapping turtles by box or funnel traps or by your bare hands. You may not remove the upper shell from any snapping turtle until immediately before it is prepared for consumption.

No firearm other than a bow (compound, recurve, long) or crossbow may be used to take bullfrogs. A person may take bullfrogs at night without a firearm and a person may shine a light for that purpose.

You may take bullfrogs from July 21 to October 15. You may not take more than 10 bullfrogs in one day nor possess more than 10. Bullfrogs may not be taken in the City of Ottawa (formerly the Regional Municipality of Ottawa-Carleton), the counties of Prescott and Russell, Stormont, Dundas and Glengarry, Leeds and Grenville, Lanark, Frontenac, Lennox and Addington, Prince Edward, Northumberland, Peterborough and the City of Kawartha Lakes (formerly Victoria County) or in the townships in the County of Hastings south of and including the townships of Marmora and Lake, Tudor and Cashel, and Elzevir and Grimsthorpe.

See the Ontario Recreational Fishing Regulations Summary for additional information about the capture and use of frogs for bait.

NOTE: It is illegal to harvest bullfrogs or turtles in provincial parks or Crown Game Preserves.

Open Season for Snapping Turtles

WMU(s)	Residents	Non-residents	Daily Bag Limit	Possession Limit
2 to 45	All year	All year	2	5
61, 62	All year	July 15 to Sept. 15	2	5
